The Cinema of Hal Hartley Sebastian Manley, 2013-07-18 One of the most significant contributors to the American independent cinema that developed over the late 1980s and 1990s Hal Hartley has throughout his career created films that defy convention and capture the stranger realities of modern American life *The Cinema of Hal Hartley* looks at all of Hartley's film releases from cult classics such as *The Unbelievable Truth* and *Trust* to oddball genre experiments such as *No Such Thing* and *Fay Grim* to short films such as *Opera No 1* and *Accomplice* and makes a case for seeing Hartley as an important and successful American auteur despite the director's decline in status in the later stages of his career Employing both industrial and close textual analysis the book considers aspects of Hartley's work such as genre gender and form as well as dimensions far less frequently discussed in studies of indie directors such as place and cultural identity offering a broad and innovative study of a productive filmmaker who continues to show a singular disregard for the expectations of both the mainstream and the indie cinema industries [Hal](#)

understanding of on screen performance Previous studies of screen performance have tended to fix upon star actors directors or programme makers or they have concentrated upon particular training and acting styles Moving outside of these confines this book provides a truly interdisciplinary account of performance in film and television and examines a much neglected area in our understanding of how popular genres and performance intersect on screen Each chapter concentrates upon a particular genre or draws upon generic case studies in examining the significance of screen performance Individual chapters examine contemporary film noir horror the biopic drama documentary the western science fiction comedy performance in spoof news programmes and the television sit com and popular Bollywood films *Jim Jarmusch* Juan A. The Ashgate Research Companion to Minimalist and Postminimalist Music Keith Potter, Kyle Gann, 2016-03-23 In recent years the music of minimalist composers such as La Monte Young Terry Riley Steve Reich and Philip Glass has increasingly become the subject of important musicological reflection research and debate Scholars have also been turning their attention to the work of lesser known contemporaries such as Phill Niblock and Eliane Radigue or to second and third generation minimalists such as John Adams Louis Andriessen Michael Nyman and William Duckworth whose range of styles may undermine any sense of shared aesthetic approach but whose output is still to a large extent informed by the innovative work of their minimalist predecessors Attempts have also been made by a number of academics to contextualise the work of composers who have moved in parallel with these developments while remaining resolutely outside its immediate environment including such diverse figures as Karel Goeyvaerts Robert Ashley Arvo Pärt and Brian Eno Theory has reflected practice in many respects with the multimedia works of Reich and Glass encouraging interdisciplinary approaches associations and interconnections

Minimalism's role in culture and society has also become the subject of recent interest and debate complementing existing scholarship which addressed the subject from the perspective of historiography analysis aesthetics and philosophy The Ashgate Research Companion to Minimalist and Postminimalist Music provides an authoritative overview of established research in this area while also offering new and innovative approaches to the subject Cult Film Stardom K. Egan, S. Thomas, 2012-11-06 The term cult film star has been employed in popular journalistic writing for the last 25 years but what makes cult stars distinct from other film stars has rarely been addressed This collection explores the processes through which film stars actors become associated with the cult label from Bill Murray to Ruth Gordon and Ingrid Pitt **The Last Western** Jennifer Greiman, Paul Stasi, 2012-12-20 Perhaps the most sophisticated and complex of shows in HBO's recent history Deadwood has surprisingly little coverage in our current scholarship Grounding contemporary anxieties about race and class domesticity and American exceptionalism in its nineteenth century setting Deadwood revises our understanding of a formative period for the American nation through a re-examination of one of the main genres through which this national story has been transmitted the Western With contributions from scholars in American studies literature and film and television studies The Last Western situates Deadwood in the context of both its nineteenth century setting and its twenty first century audience Together these essays argue for the series as a provocative meditation on both the state and historical formation of U S empire examining its treatment of sovereign power and political legitimacy capital accumulation and dispossession racial and gender identities and social and family structures while attending to the series peculiar and evocative aesthetic forms What emerges from this collection is the impressive range of Deadwood's often contradictory engagement with both nineteenth and twenty first century America
