Constitutional Change and Democracy in Indonesia Donald L. Horowitz, 2013-03-25 How did democracy become entrenched in the world's largest Muslim majority country After the fall of its authoritarian regime in 1998 Indonesia pursued an unusual course of democratization It was insider dominated and gradualist and it involved free elections before a lengthy process of constitutional reform At the end of the process Indonesia's amended constitution was essentially a new and thoroughly democratic document By proceeding as they did the Indonesians averted the conflict that would have arisen between adherents of the old constitution and proponents of radical immediate reform Donald L Horowitz documents the decisions that gave rise to this distinctive constitutional process He then traces the effects of the new institutions on Indonesian politics and discusses their shortcomings and their achievements in steering Indonesia away from the dangers of polarization and violence He also examines the Indonesian story in the context of comparative experience with constitutional design and intergroup conflict *Deepening Democracy in Indonesia?* Maribeth Erb, Priyambudi Sulistiyanto, 2009 Since the fall of long reigning President Soeharto in 1998 Indonesia has been in an era of transition away from an authoritarian regime and on a quest for democracy This quest started with decentralization laws implemented in 2001 which gave greater autonomy to the regions and continued with the direct elections for the national and local legislatures and the President in 2004 The latest development in this democratization process is the implementation of a system for the direct election of regional leaders which began in 2005 the first round of elections across the nation for all governors mayors and district heads was completed in 2008 Authors of the chapters in this volume the result of a workshop in Singapore in 2006 present data from across the archipelago for these first direct elections for local leaders and give their assessment as to how far these elections have contributed to a deepening democracy **Party Politics in Southeast Asia** Dirk Tomsa, Andreas Ufen, 2013 Contributing to the growing discourse on political parties in Asia this book looks at parties in Southeast Asia's most competitive electoral democracies of Indonesia Thailand and the Philippines It highlights the diverse dynamics of party politics in the region and provides new insights into organizational structures mobilizational strategies and the multiple dimensions of linkages between political parties and their voters The book focuses on the prominence of clientelistic practices and strategies both within parties as well as between parties and their voters It demonstrates that clientelism is extremely versatile and can take many forms ranging from traditional personalized relationships between a patron and a client to the modern reincarnations of broker driven network clientelism that is often based on more anonymous relations The book also discusses how contemporary political parties often combine clientelistic practices with more formal patterns of organization and communication thus raising questions about neat analytical dichotomies Straddling the intersection

between political science and area studies this book is of interest to students and scholars of contemporary Southeast Asian politics and political scientists and Asian Studies specialists with a broader research interest in comparative democratization studies The Routledge Handbook to Religion and Political Parties Jeffrey Haynes,2019-11-28 As religion and politics become ever more intertwined relationships between religion and political parties are of increasing global political significance This handbook responds to that development providing important results of current research involving religion and politics focusing on democratisation democracy party platform formation party moderation and secularisation social constituency representation and interest articulation Covering core issues new debates and country case studies the handbook provides a comprehensive overview of fundamentals and new directions in the subject Adopting a comparative approach it examines the relationships between religion and political parties in a variety of contexts regions and countries with a focus on Christianity Islam Buddhism Judaism and Hinduism Contributions cover such topics as religion secularisation and modernisation religious fundamentalism and terrorism the role of religion in conflict resolution and peacebuilding religion and its connection to state democratisation and democracy and regional case studies covering Asia the Americas Europe Sub Saharan Africa the Middle East and North Africa This comprehensive handbook provides crucial information for students researchers and professionals researching the topics of politics religion comparative politics secularism religious movements political parties and interest groups and religion and sociology Communal Violence and Democratization in Indonesia Gerry van Klinken,2007-01-24 Through close scrutiny of empirical materials and interviews this book uniquely analyzes all the episodes of long running widespread communal violence that erupted during Indonesia s post New Order transition Indonesia democratised after the long and authoritarian New Order regime ended in May 1998 But the transition was far less peaceful than is often thought It claimed about 10 000 lives in communal ethnic and religious violence and nearly as many as that again in separatist violence in Aceh and East Timor Taking a comprehensive look at the communal violence that arose after the New Order regime this book will be of interest to students of Southeast Asian studies social movements political violence and ethnicity **Vote Buying in Indonesia** Burhanuddin Muhtadi,2019-05-07 This book is open access under a CC BY 4 0 license This book investigates the impact of vote buying on the accountability of democratic institutions and policy representation in newly democratic countries with a focus on Indonesia In doing so the book presents a wide ranging study of the dynamics of vote buying in Indonesia s young democracy exploring the nature extent determinants targeting and effectiveness of this practice It addresses these central issues in the context of comparative studies of vote buying arguing that although party loyalists are disproportionately targeted in vote buying efforts in total numbers given the relatively small number of party loyalists in Indonesia vote buying hits more uncommitted voters It also demonstrates that the effectiveness of vote buying on vote choice is in the 10 percent range which is sufficient for many candidates to secure a seat and thus explains why they still engage in vote buying despite high levels of leakage *Legislative Oversight and*

Verena Beitzinger-Lee, 2013-01-11 *Un Civil Society and Political Change in Indonesia* provides critical analysis of Indonesia's civil society and its impact on the country's democratization efforts that does not only take the classical pro-democratic actors of civil society into account but also portrays uncivil groups and their growing influence on political processes. Beitzinger-Lee offers a revised categorization of civil society including a model to define the sphere of uncivil society more closely and to identify several subcategories of uncivil society. This is the first book to portray various uncivil groups in Indonesia ranging from vigilantes, militias, paramilitaries, youth groups, civil security task forces, and militant Islamic and other religious groups, ethnonationalist groups to terrorist organizations and groups belonging to organized crime. Moreover, it provides the reader with an overview of Indonesia's history, its political developments after the democratic opening, main improvements under the various presidents since Suharto's fall, constitutional amendments, and key reforms in human rights legislation. This book will be of interest to upper-level undergraduates, postgraduates, and academics in political science and Southeast Asian studies.
