Connor Murphy,2012-06-01 Hamsters make absolutely wonderful pets both for children and for adults They are easy to take care of and very active little creatures that will give their owners joy in taking care of them However when you do decide to take on a hamster as a pet you will need to be ready to take on the responsibility of cleaning their cages at least once a week and expending both the resources and the time in getting the right cage and the appropriate toys and accessories in order to keep them healthy and happy at all times Having a wheel inside a hamster s cage is almost as important to the hamster s wellbeing as the cage itself is This is so due to the fact that hamsters love to run and the wheel gives them the opportunity to do so since you in essence do have them in captivity In addition to a hamster s wheel you can also include other toys in their cage to keep them active and happy By nature rodents love to chew and as such a chew toy should definitely be included in the number of toys you decide to play in your hamster s cage It is also the responsibility of the hamster owner to carry out daily checks in their hamsters to ensure that they are maintaining good health and if not to take them to the vet so that they can get the care they need Hamster owners should equip themselves with all the information they possibly can before actually acquiring one so that when they do they will be able to properly take care of them
