Handbook Of Communication And Aging Research Leas Communication

K Warner Schaie, Sherry L. Willis

Handbook Of Communication And Aging Research Leas Communication:

Handbook of Communication and Aging Research Jon F. Nussbaum, Justine Coupland, 2004-04-12 This second edition of the Handbook of Communication and Aging Research captures the ever changing and expanding domain of aging research Since it was first recognized that there is more to social aging than demography gerontology has needed a communication perspective Like the first edition this handbook sets out to demonstrate that aging is not only an individual process but an interactive one The study of communication can lead to an understanding of what it means to grow old We may age physiologically and chronologically but our social aging how we behave as social actors toward others and even how we align ourselves with or come to understand the signs of difference or change as we age are phenomena achieved primarily through communication experiences Synthesizing the vast amount of research that has been published on communication and aging in numerous international outlets over the last three decades the book s contributors include scholars from North America and the United Kingdom who are active researchers in the perspectives covered in their particular chapter Many of the chapters work to deny earlier images of aging as involving normative decrement to provide a picture of aging as a process of development involving positive choices and providing new opportunities A recurring theme in many chapters is that of the heterogeneity of the group of people who are variously categorized as older aged elderly or over 65 The contributors review the literature analytically in a way that reveals not only current theoretical and methodological approaches to communication and aging research but also sets the future agenda This handbook will be of great interest to scholars and researchers in gerontology developmental psychology and communication and in this updated edition will continue to play a key role in the study of communication and aging *Women's Narratives of Health Disruption and Illness* Jennifer M. Hawkins, Peter M. Kellett, 2019-06-28 Through vivid and engaging narrative accounts written and collected by women Women s Narratives of Health Disruption and Illness Within and Across Their Life Stories explores how women experience the health disruptions and illnesses that span their lives The collection examines how women s broader and ongoing life stories impact and are impacted by health disruptions and illnesses Organized into three parts the chapters explore Beginnings in which health disruptions and illnesses impact early life motherhood and where early choices create the origins of health issues that impact later life Middles which explores health experiences in and around middle age or from the standpoint in middle age looking back and forth and Endings which explores narratives of ageing and end of life communication Personal revealing and often beautiful the women s narratives featured in this book will invite the reader into the stories and lives of others and toward the reflection learning and personal transformation that comes from truly connecting with the experiences of others This book will be helpful for scholars of communication health women s studies family studies and sociology *Life-Span Communication* Loretta L. Pecchioni, Kevin B. Wright, Jon F. Nussbaum, 2006-04-21 This innovative text emphasizes how communicative processes develop are maintained and change throughout the life span

Topics covered include language skills interpersonal conflict management socialization care giving and relationship development Core chapters examine specific communication processes from infancy through childhood and adolescence into middle age and later life In its exploration of the role of communication in human development this volume overviews the theoretical and methodological issues related to studying communication across the life span discusses foundations of communication cognitive processes and language examines communication in relational contexts and communication competencies considers communication in leisure and the media with relevance to the life span perspective and presents the implications of the life span perspective for future research This text is intended to be used in life span communication courses and in interpersonal communication courses with a life span focus at an advanced or graduate level It may also be used in courses on family communication aging and language development It will serve as a supplemental text for courses in psychology family studies personal relationships linguistics and language studies

The Concise Corsini Encyclopedia of Psychology and Behavioral Science W. Edward Craighead, Charles B. Nemeroff, 2004-04-12 Edited by high caliber experts and contributed to by quality researchers and practitioners in psychology and related fields Includes over 500 topical entries Each entry features suggested readings and extensive cross referencing Accessible to students and general readers Edited by two outstanding scholars and clinicians

Communication as Comfort Sandra L. Ragan, Elaine M. Wittenberg-Lyles, Joy Goldsmith, Sandra Sanchez Reilly, 2008-05-15 This scholarly volume explores communication at the end of life emphasizing palliative care and the circumstances of patients in need of such consideration

Suspense Peter Vorderer, Hans Jurgen Wulff, Mike Friedrichsen, 2013-12-16 This volume begins with the general assumption that suspense is a major criterion for both an audience's selection and evaluation of entertaining media offerings This assumption is supported not only by the popularity of suspenseful narratives but also by the reasons users give for their actual choice of media contents Despite this there is no satisfying theory to describe and explain what suspense actually is how exactly it is caused by films or books and what kind of effect it has on audiences This book's main objective is to provide that theory by bringing together scholars from different disciplines who are working on the issue The editors goal is to reflect the state of the art as much as it is to highlight and encourage further developments in this area There are two ways of approaching the problem of describing and explaining suspense an analysis of suspenseful texts or the reception process Researchers who follow the more text oriented approach identify the uncertainty of the narrative outcome the threat or danger for the protagonist the play with time delay or other factors as important and necessary for the production of suspense The more reception oriented scholar focuses on the cognitive activities of audiences readers expectations the curiosity of onlookers their emotions and their relationships with the protagonists A correspondence between the two seems to be quite difficult though necessary to determine Both perspectives are important in order to describe and explain suspense Thus the editors utilize the thesis that suspense is an activity of the audience reader onlooker etc that is related to specific features and characteristics of the text books films etc

Their question is What kind of relation The answer comes from finding out how why and which elements of the text cause effects that are experienced as suspense Scholars from semiotics literary criticism cultural studies and film theory assess the problem from a text oriented point of view dealing primarily with the how and which Other scholars present the psychological perspective by focusing on the cognitive and emotional processes that underlie viewers experience of suspense that is the reception theory tries to answer the question of why suspenseful texts may be experienced as they are

Public Health Communication Robert Hornik,2002-01-01 This volume argues the case that public health communication has affected health behavior It brings together 16 studies of large scale communication in a variety of substantive health areas tobacco drugs AIDS family planning heart disease childhood disease highway safety prepared by the authors who did the original research These studies show important effects and illustrate the central conditions for success The book also includes complementary analytic chapters which provide a meta analysis of published results some approaches to developing communication interventions and alternative methods for evaluation of public health communication projects Including studies based on communication programs in the United States as well as projects done elsewhere in the world including Europe Africa Asia and Latin America this book offers a broad presentation of the alternative research designs that have been used to evaluate public health communication programs includes a great range of approaches from field experiments and natural experiments to simple before after and complex time series designs using data gathered from individuals and from archives and utilizes an innovative perspective on how to exercise public health communication from a leading and thoughtful practitioner As such it is required reading for scholars students practitioners and policymakers in public health health communication health psychology and related areas

Listening Debra Worthington,Margaret Fitch-Hauser,2015-09-21 Listening explores the process and role of listening in human communication as a cognitive process as a social function and as a critical professional competency While introducing students the theory and research of listening scholarship Worthington and Fitch Hauser also help students to build practical skills and achieve the desired outcomes of effective listening

Explaining Illness Bryan B. Whaley,1999-11 This volume studies the explanation of illness in various cultural and social contexts It is essential reading for scholars and practitioners in health communication and health care fields including nursing public health and medicine

Handbook of Research for Educational Communications and Technology David Jonassen,Marcy Driscoll,2003-12-08 First Published in 2008 Routledge is an imprint of Taylor Francis an informa company

Listening Debra L. Worthington,Margaret E. Fitch-Hauser,2018-01-09 Listening Processes Functions and Competency Second Edition explores the role of listening as an essential element in human communication The book addresses listening as a cognitive process as a social function and as a critical professional competency Blending theory with practical application Listening builds knowledge insight and skill to help the reader achieve the desired outcome of effective listening This second edition introduces listening as a goal directed activity and has been expanded to include a new chapter

addressing listening in mediated contexts Theory and research throughout the text have been updated and the final chapter covers new research methodologies and contexts including fMRI aural architecture and music **The Task Planner**

William J. Reid, 2000-07-12 A comprehensive A to Z set of task planners for more than one hundred psychosocial problems from alcoholism and anxiety to domestic violence and sexual abuse Each entry includes a menu of actions the client can undertake to affect resolution a guide to the practitioner's role in facilitating these actions and a reference list An accompanying disk allows social workers to update the task planners they are working with and enables keyword searches for specific topics *Research Anthology on Usage, Identity, and Impact of Social Media on Society and Culture*

Management Association, Information Resources, 2022-06-10 Much of the world has access to internet and social media The internet has quickly become a new hub for not only communication but also community development In most communities people develop new cultural norms and identity development through social media usage However while these new lines of communication are helpful to many challenges such as social media addiction cyberbullying and misinformation lurk on the internet and threaten forces both within and beyond the internet The Research Anthology on Usage Identity and Impact of Social Media on Society and Culture is a comprehensive resource on the impact social media has on an individual's identity formation as well as its usage within society and cultures It explores new research methodologies and findings into the behavior of users on social media as well as the effects of social media on society and culture as a whole Covering topics such as cultural diversity online deception and youth impact this major reference work is an essential resource for computer scientists online community moderators sociologists business leaders and managers marketers advertising agencies government officials libraries students and faculty of higher education researchers and academicians Contemporary Perspectives on Ageism

Liat Ayalon, Clemens Tesch-Römer, 2018-05-22 This open access book provides a comprehensive perspective on the concept of ageism its origins the manifestation and consequences of ageism as well as ways to respond to and research ageism The book represents a collaborative effort of researchers from over 20 countries and a variety of disciplines including psychology sociology gerontology geriatrics pharmacology law geography design engineering policy and media studies The contributors have collaborated to produce a truly stimulating and educating book on ageism which brings a clear overview of the state of the art in the field The book serves as a catalyst to generate research policy and public interest in the field of ageism and to reconstruct the image of old age and will be of interest to researchers and students in gerontology and geriatrics **Privacy and Disclosure of HIV in Interpersonal Relationships**

Kathryn Greene, Valerian J. Derlega, Gust A. Yep, Sandra Petronio, 2003-06-20 As the HIV epidemic enters its third decade it remains one of the most pressing health issues of our time Many aspects of the disease remain under researched and inadequate attention has been given to the implications for the relationships and daily lives of those affected by HIV Disclosing an HIV diagnosis remains a decision process fraught with difficulty and despite encouraging medical advances an HIV diagnosis creates significant

anxiety and distress about one's health, self-identity and close relationships. This book provides an overarching view of existing research on privacy and disclosure while bringing together two significant areas: self-disclosure as a communication process and the social relational consequences of HIV/AIDS. The unifying framework is communication privacy management and the focus of this volume is on private voluntary relational disclosure as opposed to forced or public disclosure. Utilizing numerous interviews with HIV patients and their families, the authors examine disclosure in a variety of social contexts including relationships with intimate partners, families, friends, health workers, and coworkers. Of note are the examinations of predictors of willingness to disclose HIV infection, the message features of disclosure, and the consequences of both disclosure and non-disclosure. This volume, with its personal exercises and sources of additional information, offers an invaluable resource for individuals living with HIV and their significant others, as well as for professionals in the fields of health communication, social and health psychology, family therapy, clinical and counseling psychology, relationship research, infectious disease, and social service.

Here to Make Friends Hope Kelaher, 2020-01-28 Skip the small talk and learn how to build a supportive community, engage with new people, and cultivate authentic, long-lasting friendships at every stage of life. It sometimes seems like everyone has a big, happy, fulfilling social life full of lifelong friendships, except you. As we grow older and school friendships fade, it can be difficult to meet new people and cultivate meaningful friendships. How do you strike up a conversation with a stranger? How do you move from mutual acquaintances to real friends? *Here to Make Friends* has the answers to all of these questions and more. Written by a licensed therapist, this book is packed full of helpful advice and tips to overcome social anxiety and start building a stronger social circle, such as: Tips for moving past small talk; Advice for getting out of your own head; Suggestions for fun and memorable friend dates; Strategies for connecting meaningfully with other people. Everyone wants to feel connected. *Here to Make Friends* is the perfect companion for moving past the sometimes lonely post-school stage and into lasting, fulfilling friendships.

Aging, Media, and Culture C. Lee Harrington, Denise Bielby, Anthony R. Bardo, 2014-06-18 The intersections of aging, media, and culture are underexplored given trends in population aging, rapid increases in the mediation of everyday life, and the growing cultural significance of media consumption at the global level. This book brings together an international collection of critical scholars, both well established and up and coming, from the various academic disciplines that share a common interest in the future study of aging and media. This anthology of original articles integrates aging theory and media studies through a study of core issues including the media's influence on the construction of old age, the reciprocal influence of aging on media industries, age-based identities in a mediated world, issues of gender and sexuality in an aging society, and the practical implications of a more integrated approach between the two fields. The chapters explore the intersections between aging and media in the realms of advertising, marketing, television, film, music, celebrity, and social media, among others.

Encyclopedia of Aging and Public Health Sana Loue, Martha Sajatovic, 2008-01-16 Americans are living longer, and the elder population is growing larger. To

meet the ongoing need for quality information on elder health the Encyclopedia of Aging and Public Health combines multiple perspectives to offer readers a more accurate and complete picture of the aging process The book takes a biopsychosocial approach to the complexities of its subject In depth introductory chapters include coverage on a historical and demographic overview of aging in America a guide to biological changes accompanying aging an analysis of the diversity of the U S elder population legal issues commonly affecting older adults and the ethics of using cognitively impaired elders in research From there over 425 entries cover the gamut of topics trends diseases and phenomena Specific populations including ethnic minorities custodial grandparents and centenarians Core medical conditions associated with aging from cardiac and pulmonary diseases to Parkinson s and Alzheimer s Mental and emotional disorders Drugs vitamins alternative medicine Disorders of the eyes feet and skin Insomnia and sleep disorders malnutrition and eating disorders Sexual and gender related concerns And a broad array of social and political issues including access to care abuse neglect veterans affairs and assisted suicide Entries on not quite elders concerns e g midlife crisis menopause are featured as well And all chapters and entries include references and resource lists The Encyclopedia has been developed for maximum utility to clinicians social workers researchers and public health professionals working with older adults Its multidisciplinary coverage and scope of topics make this volume an invaluable reference for academic and public libraries

Cognitive Rehabilitation in Dementia Linda Clare, Robert T. Woods, 2001 The relevance of cognitive rehabilitation for people with dementia is becoming increasingly accepted by researchers and practitioners in the field This special issue draws together examples of state of the art research and systematic review by experts in this exciting and growing area The contributors show how cognitive rehabilitation approaches can be applied in different ways to help optimise functioning and address specific difficulties across the full spectrum of severity While the main focus is on the more commonly diagnosed forms of dementia treatment possibilities for people with fronto temporal dementia are also explored Cognitive rehabilitation interventions need to be grounded in a clear assessment of the profile of strengths and limitations in cognitive functioning and to demonstrate where possible that treatment effects extend beyond improvement on target measures to have a meaningful impact on wellbeing and quality of life For this reason the special issue includes contributions that explore detailed aspects of cognitive functioning or describe new developments in evaluating quality of life in dementia Cognitive rehabilitation it is suggested should be viewed as one important component of a holistic approach to helping people with dementia their families and those who care for them This special issue seeks both to provide information about what has already been achieved and to encourage and stimulate further progress

Handbook of the Psychology of Aging K Warner Schaie, Sherry L. Willis, 2010-12-21 The Handbook of the Psychology of Aging Seventh Edition provides a basic reference source on the behavioral processes of aging for researchers graduate students and professionals It also provides perspectives on the behavioral science of aging for researchers and professionals from other disciplines The book is organized into four parts

Part 1 reviews key methodological and analytical issues in aging research. It examines some of the major historical influences that might provide explanatory mechanisms for a better understanding of cohort and period differences in psychological aging processes. Part 2 includes chapters that discuss the basics and nuances of executive function, the history of the morphometric research on normal brain aging, and the neural changes that occur in the brain with aging. Part 3 deals with the social and health aspects of aging. It covers the beliefs that individuals have about how much they can control various outcomes in their life, the impact of stress on health and aging, and the interrelationships between health disparities, social class, and aging. Part 4 discusses the emotional aspects of aging, family caregiving, and mental disorders and legal capacities in older adults. Contains all the main areas of psychological gerontological research in one volume. Entire section on neuroscience and aging. Begins with a section on theory and methods. Edited by one of the fathers of gerontology. Schaie and contributors represent top scholars in gerontology.
