Hanok The Korean House:

Hanok: The Korean House Nani Park, Robert J. Fouser, 2015-04-14 ING_08 Review quote **Hanok(한옥)(한옥
HardCover)** Yi Ki-ung, 2015-01-01 **Inside The Korean House** Nani Park, Robert J. Fouser, 2024-03-12 A rare glimpse into Korean hanok Inside the Korean House takes readers on an unprecedented tour through the modern interiors of twelve magnificent traditional homes Amidst the glass and steel skyscrapers and luxury apartments of modern day Seoul traditional Korean houses known as hanok survive and play a surprisingly important role Inside the Korean House showcases 12 very special hanok that have been selected to reflect the style conscious Korea of today a country where traditional values are still highly respected While the exteriors of these homes are indistinguishable from the traditional hanok of the past the interiors have been adapted to keep up with the times Traditional stone wood and clay are still the basic materials used and the houses make full use of natural elements such as wind and sunlight based on the principles of baesanimso which position the hanok in harmony with the forces of nature and the geography of their sites The hanok in this book all have unique stories that are told from the point of view of their owners many of whom are well known architects designers and business leaders The book provides an unparalleled look at the lifestyle of contemporary Koreans who are leading the world now in terms of design fashion and innovation **Seeing and Reading the Traditional Korean House** 2024 Constructing the Colonized Land Izumi Kuroishi, 2016-05-23 Despite the precipitous rise of East Asia as a center of architectural production since the Second World War informed studies remain lacking The lacuna is particularly conspicuous in terms of regional cross national studies documenting the close ties and parallels between China Taiwan Japan and Korea during this period Examining colonized cities in East Asia this book brings together a range of different perspectives across both space and time European Chinese Taiwanese Korean and Japanese discourses are examined with a range of complementary and conflicting views on the design of urban and architectural forms the political institutional religious and economical contexts of urban planning the role played by various media and the influence of various geographical social and anthropological research methods The diversity and plurality of these perspectives in this book provides an entwined architectural urban and social history of East Asia which offers insights into the cultural systems and the historical and spatial meanings of these colonized cities It concludes that the difficulties in the historical study of East Asia s colonial cities do not so much indicate cultural difference as the potentiality for multiple readings of the past toward the future , **Seoul Architecture Guide** Seoul Metropolitan Government, 2015-02-15 Seoul s extensive history spans more than two thousand years and accordingly it has undergone many changes Its appearance has changed repeatedly as it grew developed and transformed over the centuries Seoul is also on record as the world s fastest city to have modernized And the city s history is undoubtedly recounted the most plainly through its most visible face its buildings At the heart of Seoul buildings constructed during the Joseon Dynasty stand harmoniously with modern and cutting edge structures offering a unique urban landscape In this guide the city of

Seoul would like to present to readers throughout the world a selection of about 220 of these traditional modern and contemporary buildings that were built and developed alongside the city's history. We have included not only significant buildings in Korean history and architecture but fun anecdotes and stories that people outside of Korea would also find interesting.

The Korean Wave in a Post-Pandemic World Geon-Cheol Shin, Mark D. Whitaker, 2023-11-02 This book presents an analysis of how the economic Korean Miracle spread into the cultural Korean Wave Hallyu. First only in Asian countries and then around the world, the rising popularity of the Korean Wave continued within the pandemic despite or even because of policies of digital lockdowns. Partially this has been by design as Korea for decades has had a very strong fast development drive in telecommunications and that aided the growth of its cultural wave. Partially however this became exclusively by default how the Korean Wave had to spread increasingly in a digital manner after 2020 globally in response to many countries' rules regarding the COVID 19 pandemic in their attempts to enforce a decline in face-to-face content consumption. In retrospect this has meant only more digital growth and innovation for the Korean Wave in past years compared to other cultures' entertainment complexes that suffered more. Korea's earlier digital readiness combined with later lockdown conditions and pushed the Korean Wave further ahead. Despite the ending of COVID 19 lockdowns in many countries, a greater digital aftermath will continue in the cultural industry and in the economy in general. This is due to changes created in cultural preferences, in organizational investments, and in communication technologies due to those lockdowns. Thus the authors examine how the Korean Wave coped actively with a pronounced digital shift by default in all aspects of media including production, distribution, and consumption. In turn they examine how the greater digital shift in the world's culture and economy influenced the Korean Wave's entertainment performances: TV dramas and cosmetics among other areas. The authors analyze general trends in the Korean Wave's economics, culture, and technology along with specific strong cases of the K-pop boy group BTS, the cosmetics manufacturer Cosmax, and the television series Squid Game. Since the Korean Wave continues to grow in popularity within a more exclusive digital socialization, future implications of such a competitive digital world economy and multi-polar digital world culture are discussed for all countries as well.

South Korean Film Hyon Joo Yoo, 2021-01-01 *South Korean Film: Critical and Primary Sources* is an essential three-volume reference collection representing three distinct phases in the development of South Korean national cinema, foregrounding how epochal characteristics inform the way in which the national cinema represents the penetrating thematic concern of auteurship, genre, spectatorship, gender, and nation, as well as the way in which these themes find expression in distinct visual styles and forms.

Shrimp to Whale Ramon Pacheco Pardo, 2022-07-15 South Korea has the most remarkable of histories. Born from the ashes of colonialism, partition, and a devastating war back in the 1950s, there were real doubts about its survival as an independent state. Yet South Korea did survive and first became known globally for the export of cheap toys, shoes, and clothing. Today South Korea is a boisterous democracy, a vibrant market economy, a tech powerhouse, and home to the coolest

of cultures In just seventy years this society has grown from a shrimp into a whale What explains this extraordinary transformation For some it was ordinary South Koreans who fought to change their country and still strive to continue shaping it For others it was all down to forward looking political and business leaders who had the vision that their country would one day be different Whichever version you prefer it s clear that at its core South Korea s is the story of a people who dreamt big and saw their dreams coming true This is the history of South Korea from its millennia old roots through its foundation as a nation state and economic development under dictatorship to its present as a rich free and cool country on the world stage

Asian Alleyways Marie Gibert-Flutre, Heide Imai, 2025-10-01 *Asian Alleyways* An Urban Vernacular in Times of Globalization critically explores Global Asia and the metropolization process specifically from its alleyways which are understood as ordinary neighbourhood landscapes providing the setting for everyday urban life and place based identities being shaped by varied everyday practices collective experiences and forces Beyond the mainstream standardising vision of the metropolization process *Asian Alleyways* offers a nuanced overview of urban production in Asia at a time of great changes and will be welcomed by an array of scholars students and all those interested in the modern transformation of Asian cities and their urban cultures

Urban Sustainability Ricardo García-Mira, Cristina García-Fontán, Adina Dumitru, 2024-09-22 The new challenges of our economic social and ecologic global context require solutions that go beyond business as usual strategies While Europe and North America have gone through a deep economic crisis which has affected all aspects of life especially housing and working conditions other areas of the world have continued to grow and develop The changing global context has important implications on the ways human beings organize their settings for everyday life their residential environments and communal services in particular and on the necessity for supporting transitions to sustainable societies

Korea Eugene Y. Park, 2022-02-15 While popular trends cuisine and long standing political tension have made Korea familiar in some ways to a vast English speaking world its recorded history of some two millennia remains unfamiliar to most Korea A History addresses general readers providing an up to date accessible overview of Korean history from antiquity to the present Eugene Y Park draws on original language sources and the up to date synthesis of East Asian and Western language scholarship to provide an insightful account This book expands still limited English language discussions on pre modern Korea offering rigorous and compelling analyses of Korea's modernization while discussing daily life ethnic minorities LGBTQ history and North Korean history not always included in Korea surveys Overall Park is able to break new ground on questions and debates that have been central to the field of Korean studies since its inception

A World Made for Money Bret Wallach, 2015-05 A spirited and incisive survey of economic geography A World Made for Money begins with the author stopped at a red light in Norman Oklahoma Observing the landscape of drugstores and banks and for that matter the stoplight and roads themselves Bret Wallach observes Everything I see has been built to make money or at the very least to facilitate making money This he argues is a global phenomenon that nonetheless has occurred only within the past hundred years or so Although guidebooks and culture brokers often disparage these landscapes of commerce Wallach recipient of a MacArthur genius grant argues that we would do well to pay them close attention A World Made for Money provides a compelling condensed tour of our world From Silicon Valley to Sri Lanka from post Soviet Russia to post apartheid South Africa Wallach looks at how human beings are buying manufacturing working growing and shipping food and accessing the natural resources to fuel it all These essential facets of daily life propelled by the profit motive represent a transnational force shaping our surroundings and environment in ways that may not always be beautiful or even healthy but that are fundamental to understanding how the world works in the twenty first century Wallach examines the relationship between acquisitiveness and landscape reveals surprising contradictions and nuances and provides fresh perspective on politically charged topics such as sprawl deindustrialization and agribusiness

Convergent Flux Jinhee Park, John Hong, 2012-11-05 Convergent Flux illustrates the contemporary architectural and urban planning developments in South Korea in the context of the country's considerable urban density In recent years South Korea which long stood in the shadow of the superpowers Japan and China has surged in economic terms That said industrialization and the population explosion connected with it have created enormous challenges for the country at the interface between globalization and cultural identity Some 10.5 million inhabitants live in the center of the capital Seoul while the metropolitan area includes around 25 million residents making it the second largest conurbation in the world after Tokyo The result is high urban density which spells an enormous demand for the more efficient use of space and

encourages verticalization in architecture The publication outlines the current developments in South Korean architecture urban development and landscape architecture by examining 32 projects in detail An in depth view of contemporary South Korean architecture is given by five essays that address topics such as the fusion of tradition and the modern the re defining of so called social spaces and the country s special topographical situation The authors are both architects trained at the Harvard Graduate School of Design **Incheon Now** □□□□ | **vol.70** Incheon Metropolitan City,2021-08-24 **Spaces of Possibility** Clark W.
