Hawker's Early Jets Christopher Budgen, 2022-02-10 A study of the British manufacturer's efforts to get its Hunter aircraft into service following World War II On September 2 1947 Hawker Aircraft Ltd figuratively and literally took to the air with their first jet design the P 1040 Conceived in the latter days of the Second World War and developed in the straitened times of post war austerity the aircraft allowed Hawker to explore the new technology before moving on to more ambitious programs Rejected by the Royal Air Force subsequent development of the aircraft allowed the Royal Navy to find in it a useful role at sea As this project slowly wound its way through the government bureaucracy against a background of national insolvency Hawker continued their research into more potent forms of jet travel with their first swept wing aircraft the P 1052 their first rocket powered example the P 1072 and finally the sleek all swept P 1081 These essentially research aircraft gave the company the experience and expertise it required to produce a powerful transonic fighter with which to equip the RAF for the defense of the UK and other friendly nations at a time when the Cold War threatened to engulf the world in a truly global nuclear conflict That aircraft the P 1067 Hunter first flew in 1951 and was at the time the fastest fighter in the world as evinced by gaining the World Airspeed Record in 1953 prior to entry into RAF service at a stroke revolutionizing the potential of the UK's air arm Such was the haste with which this occurred that many teething problems remained to be resolved as detailed here but eventually the aircraft would become the day fighter of choice for many of the world's air forces and remain in service for decades to come

Hawker's Secret Projects Christopher Budgen, 2023-12-21 Hawker Aircraft Ltd at Kingston was arguably the most successful and long lasting manufacturer of military aircraft in Great Britain and Europe In its various evolved manifestations Hawker Aircraft Hawker Siddeley Aviation British Aerospace its output of war winning aircraft mainly fighters was unsurpassed From the Hart and Hurricane through the Hunter Harrier and Hawk the company consistently produced aircraft that the UK fighting services wanted But some designs for whatever reason failed to reach flight or were declined by the services With their sometimes advanced aerodynamics and technology these aircraft could have had successful service careers but instead were abandoned their stories failing to reach mainstream consciousness Having not received their just dues the present book seeks to redress this omission The reasons for failure are many and varied often financial or political but in each case the reasons behind the failure of the design are examined In a wide ranging investigation that documents the origins of Hawker Aircraft Ltd and its famous Project Office this work the third in Christopher Budgen's investigation of the inner workings of Hawker Aircraft is a fitting tribute to the many who made the company the success it was
