Patrick Conley, 2016-05-27 Conversations with the Dead is contemporary fiction with a slight supernatural twist Aided by his colleagues Mary and Angelo and supported by his wife Mandy Peter still finds himself nonplussed as he deals with an uncompromising administrator Even more disturbing to Peter is a son still fighting off the demons of war Confronted by a boss intent on firing him and a son still feeling the effects of the war in Iraq Peter Stonehouse sits confounded in front of the TV late at night watching reruns of zombie flicks until a late night visitor from his childhood stirs him to action *Literature After Darwin* V. Richter, 2010-12-14 What makes us human Where is the limit between human and animal These are questions that haunt post Darwinian literature Covering fiction from Kipling to Kafka this study offers a historically embedded analysis of anthropological anxiety in the period between the publication of the Origin of Species and the beginning of the Second World War The ^AU niverse Is on Our Side Bruce Ledewitz, 2021-10-05 In The Universe Is On Our Side Bruce Ledewitz argues that there has been a breakdown in American public life that no election can fix Americans struggle to even converse about politics and the usual explanations for our condition have failed to make things better America s future requires that we begin a new story by each of us asking a question posed by theologian Bernard Lonergan Is the universe on our side According to Ledewitz when we commit to live honestly and fully by our answer to that question

even if our immediate answer is no America can begin to heal *Romancing the Wild* Robert Fletcher,2014-02-24 The worldwide development of ecotourism including adventures such as mountain climbing and whitewater rafting as well as more pedestrian pursuits such as birdwatching has been extensively studied but until now little attention has been paid to why vacationers choose to take part in what are often physically and emotionally strenuous endeavors Drawing on ethnographic research and his own experiences working as an ecotour guide throughout the United States and Latin America Robert Fletcher argues that participation in rigorous outdoor activities resonates with the particular cultural values of the white upper middle class Westerners who are the majority of ecotourists Navigating 13 000 foot mountain peaks or treacherous river rapids demands deferral of gratification perseverance through suffering and a willingness to assume risks in pursuit of continuous progress In this way characteristics originally cultivated for professional success have been transferred to the leisure realm at a moment when traditional avenues for achievement in the public sphere seem largely exhausted At the same time ecotourism provides a temporary escape from the ostensible ills of modern society by offering a transcendent wilderness experience that contrasts with the indoor sedentary mental labor characteristically performed by white collar workers *The Human Comedy After the Apocalypse* Douglas Olson,2020-05-15 Book Delisted *The God of All Flesh* Walter Brueggeman,2017-01-26 Biblical faith is passionately and relentlessly material in its emphasis This claim is rooted in the conviction that the creator God loves the creation and summons creation to be in sync with the will of the creator God This collection of essays is focussed on the bodily life of the world as it ordered in all of its problematic political and economic forms The phrase of the title all flesh in the flood narrative of Genesis 9 refers to all living creatures who are in covenant with God human beings animals birds and fish as recipients of God s grace as dependent upon God s generosity and as destined for praise and obedience to God The insistence on the materiality of life as the subject of the Bible means that the difficult issues of economics and the demanding questions of politics are front and centre in the text So the Pentateuch pivots around the Exodus narrative and the emancipation from an unbearable context of abusive labour practices In a similar manner the prophets endlessly address such questions of social policy and the wisdom teachers reflect on how to manage the material things of life and social relationships for the well being of the community This emphasis pervasive in these essays is a powerful alternative and a strong resistance against all of the contemporary efforts to transcend escape the material into some form of the spiritual All around us are efforts to find an easier more harmonious faith This may be evoked simply because of a desire to shield economic political advantage from the inescapable critique of biblical faith Such a temptation is a serious misreading of the Bible and a critical misjudgment about the nature of human existence Thus the Bible addressed the most urgent issues of our day and refuses the religious temptation that avoids lived reality where the power of God is a work **Everybody Is Wrong About God** James A. Lindsay,Peter Boghossian,2015-12-01 A call to action to address people s psychological and social motives for a belief in God rather than debate the existence of God With every argument for theism

long since discredited the result is that atheism has become little more than the noises reasonable people make in the presence of unjustified religious beliefs Thus engaging in interminable debate with religious believers about the existence of God has become exactly the wrong way for nonbelievers to try to deal with misguided and often dangerous belief in a higher power The key author James Lindsay argues is to stop that particular conversation He demonstrates that whenever people say they believe in God they are really telling us that they have certain psychological and social needs that they do not know how to meet Lindsay then provides more productive avenues of discussion and action Once nonbelievers understand this simple point and drop the very label of atheist will they be able to change the way we all think about talk about and act upon the troublesome notion called God *The Business of God* Sheryl Johnson,Dannis Matteson,2025-08-14 The theoretical framework of the Industrial Complex explores how institutions established with a purpose external to themselves can become focused on their own self perpetuation pursuing power growth and profits in ways that may well contradict and undermine that original purpose Much theorizing has engaged issues such as the military healthcare and prison industrial complexes This book explores the framework of the Industrial Complex in relation to churches How do churches intended to in part worship God preach the gospel nurture discipleship and serve those in need become focused on factors such as profit accumulation limitless growth and expansion consolidation of power How do systems like colonialism capitalism white supremacy and patriarchy play a contributing role to these phenomena What are the impacts of the Church Industrial Complex on various facets of church life and parties involved and impacted Finally what can be done to resist these temptations and where are the corners of the church that have and continue to witness to an alternate approach This accessible book is designed for anyone who is concerned about these questions church leaders and members theological students and anyone who is curious about the dynamics at play in contemporary church life *God is in Hell* Gemma Grott,2003 Enmeshed in revolutionary politics and faced with imminent death it took a series of extraordinary spiritual encounters to bring Grott to a dramatic change of life direction She did not realize she had been on a life long quest for the answer to Where was God during the Holocaust until she found her answers In her search for meaning and then healing and reconciliation she gives us a rare opportunity to witness the extremes of behavior a seeker may turn to before finding a way to end the cycle of assault and retribution This unusual story is told from an integrated heartfelt political and spiritual perspective
