**Islam and America** Anouar Majid, 2011-12-16 *Islam and America* argues that the current animosity between the U S and Muslim world should be understood through the often overlooked history between the two Tracing the genealogy of this conflicted relationship from the Pilgrims to the present author Anouar Majid weaves personal stories with historical narratives to offer a critical view of both cultures and to suggest a path towards future peace The book shows how America s current conflict with Islam is rooted in a long and complicated history of prejudice and missed opportunities as well as a history of benevolence and fruitful exchange on both sides While historically Americans have generally regarded Islam as a despotic religion that needed to be overcome the military and educational establishments that Americans built through their attempts at converting Muslims became sources of national pride in the Middle East And while Muslims have often distrusted Americans they too have made significant contributions to American culture Majid contends that knowing this history of both conflict and collaboration can help promote the mutual goodwill and appreciation that will be necessary to tackle the challenges facing Islam and America Majid makes a provocative argument against faith inspired prejudices and offers suggestions for the future

locked in a deadly clash of civilizations Is Islam compatible with democracy and human rights Will religious fundamentalism block the development of modern societies in the Islamic world Will Islam overwhelm the Western societies in which so many Muslim immigrants now reside Will Europe become Eurabia or will the Muslims assimilate Which Muslim thinkers will be most influential in the years to come To answer this last question he introduces the reader to a new generation of Muslim thinkers Tariq Ramadan Timothy Winter Mustafa Ceric Amina Wadud and others a diverse collection of Muslim men and women both the Martin Luthers and the Billy Grahams of Islam We meet religious leaders who condemn suicide bombing and who see the killing of unarmed men women and children as worse than murder who preach toleration and pluralism who advocate for women s rights The book often underscores the unexpected similarities between the Islamic world and the West and at times turns the mirror on the US revealing how we appear to Muslims all to highlight the crucial point that there is nothing exceptional about the Muslim faith Recent decades have brought extraordinary changes in the Muslim world and in addressing all of these issues Esposito paints a complex picture of Islam in all its diversity a picture of urgent importance as we face the challenges of the coming century
