Islam and the Governing of Muslims in France Frank Peter, 2021-01-28 Will Islam be able to adapt to France's secularity and its strict separation of public and private spheres Can France accommodate Muslims In this book Frank Peter argues that the debate about Islam and Muslims is not simply caused by ignorance or Islamophobia Rather it is an integral part of how secularism is reasoned Islam and the Governing of Muslims in France shows that understanding religion as separate from other aspects of life such as politics economy and culture disregards the ways religion has operated and been managed in secular societies such as France This book uncovers the varying rationalities of the secular that have developed over the past few decades in France to govern Islam in order to examine how Muslims engage with the secular regime and contribute to its transformation This book offers a close analysis of French secularism as it has been debated by Islamic intellectuals and activists from the 1990s until the present It will influence the study of secularism as well as the study of Islam in the French Republic and reveal new connections between Islamic traditions and secular rationalities
