Beydoun, 2018-04-03 On Forbes list of 10 Books To Help You Foster A More Diverse And Inclusive Workplace How law policy and official state rhetoric have fueled the resurgence of Islamophobia with a call to action on how to combat it I remember the four words that repeatedly scrolled across my mind after the first plane crashed into the World Trade Center in New York City Please don't be Muslims please don't be Muslims The four words I whispered to myself on 9/11 reverberated through the mind of every Muslim American that day and every day after Our fear and the collective breath or brace for the hateful backlash that ensued symbolize the existential tightrope that defines Muslim American identity today The term Islamophobia may be fairly new but irrational fear

and hatred of Islam and Muslims is anything but. Though many speak of Islamophobia's roots in racism, have we considered how anti-Muslim rhetoric is rooted in our legal system? Using his unique lens as a critical race theorist and law professor, Khaled A. Beydoun captures the many ways in which law, policy, and official state rhetoric have fueled the frightening resurgence of Islamophobia in the United States. Beydoun charts its long and terrible history from the plight of enslaved African Muslims in the antebellum South and the laws prohibiting Muslim immigrants from becoming citizens to the ways the war on terror assigns blame for any terrorist act to Islam and the myriad trials Muslim Americans face in the Trump era. He passionately argues that by failing to frame Islamophobia as a system of bigotry endorsed and emboldened by law and carried out by government actors, U.S. society ignores the injury it inflicts on both Muslims and non-Muslims. Through the stories of Muslim Americans who have experienced Islamophobia across various racial, ethnic, and socioeconomic lines, Beydoun shares how U.S. laws shatter lives, whether directly or inadvertently. And with an eye toward benefiting society as a whole, he recommends ways for Muslim Americans and their allies to build coalitions with other groups. Like no book before it, *American Islamophobia* offers a robust and genuine portrait of Muslim America then and now. [What is Islamophobia?](#)

Narzanin Massoumi, Tom Mills, David Miller, 2017-06-20. As racist undercurrents in many Western societies become manifestly entrenched, the prevalence of Islamophobia and the need to understand what perpetuates it has never been greater. Critiquing the arguments found in notionally left accounts and addressing the limitations of existing responses, *What is Islamophobia?* demonstrates that Islamophobia is not simply a product of abstract or discursive ideological processes but of concrete social, political, and cultural actions undertaken in the pursuit of certain interests. The book centres on what the editors refer to as the five pillars of Islamophobia: the institutions and machinery of the state, the far right, incorporating the counterjihad movement, the neoconservative movement, the transnational Zionist movement, and assorted liberal groupings, including the pro-war left and the new atheist movement. The book concludes with reflections on existing strategies for tackling Islamophobia, considering what their distinctive approaches mean for fighting back.

Donald Trump's Digital Diplomacy and Its Impact on US Foreign Policy towards the Middle East Ahmed Y. Zohny, 2023-05-04. In *Donald Trump's Digital Diplomacy and Its Impact on US Foreign Policy Towards the Middle East*, Ahmed Y. Zohny develops a well-blended mix of history and political science, supplemented by content analysis and critical discourse analysis of Trump's statements and tweets. Americans are primarily interested in the domestic implications of Trump's presidency, whereas people around the globe are more interested in his foreign policy's implications. Both remain puzzled by Trump's mixed messaging, his tendency to change his mind and make decisions on the impulse of the moment. The findings indicate that by scuttling U.S. adherence to the Iran Accord, Trump has guaranteed its collapse and contributed to an already volatile Middle East. Trump's recognition of Jerusalem as the capital of Israel brought an international crisis. Under international law and countless decisions by the UN, the final status of Jerusalem should be decided by negotiation, not unilateral action by the

United States or Israel The Abraham Peace Accord with the four normalizing relations agreements which were signed between Israel and the United Arab Emirates Bahrain Sudan and Morocco mark a new and important shift in the Middle East geopolitics it can be considered as a success for Trump s foreign policy

Anti-Arab Racism in the USA Steven Salaita,2006-03-20 Today is a difficult time to be both Arab and American Since 9 11 there has been a lot of criticism of America s involvement in the middle east Yet there has been little analysis of how America treats citizens of Arab or middle eastern origin within its own borders Steven Salaita explores the reality of Anti Arab racism in America He blends personal narrative theory and polemics to show how this deep rooted racism affects everything from legislation to cultural life shining a light on the consequences of Anti Arab racism both at home and abroad The book shows how ingrained racist attitudes can be found within the progressive movements on the political left as well as the right Salaita argues that under the guise of patriotism Anti Arab racism fuels support for policies such as the Patriot Act

After-Mission, Beyond Evangelicalism Najib George Awad,2020-11-04 After Mission touches on on three questions The first question is about self perception and identity formation strategies and the various views that we have on the Protestants relation to their Arab Muslim Middle Eastern context This will furnish the basis

for the ensuing parts as it will provide the study with coherent and analytical readings of the cultural situation and intellectual views of the Arab Eastern Protestants in their Sitz im Leben from the perspective of the hermeneutic tripod of identity othering relationality The second question about the theological dimension asks what kind of a theological discourse do the Protestants need to develop and how do they need to re form their own theological heritage in such a manner that will allow them to heal the historical enmity and suspicion towards them from the Eastern Orthodox Christian community in the region How should they re think their traditional view on theological subjects common to them and the Eastern Christian tradition Traditional Protestant attitudes towards Eastern Christianity which have been viewed through the lens of evangelicalism and mission have failed to grant the Protestants an influential and truly indigenous presence in the region and have led to them being constantly accused of being a foreign transplant and alien entity In the light of this it is clear that going beyond missiology and traditional evangelicalism demands re thinking certain mutually shared but contentious theological subjects from a new perspective with the focus on more constructive attempts to build fellowship through dialogue Finally the third question touches on the Protestants future in the Arab Muslim Middle East by viewing this inquiry from a broader perspective that is related to all the Middle Eastern Christian communities presence and role in the Muslim majority context It will discuss questions about the kind of presence and role that Christians Protestants included should hope to play in order to guarantee survival and a continuing presence in the region The question of identity formation and the managing of difference without trapping it in the mud of otherizing and self otherizing will also be tackled so that the theological dimension is integrated with the broader multifaceted contextual one
