Making Spirits Diana Espirito Santo,Nico Tassi,2013-07-15 The analysis of religion has often placed an emphasis on beliefs and ideologies prioritizing these elements over those of the material world Through the ethnographic analysis of a variety of contemporary religious practices *Making Spirits* questions the presumed separation of spirit and matter and sheds light on the dynamics between spiritual and material domains By examining the cultural contexts in which material culture is central to the creation and experience of religion and belief this volume analyses the different

Identities Steve Spencer, Gary Taylor, 2004-08-02 **Social Identities** Multidisciplinary Approaches attempts to make sense of the increasingly complex ways in which we define ourselves and others It recognises that we are not simply individuals or members of a certain class or a certain nationality Rather each of us comprises a rich blend of various identities The book provides not only an eclectic spectrum of the forms of identity and influences through which identities are formed but also critical treatment of the theoretical tools used to understand these phenomena **Community** J. Toby Reiner, 2025-07-04

People often yearn for a sense of belonging and connection they long to live in a meaningful community In the modern age however this often seems to be a chimera Does modernity doom us to be atomised individuals Does the promise of community imply a loss of autonomy and freedom and entrench inequality and hierarchy In this book J Toby Reiner examines the debates surrounding community in modern political and social thought He outlines how liberals conservatives socialists and nationalists have historically conceived of the ties that bind together political communities and how recent political philosophers such as Rawls Taylor Walzer and Sandel have debated the nature and merits of community in the contemporary world He goes on to consider how prominent conceptions of community relate to and are in tension with characteristically modern ideals such as equality and freedom He deftly shows how a meaningful conception of community can be reconciled with the demands of modern liberal societies Filled with real life examples and thought provoking discussions of the key debates this book will be essential reading for students of contemporary political theory and philosophy and of sociology

Archaeological Sites as Space for Modern Spiritual Practice Raimund Karl, Jutta Leskovar, 2018-11-07 Archaeological heritage can be disputed especially where it is important to religions and their practitioners While the destruction of archaeological sites in war often due to religious fervour is frequently making the headlines apparently lesser disputes about local heritage sites go unreported This book focuses on these lesser but much more frequent potential conflicts between archaeological heritage management and conservation on the one hand and practitioners of religious beliefs who use archaeological heritage in their practice on the other By exploring case studies from

Austria the Czech Republic Estonia France Norway Romania Russia Spain Sweden and Wales this book examines the interaction between spiritual practice and monuments conservation This book will be of great interest to heritage professionals archaeologists historians conservationists and religious practitioners alike through its exploration of various kinds of interactions between these different heritage communities and their interests in archaeology [The A to Z of Witchcraft](#) Michael D. Bailey,2009-09-28 A great deal has been written about the history of witchcraft but much of what has been written is unreliable exaggerated or inaccurate This problem is especially acute in regard to modern witchcraft or Wicca and its supposed connections to historical witchcraft in medieval and early modern Europe The A to Z of Witchcraft provides a reliable reference source for both academics and general readers interested in the actual historical development of witchcraft in the western world The focus of the dictionary is on Western Europe during the late medieval and early modern periods when the specific idea of diabolical witchcraft developed and when the so called great witch hunts occurred Entries are also provided that deal with magic and witchcraft in the earlier Christian period and classical antiquity as well as with the lingering belief in witchcraft in the modern world and with the development of the modern neo pagan religion of witchcraft also known as Wicca For comparative purposes some entries have been provided that deal with aspects and systems of magic found in other parts of the world that seem to bear some relation to the idea of witchcraft as it developed in Christian Europe The regions dealt with are mainly Africa along with such New World practices as Voodoo and Santeria Entries in the dictionary cover important people in the history of witchcraft from the medieval inquisitors and early modern magistrates who developed the stereotype of the historical witch to the modern individuals who have developed the religion of Wicca Also included are legal terms and concepts important to the prosecution of the supposed crime of witchcraft and religious and theological concepts pertaining to the demonic elements that came to be associated with witchcraft as well as more popular beliefs and aspects of common folklore and mythology that became attached to the developing idea of witchcraft Geographic entries are also included discussing the scope of witch hunting in various regions **Women and Gender Issues in British Paganism, 1945-1990** Shai Feraro,2020-06-11 This book explores the ways in which changing views on gender and the place of women in society during the latter half of the twentieth century affected women's participation and standing within British Paganism More specifically it examines how British Wiccans and Wiccan derived Pagans reacted to the rise of second wave feminism and the Women's Liberation Movement in the UK with a special emphasis on the reception of feminist theory hailing from the USA and to the emergence of feminist branches of Witchcraft and Goddess Spirituality during the 1970s and 1980s The book draws on primary sources never before analyzed in an academic context and makes a valuable contribution to the growing body of knowledge on gender and religion during the twentieth century as very little research has been conducted on the relations between the history of modern Paganism and that of second wave feminism in the UK *Astrology and Cosmology in the World's Religions* Nicholas Campion,2023-11-21

An ambitious examination of cosmologies and astrologies from around the world The diversity of cultures Campion includes is impressive Jacqueline Feké History of Astronomy When you think of astrology you may think of the horoscope section in your local paper or of Nancy Reagan's consultations with an astrologer in the White House in the 1980s Yet almost every religion uses some form of astrology some way of thinking about the sun moon stars and planets and how they hold significance for human lives on earth Astrology and Cosmology in the World's Religions offers an accessible overview of the astrologies of the world's religions placing them into context within theories of how the wider universe came into being and operates Campion traces beliefs about the heavens among peoples ranging from ancient Egypt and China to Australia and Polynesia and India and the Islamic world Addressing each religion in a separate chapter Campion outlines how by observing the celestial bodies people have engaged with the divine managed the future and attempted to understand events here on earth This fascinating text offers a unique way to delve into comparative religions and will also appeal to those intrigued by New Age topics Unlike most students of astrology Campion transcends the limitations of Western tradition to examine the nature and roles of astrological and cosmological concepts in cultures from all continents His examples provide original insights into how cosmologies shape these cultures artistic intellectual and religious activities Stephen McCluskey West Virginia University

Gender and Power in Contemporary Spirituality Anna Fedele, Kim Knibbe, 2013-03-05 This book explores the entanglements of gender and power in spiritual practices and analyzes strategies used by spiritual practitioners to attain what to social scientists might seem an impossible goal creating spiritual communities without creating gendered hierarchies What strategies do people within these networks use to attain gender equality and gendered empowerment How do they try to protect and develop individual freedom How do gender and power nevertheless play a role The chapters in this book together and separately demonstrate that in order to understand contemporary spirituality the analytical lenses of gender and power are essential Furthermore they show that it is not possible to make a clear distinction between established religions and contemporary spirituality the two sometimes overlap and at other times spirituality distances itself from religion while reproducing some of its underlying interpretative frameworks This book does not take the discourses of spiritual practitioners for granted yet recognizes the reflexivity of spiritual practitioners and the reciprocal relationship between spirituality and disciplines such as anthropology The ethnographic descriptions of lived spirituality included in this volume span a wide range of countries from Portugal Italy and the Netherlands to Mexico and Israel

Embodying Religion, Gender and Sexuality Sarah-Jane Page, Katy Pilcher, 2020-12-27 Taking the notion of embodiment as a starting point this volume maps the interconnecting relationships between religion gender and sexuality The chapters highlight how the body its location the narratives that surround it its movement and negotiations is central to understanding these multifaceted relationships The contributors recognise the ways in which gender and sexuality are crucial to how we embody religion and encourage a more complex and nuanced understanding of embodied religion The material is organised

according to three central themes 1 the relationship between the religious and the secular 2 power regulation and resistance and 3 the symbolism of gendered bodies Cutting across a range of disciplinary perspectives Embodying Religion Gender and Sexuality will be relevant to students of sociology anthropology gender and sexuality studies theology and religious studies
