alike regarding the framework's effectiveness and utility led the EU to submit the EaP to a fundamental auditing and revision. Structured around both enduring and emerging issues in the broader EU Eastern neighbourhood framework, this book provides a retrospective analysis of key structural and relational challenges, unfolding regional dynamics, distinctive forms of bilateral/multilateral engagement, whilst also offering a critical perspective on the contested future relations between the EU and its Eastern neighbours. Looking backwards and providing a critical and thorough assessment of the first ten years of the EaP in practice, this book thinks forward and gauges its many potential future avenues. This comes at a crucial moment as the EU and its six Eastern neighbours are in search of new and mutually acceptable forms of association.

*The Unwanted Europeanness?* Branislav Radeljić, 2021-01-18. Can we be optimistic about the future of Europe? To what extent has the European integrationist project affected the discourse about the core and the semi-periphery? Why does the European Union struggle with its own and the neighbouring Other? These are some of the questions addressed in this thought-provoking volume about the dilemmas surrounding the ever-uncertain European unity. A wide range of contributors have drawn upon invaluable sources and data to examine a broad selection of official discords and discrepancies characterizing the EU's relations with the Balkans, East Central Europe and beyond. Moreover, past events have shaped present political and socioeconomic cooperation or its deficiencies with no reason to believe that these present challenges will not further influence future arrangements at a supranational or intergovernmental level. Whichever the period, questions of belonging, solidarity and the unwanted Other have remained relevant and have continued to penetrate discussions. In addition to complementing the existing analyses of European developments, the present findings are of great relevance for researchers, policymakers and general readership. In fact, they are essential if we want to see Europe develop.

His regional approach to the study of the power relations between states is framed by a discussion of critical and popular geopolitical analysis.
