Making Home From War Stories Of Japanese American Exile And Resettlement:

Making Home from War Brian Komei Dempster, 2013-07-15 The sequel to the award winning *From Our Side of the Fence* personal stories of life after the WWII internment camps from twelve Japanese Americans Many books have chronicled the experience of Japanese Americans in the early days of World War II when over 120 000 persons of Japanese ancestry two thirds of whom were American citizens were taken from their homes along the West Coast and imprisoned in concentration camps When they were finally allowed to leave a new challenge faced them how do you resume a life so interrupted Written by twelve Japanese American elders who gathered regularly at the Japanese Cultural and Community Center of Northern California *Making Home from War* is a collection of stories about their exodus from concentration camps into a world that in a few short years had drastically changed In order to survive they found the resilience they needed in the form of community and gathered reserves of strength from family and friends Through a spectrum of conflicting and rich emotions *Making Home from War* demonstrates the depth of human resolve and faith during a time of devastating upheaval I remember my release from Manzanar as scary and intense but until now so little has been said about this aspect of the internment experience This is an important book its stories ground breaking and memorable Jeanne Wakatsuki Houston author of *Farewell to Manzanar* A deeply moving accounting of life after imprisonment its lingering stigma and the true meaning of freedom Dr Satsuki Ina producer of *Children of the Camps* *The Making of Asian America* Erika Lee, 2015-09-01 A comprehensive fascinating *The New York Times* Book Review history of Asian Americans and their role in American life by one of the nation's preeminent scholars on the subject with a new afterword about the recent hate crimes against Asian Americans In the past fifty years Asian Americans have helped change the face of America and are now the fastest growing group in the United States But much of their long history has been forgotten In her sweeping powerful new book Erika Lee considers the rich complicated and sometimes invisible histories of Asians in the United States *Huffington Post* *The Making of Asian America* shows how generations of Asian immigrants and their American born descendants have made and remade Asian American life from sailors who came on the first trans Pacific ships in the 1500 to the Japanese Americans incarcerated during World War II Over the past fifty years a new Asian America has emerged out of community activism and the arrival of new immigrants and refugees But as Lee shows Asian Americans have continued to struggle as both despised minorities and model minorities revealing all the ways that racism has persisted in their lives and in the life of the country Published fifty years after the passage of the United States Immigration and Nationality Act of 1965 these powerful Asian American stories are inspiring and Lee herself does them justice in a book that is long overdue *Los Angeles Times* But more than that *The Making of Asian America* is an epic and eye opening *Minneapolis Star Tribune* new way of understanding America itself its complicated histories of race and immigration and its place in the world today **After Camp** Greg Robinson, 2012-02-07 The tragedy of incarceration has dominated historical studies of Japanese Americans and few have explored what happened in the years that

followed A welcome addition to the literature Greg Robinson's insightful study *After Camp* will appeal to historians of immigration the Asian American experience comparative race relations and the twentieth century United States more broadly David K Yoo author of *Growing Up Nisei* Greg Robinson has boldly and rightfully identified historians neglect of Japanese American experiences after World War II Rather than focusing exclusively on the Pacific Coast *After Camp* offers a nuanced exploration of the competing strategies and ideas about postwar assimilation among ethnic Japanese on a truly national scale The depth and range of Robinson's research is impressive and *After Camp* convincingly moves beyond the tragedy of internment to explain how the drama of resettlement was equally if not more important in shaping the lives of contemporary Japanese Americans Allison Varzally author of *Making a Non White America*

Nature Behind Barbed Wire Connie Y. Chiang, 2018-08-02 The mass imprisonment of over 110 000 people of Japanese ancestry during World War II was one of the most egregious violations of civil liberties in United States history Removed from their homes on the temperate Pacific Coast Japanese Americans spent the war years in desolate camps in the nation's interior Photographers including Ansel Adams and Dorothea Lange visually captured these camps in images that depicted the environment as a source of both hope and hardship And yet the literature on incarceration has most often focused on the legal and citizenship statuses of the incarcerated their political struggles with the US government and their oral testimony *Nature Behind Barbed Wire* shifts the focus to the environment It explores how the landscape shaped the experiences of both Japanese Americans and federal officials who worked for the War Relocation Authority WRA the civilian agency that administered the camps The complexities of the natural world both enhanced and constrained the WRA's power and provided Japanese Americans with opportunities to redefine the terms and conditions of their confinement Even as the environment compounded their feelings of despair and outrage the incarcerated also found that their agency in transforming and adapting to the natural world could help them survive and contest their incarceration Japanese Americans and WRA officials negotiated the terms of confinement with each other and with a dynamic natural world Ultimately as Connie Chiang demonstrates the Japanese American incarceration was fundamentally an environmental story

Findlay,2023-07 John M Findlay presents a historical overview of the American West between 1940 and 2000 arguing that during the years of U S mobilization for World War II and the Cold War the West remained a significant and distinctive region Christianity, Social Justice, and the Japanese American Incarceration during World War II Anne M. Blankenship,2016-10-07 Anne M Blankenship s study of Christianity in the infamous camps where Japanese Americans were incarcerated during World War II yields insights both far reaching and timely While most Japanese Americans maintained their traditional identities as Buddhists a

sizeable minority identified as Christian and a number of church leaders sought to minister to them in the camps Blankenship shows how church leaders were forced to assess the ethics and pragmatism of fighting against or acquiescing to what they clearly perceived even in the midst of a national crisis as an unjust social system These religious activists became acutely aware of the impact of government as well as church policies that targeted ordinary Americans of diverse ethnicities Going through the doors of the camp churches and delving deeply into the religious experiences of the incarcerated and the faithful who aided them Blankenship argues that the incarceration period introduced new social and legal approaches for Christians of all stripes to challenge the constitutionality of government policies on race and civil rights She also shows how the camp experience nourished the roots of an Asian American liberation theology that sprouted in the sixties and seventies
