*Braiding Heritage* Amelia Khatri, AI, 2025-01-30  
Braiding Heritage unveils the fascinating world of braiding as a deeply significant cultural practice that transcends mere hairstyling. This comprehensive exploration reveals how braiding techniques have evolved from practical necessities into powerful symbols of social status, cultural identity, and artistic expression across diverse civilizations, from Ancient Egyptian cornrows to Indigenous American storytelling styles. The book masterfully weaves together historical research and practical application through three distinct sections. Beginning with archaeological evidence and ancient texts, it establishes braiding's historical foundations before delving into the cultural significance of various styles and their connections to societal values and religious beliefs. The final section bridges past and present by offering detailed, illustrated instructions for recreating historical patterns while respecting their cultural origins. What sets this work apart is its holistic approach to understanding braiding as both an art form and a cultural phenomenon. Drawing from anthropological studies, museum collections, and collaborations with cultural practitioners, it presents a unique intersection of practical crafting and scholarly research. The book not only preserves traditional techniques but also addresses contemporary discussions about cultural appreciation, making it an invaluable resource for historians, craftspeople, and anyone interested in understanding how this ancient practice continues to influence modern society.

*Perfection* Margarett Lincoln, 2024-09-10  
A colourful account of women's health, beauty, and cosmetic aids from stays and corsets to today's viral trends. Victorian women ate arsenic to achieve an ideal pale complexion, while in the 1790s balloon corsets were all the rage, designed to make the wearer appear pregnant. Women of the eighteenth century applied blood from a black cat's tail to problem skin, while doctors in the 1880s promoted woollen underwear to keep colds at bay. Beautification and the pursuit of health may seem all-consuming today, but their history is long and fantastically varied. Ranging across the last four hundred years, Margarett Lincoln examines women's health and beauty in fascinating detail. Through first-hand accounts and reports of physicians, quacks, and advertising, Lincoln captures women's lived experience of consuming beauty products and the excitement and trauma of adopting the latest fashion trends. Considering everything from body sculpture, diet, and exercise to skin, teeth, and hair, *Perfection* is a vibrant account of women's body fashioning and shows how intimately these practices are related to community and identity throughout history.
