From Relief to Recovery: Supporting good governance in post-earthquake Haiti Martin Hartberg,Aurelie Proust,Michael Bailey,2011 The humanitarian response undertaken in Haiti after the earthquake that struck on 12 January 2010 has been one of the most complex ever However as the first anniversary of the quake approaches the Haitian state together with the international community is making little progress in reconstruction The Haitian authorities need to show greater strategic leadership and take decisions that reflect the priority needs of the Haitian population They need to initiate public infrastructure projects that put people to work and build skills support people to return home or allocate land for new houses

and invest in agriculture The international community should do much more to support these efforts by increasing the capacity and accountability of Haitian institutions

Haiti Will Not Perish Michael Deibert, 2017-07-15 The world's first independent black republic Haiti was forged in the fire of history's only successful slave revolution Yet more than two hundred years later the full promise of that revolution a free country and a free people remains unfulfilled Home for more than a decade to one of the world's largest UN peacekeeping forces Haiti's tumultuous political culture buffeted by coups and armed political partisans combined with economic inequality and environmental degradation to create immense difficulties even before the devastating 2010 earthquake killed tens of thousands of people This grim tale however is not the whole story In this moving and detailed history Michael Deibert who has spent two decades reporting on Haiti chronicles the heroic struggles of Haitians to build their longed for country in the face of overwhelming odds Based on hundreds of interviews with Haitian political leaders international diplomats peasant advocates and gang leaders as well as ordinary Haitians Deibert's book provides a vivid complex and challenging analysis of Haiti's recent history

The Caribbean Chris Campbell, Michael Niblett, 2016 Bringing together the work of literary critics social scientists activists and creative writers this edited collection explores the complex relationships between environmental change political struggle and cultural production in the Caribbean It ranges across the archipelago with essays covering such topics as the literary representation of tropical storms and hurricanes the cultural fallout from the Haitian earthquake of 2010 struggles over the rainforest in Guyana and the role of colonial travel narratives in the reorganization of landscapes The collection marks an important contribution to the fields of Caribbean studies postcolonial studies and ecocriticism Through its deployment of the concept of world ecology it offers up a new angle of vision on the interconnections between aesthetics ecology and politics The volume seeks to grasp these categories not as discrete if overlapping entities but rather as differentiated moments within a single historical process The social changes through which the Caribbean has developed have always involved changes in the relationship between humans and the rest of nature and these changes have long been entangled with the emergence of new kinds of cultural production The contributors to this collection provide a series of unique insights into the relationship between aesthetic practice and specific ecological processes and pressure points in the region More than ever Caribbean writers and artists are engaging explicitly with environmental concerns in their work this volume responds to that trend by bringing literary and cultural criticism into sustained dialogue with debates around local national and regional ecological issues

the Flood Peter Hallward,2020-05-05 Long before a devastating earthquake hit in January 2010 Haiti was one of the most impoverished and oppressed countries in the world However in the late 1980s a remarkable popular mobilization known as Lavalas the flood sought to liberate the island from decades of US backed dictatorial rule Damming the Flood analyzes how and why the Lavalas governments led by President Jean Bertrand Aristide were overthrown in 1991 and again in 2004 by the enemies of democracy in Haiti and abroad The elaborate campaign to suppress Lavalas was perhaps the most successful act of imperial sabotage since the end of the Cold War It has left the people of Haiti at the mercy of some of the most rapacious political and economic forces on the planet Updated with a substantial new afterword that addresses the international response to the earthquake Damming the Flood is both an invaluable account of recent Haitian history and an illuminating analysis of twenty first century imperialism [Evaluation of global health, disaster response, and humanitarian projects and programs](#)

Stephen Waller,Brad Boetig,Diana Luan,2023-07-27 **Caribbean Sovereignty, Development and Democracy in an Age of Globalization** Linden Lewis,2013 Many of the nations of the Caribbean that have become independent states have maintained as a central organizing nationalist principle the importance in the beliefs of the ideals of sovereignty democracy and development Yet in recent years political instability the relative size of these nations and the increasing economic vulnerabilities of the region have generated much popular and policy discussions over the attainability of these goals The geo political significance of the region its growing importance as a major transshipment gateway for illegal drugs coming from Latin America to the United States issues of national security vulnerability to corruption and increases in the level of violence and social disorder have all raised serious questions not only about the notions of sovereignty democracy

and development but also about the long term viability of these nations This volume is intended to make a strategic intervention into the discourse on these important topics but the importance of its contribution resides in its challenge to conventional wisdom on these matters and the multidisciplinary approach it employs Recognized experts in the field identify these concerns in the context of globalization economic crises and their impact on the Caribbean *Japan's Peacekeeping at a Crossroads* Hiromi Nagata Fujishige, Yuji Uesugi, Tomoaki Honda, 2022-01-12 This open access book examines why Japan discontinued its quarter century history of troop contribution to UN Peacekeeping Operations 1992 2017 Japan had deployed its troops as UN peacekeepers since 1992 albeit under a constitutional limit on weapons use Japan's peacekeepers began to focus on engineering work as its strength while also trying to relax the constraints on weapons use although to a minimal extent In 2017 however Japan suddenly withdrew its engineering corps from South Sudan and has contributed no troops since then Why The book argues that Japan could not match the increasing robustness of recent peacekeeping operations and has begun to seek a new direction such as capacity building support
