Handbook Of Restorative Justice A Global Perspective Routledge International Handbooks:

Justice Unbound Patrizia Longo, 2018-12-17 This important anthology provides students and teachers with voices of social and global justice that have been marginalized or forgotten by history. It gives thought leaders from the Global South a platform and engages the voices of oppressed communities including Charles Mills and Franz Fanon and Ella Baker. This text is a comprehensive analysis of modern and contemporary theories of justice. Since the publication in 1971 of John Rawls's *A Theory of Justice*, there has been much debate on his views from both the right and the left of the political spectrum. But there is a lack of textbooks that provide not only a compilation of substantial selections on challenges to Rawls's theory from feminist and postcolonial scholars but that also include writings by non-white and non-Western authors on different aspects of justice. This book fills this huge gap and brings together many influential writings on the topic of justice that are often omitted in philosophy and political theory collections. This work addresses complex issues in an increasingly diverse society.

Restorative Justice, Reconciliation, and Peacebuilding Jennifer J. Llewellyn, Daniel Philpott, 2014 This book develops the twin concepts of restorative justice and reconciliation as frameworks for peacebuilding that contain great potential for addressing common dilemmas: peace versus justice, religious versus secular approaches, individual versus structural justice, reconciliation versus retribution, and the harmonization of the sheer multiplicity of practices involved in repairing past harms.

Amnesty, Human Rights and Political Transitions Louise Mallinder, 2008-09-10 Amnesty laws are political tools used since ancient times by states wishing to quell dissent, introduce reforms, or achieve peaceful relationships with their enemies. In recent years, they have become contentious due to a perception that they violate international law, particularly the rights of victims, and contribute to further violence. This view is disputed by political negotiators who often argue that amnesty is a necessary price to pay in order to achieve a stable, peaceful, and equitable system of government. This book aims to investigate whether an amnesty necessarily entails a violation of a state's international obligations or whether an amnesty accompanied by alternative justice mechanisms can in fact contribute positively to both peace and justice. This study began by constructing an extensive Amnesty Law Database that contains information on 506 amnesty processes in 130 countries introduced since the Second World War. The database and chapter structure were designed to correspond with the key aspects of an amnesty: why it was introduced, who benefited from its protection, which crimes it covered, and whether it was conditional. In assessing conditional amnesties, related transitional justice processes such as selective prosecutions, truth commissions, community-based justice mechanisms, lustration, and reparations programmes were considered. Subsequently, the jurisprudence relating to amnesty from national courts, international tribunals, and courts in third states was addressed. The information gathered revealed considerable disparity in state practice relating to amnesties, with some aiming to provide victims with a remedy and others seeking to create complete impunity for perpetrators. To date, few legal trends relating to amnesty laws are emerging, although it appears that amnesties offering blanket unconditional immunity for state agents have

declined Overall amnesties have increased in popularity since the 1990s and consequently rather than trying to dissuade states from using this tool of transitional justice this book argues that international actors should instead work to limit the more negative forms of amnesty by encouraging states to make them conditional and to introduce complementary programmes to repair the harm and prevent a repetition of the crimes David Dyzenhaus This is one of the best accounts in the truth and reconciliation literature I ve read and certainly the best piece of work on amnesty I ve seen Diane Orentlicher Ms Mallinder s ambitious project provides the kind of empirical treatment that those of us who have worked on the issue of amnesties in international law have long awaited I have no doubt that her book will be a much valued and widely cited resource

The Routledge Handbook of Women's Experiences of Criminal Justice Isla Masson,Natalie Booth,2022-10-25 This Handbook brings together the voices of a range of contributors interested in the many varied experiences of women in criminal justice systems and who are seeking to challenge the status quo Although there is increasing literature and research on gender and certain aspects of the criminal justice system often Western focused there is a significant gap in the form of a Handbook that brings together these important gendered conversations This essential book explores research and theory on how women are perceived handled and experience criminal justice within and across different jurisdictions with particular consideration of gendered and disparate treatment of women as law breakers There is also consideration of women s experiences through an intersectional lens including race and class as well as feminist scholarship and activism The Handbook contains 47 unique chapters with nine overarching themes Lessons from history and theory Routes into the criminal justice system Intersectionality Sentencing and the courts and community punishments Specific offences Incarcerated women s experiences Mothers and families Rehabilitation and reintegration Practitioner relationships and each theme includes contributions from different countries as well as the experiences of contributors from different stages in their own journey International and interdisciplinary in scope this Handbook is essential reading for scholars and students of criminology sociology social policy social work and law It will also be of interest to practitioners such as social workers probation officers prison officers and policy makers *Crime Prevention* John A.

Winterdyk,2017-01-20 This text presents an international approach to the study of crime prevention It offers an expansive overview of crime prevention initiatives and how they are applied across a wide range of themes and infractions from conventional to non conventional forms of crime Based on a review of the literature this is the first text to offer a broad yet comprehensive examination of how and why crime prevention has gained considerable traction as an alternative to conventional criminal justice practices of crime control in developed countries and to provide a cross sectional view of how crime prevention has been applied and how effective such initiatives have been Crime Prevention International Perspectives Issues and Trends is suitable for undergraduate students in criminology and criminal justice programs as well as for graduates and undergraduates in special topics courses

Handbook of Restorative Justice Dennis Sullivan,Larry

Restorative Justice and Practice in US Education Kenneth R. Roth,Felix Kumah-Abiwu,Zachary S. Ritter,2024-11-29 This edited volume offers a comprehensive overview of the dual concepts of Restorative Justice as a legal remedy and Restorative Practice as a philosophy to reduce harm and build resilient and just communities within social cultural and educational institutions With contributions from leading practitioners and scholars the book serves as a valuable resource for institutions seeking to center equity and reduce harm in multicultural learning spaces Chapters combine insights into the origins and intent of Restorative Justice and Practice showcase some of their early applications in higher education settings and beyond and highlight their potential for promoting peace and building community on campuses across the country

Global Perspectives on Victimization Analysis and Prevention Ayodele, Johnson Oluwole,2019-11-29 Over the past two decades both developed and developing countries have experienced major individual and collective tragic victimizations leading to major structural and systemic transformations as a consequence of the influence of organized crime and international terrorism These trends many of which as noted earlier are global in spread and have catastrophic outcomes revolve around some categories of political diplomacy and unsatisfactory reform responses to spiraling discontent among motivated youths Global Perspectives on Victimization Analysis and Prevention is an essential research book that provides comprehensive research on postmodern crime prevention and control strategies as well as potential transformations that could be seen in victimology It offers resources to understand and analyze the main issues relevant framework and contextual intricacies within which public safety agendas are articulated and implemented across the globe Highlighting a wide range of topics such as public safety crime prevention and terrorism this book is essential for criminologists law enforcement victim advocates criminal profilers crime analysts academicians policymakers researchers security planners NGOs government officials and students

Restorative Justice Gerry Johnstone,2013-03-01 Restorative justice is one of the most talked about developments in the field of crime and justice Its advocates and practitioners argue that state punishment society s customary response to crime neither meets the needs of crime victims nor prevents reoffending In its place they suggest should be restorative justice in which families and communities of offenders encourage them to take responsibility for the consequences of their actions express repentance and repair the harm they have done First published in 2002 Restorative Justice Ideas Values Debates is renowned worldwide as an accessible balanced and invaluable analysis of the argument that restorative justice can provide an attractive alternative to traditional responses to crime The second edition

includes a new chapter identifying and analyzing fundamental shifts and developments in restorative justice thinking over the last decade. It suggests that the campaign for restorative justice has not only grown rapidly in the last decade but has also changed in its focus and character. What started as a campaign to revolutionize criminal justice has evolved into a social movement that aspires to implant restorative values into the fabric of everyday life. This new edition explores the implications of this development for restorative justice's claim to provide a feasible and desirable alternative to mainstream thinking on matters of crime and justice. This book provides an essential introduction to the most fundamental and distinctive ideas of restorative justice and will appeal to students of criminology, law, or related disciplines, or researchers and professionals with an interest in crime and justice issues. In addition, it extends the debate about the meaning of restorative justice, pros, cons, and wider significance; hence, it will also be of interest to those already familiar with the topic.

The Handbook of Community Practice Marie Weil, Michael S. Reisch, Mary L. Ohmer, 2013. Written by some of the most influential scholars in the field, this Handbook covers community development, organizing, planning, and social change, as well as key issues, fields of practice, and global approaches.

Child Victims and Restorative Justice Tali Gal, 2011-07-11. With its unique human rights perspective on the study of childhood victimization and an innovative child-inclusive restorative justice model, this book promises to be a touchstone for practitioners, policymakers, and researchers concerned with children's well-being in the aftermath of crime and violence.

Foundations of Criminal Justice Stephen S. Owen, 2019-07-15. What is law? What is deviance? What is justice? How is justice achieved through law, punishment, and criminal justice agencies? Now in its third edition, *Foundations of Criminal Justice* uses a unique approach that provides students with the framework and the intellectual tools that they will need in order to critically analyze and evaluate the nature, sources, scope, purposes, and practical limitations of the criminal justice system. This is the only introductory survey text that moves beyond a description of the criminal justice system, helping students understand the role of criminal justice in their lives as criminal justice practitioners and as active citizens.

Restorative Justice in Transition Kerry Clamp, 2013-09-05. This book explores how restorative justice is used and what its potential benefits are in situations where the state has been either explicitly or implicitly involved in human rights abuses. Restorative justice is increasingly becoming a popular mechanism to respond to crime in democratic settings, and while there is a burgeoning literature on these contexts, there is less information that focuses explicitly on its use in nations that have experienced protracted periods of conflict and oppression. This book interrogates both macro and micro utilizations of restorative justice, including truth commissions, criminal justice reform, and the development of initiatives by communities and other non-state actors. The central premise is that the primary potential of restorative justice in responding to international crime should be viewed in terms of the lessons that it provides for problem solving, rather than its traditional role as a mechanism or process to respond to conflict. Four values are put forward that should frame any restorative approach: engagement, empowerment, reintegration, and transformation. It is thought that these

values provide enough space for local actors to devise their own culturally relevant processes to achieve longstanding peace This book will be of interest to those conducting research in the fields of restorative justice transitional justice as well as criminology in general *Debates in Criminal Justice* Tom Ellis, Stephen Savage, 2013-03-01 This innovative new book recognises that while criminal justice studies is a core component of all criminology criminal justice undergraduate degrees it can be a confusing overwhelming and a relatively dry topic despite its importance Taking an original approach this book sets out a series of ten key dilemmas presented as debates designed to provide students with a clear framework within which to develop their knowledge and analysis in a way that is both effective and an enjoyable learning experience It is also designed for use by lecturers who can structure a core unit of their courses around it *Debates in Criminal Justice* provides a new and dynamic framework for learning making considerable use of the other already available academic key texts press articles web sources and more *Substantial Justice* Michael Goddard, 2009-07-01 Papua New Guinea's village court system was introduced in 1974 partly in an effort to overcome the legal geographical and social distance between village societies and the country's formal courts There are now more than 1100 village courts all over PNG hearing thousands of cases each week This anthropological study is grounded in ethnographic research on three different village courts and the communities they serve It also explores the colonial historical background to the establishment of the village court system and the local and global processes influencing the efforts of village courts to deal with everyday disputes among grassroots Melanesians

Overcoming Toxic Emotions Raymond Olusesan Aina, 2022-07-06 Overcoming Toxic Emotions is a compelling theme to enrich the restorative justice literature on the complex tasks of relational repair in a transitional society With its emphasis on the centrality of rebuilding trust and renewing the mode of being together this book is an innovative addition to the literature on justice in transitional societies It offers an original assessment of the Nigerian experience of restorative justice in peacebuilding This genuinely theological work opens new perspectives for a more adequate understanding of the Christian contribution to peacebuilding and the secular debate on restorative justice Yet the author expresses himself as an African theologian paying attention to the specific context of the problems about transitional justice and integrating spontaneously the wisdom of his dual cultures Yoruba and Christianity With its attentiveness to victim perspectives the book engages the traditional notion of divine omnipotence and vulnerability The book rejects the notion of the fetish omnipotent God It opts instead for an image of God as vulnerable yet powerful in love compelling inspiring and rallying us *Peacebuilding in Crisis* Tobias Debiel, Thomas Held, Ulrich Schneckener, 2016-01-29 The 1990s saw a constant increase in international peace missions predominantly led by the United Nations whose mandates were more and more extended to implement societal and political transformations in post conflict societies However in many cases these missions did not meet the high expectations and did not acquire a sufficient legitimacy on the local level Written by leading experts in the field this edited volume brings together liberal and post liberal approaches to peacebuilding Besides challenging dominant peacebuilding paradigms the

book scrutinizes how far key concepts of post liberal peacebuilding offer sound categories and new perspectives to reframe peacebuilding research It thus moves beyond the liberal post liberal divide and systematically integrates further perspectives paving the way for a new era in peacebuilding research which is theory guided but also substantiated in the empirical analysis of peacebuilding practices This book will be essential reading for postgraduate students and scholar practitioners working in the field of peacebuilding By embedding the subject area into different research perspectives the book will also be relevant for scholars who come from related backgrounds such as democracy promotion transitional justice statebuilding conflict and development research and international relations in general

Restorative Justice in Transitional Settings

Kerry Clamp, 2016-02-12 Restorative justice is increasingly being applied to settings characterized by large scale violence and human rights abuses While many embrace this development as an important step in attempts to transform protracted conflict there are a number of conceptual challenges in transporting restorative justice from a democratic setting to one which has been affected by mass victimisation or civil war These include responding to the seriousness and scale of harms that have been caused the blurred boundaries between victims and offenders and the difficulties associated with holding someone to account and compelling reparative activities Despite reams of paper being devoted to defining restorative justice within democratic settings where the concept first emerged restorative scholars have been slow to comment on the integration of restorative justice into the transitional justice discourse Restorative Justice in Transitional Settings brings together a number of leading scholars from around the world to respond to this gap by developing and further articulating restorative justice for transitional settings These scholars push the boundaries of restorative justice to seek more effective approaches to addressing the causes and consequences of conflict and oppression in these diverse contexts Each chapter highlights a limitation with current conceptions of restorative justice in the transitional justice literature and then suggests a way in which the limitation might be overcome This book has strong interdisciplinary value and will be of interest to criminologists legal scholars and those engaged with international relations and peace treaties

Liquid Criminology

Michael Hviid Jacobsen, Sandra Walklate, 2016-06-17 This book explores the ways in which criminological methods can be imaginatively deployed and developed in a world increasingly characterized by the blurred nature of social reality Whilst recognizing the importance of positivist approaches and research techniques it advocates a commitment to understanding the ways in which those techniques can be used imaginatively at times in combination with less conventional methods discussing the questions concerning risk ethics and access that arise as a result Giving voice to cutting edge research practices both in terms of concepts and methods that shift the criminological focus towards the kind of imaginative work that comprised the foundations of the discipline it calls into question the utility and credentials of mainstream work that fails to serve the discipline itself or the policy questions allied to it A call not to give up on numbers but also not to be defined by statistics and the methods that produce them Liquid Criminology sheds light on a way of doing research for criminology that

is not only creative but also critical As such it will appeal to scholars of sociology criminology and social policy with interests in research methods and design **Young People in Forensic Mental Health Settings** Joel Harvey,Andrew Rogers,Heather Law,2015-08-17 Youth crime and youth violence blights our communities and shapes the lives of many whether they are victims perpetrators or family members This book examines the application of psychological thinking and practice when working with young people who display high risk behaviours across a broad range of forensic mental health settings in the UK It provides an up to date account of current thinking and practice in the field and the challenges of applying effective psychological approaches within forensic settings for young people The contributors to Young People in Forensic Mental Health Settings are drawn from a range of environments including universities youth offending services secure in patient settings young offender institutions Community Forensic Child and Adolescent Mental Health Services F CAMHS and secure children s homes This volume serves as an important platform for debate and as a forum for discussing the future delivery of psychologically informed services intervention and mental health provision with young people who display high risk behaviours
