Cumulated Index to the Books ,1999 **Mortal Objects** Steven Luper,2022-02-17 Clarifies what persons species organisms and material objects are what it is to be alive and the significance of extinction **Mortal Goods** Ephraim Radner,2024-03-19 This book by one of today s leading theologians examines how Christians might more faithfully and realistically imagine their political vocation Ephraim Radner explains that our Christian calling is to limit our political concerns to the boundaries of our created lives our birth parents siblings families brief persistence in life raising of children relations decline and death He shows that a Christian approach to politics is aimed at tending and protecting these mortal goods and argues for a more constrained view of our mortal life and our political duty than is common in both progressive and conservative Christian perspectives Radner encourages us to take seriously what is most valuable in our lives and allow this to shape our social posture Our vocation is to offer our limited life to God give thanks for it and glorify God by living our lives as a gift Radner also shows how catastrophe reveals our time to be fragile bounded and easily overturned And he exposes betterment which lies behind most modern politics as a false motive for human life The book concludes with a vision of the good life articulated in the form of a letter to his adult children *Journal of the American Medical Association*

This Mortal Coil Andrew Doig,2022-02-03 A GUARDIAN ECONOMIST AND PROSPECT BOOK OF THE YEAR A superb book Simon Sebag Montefiore An empowering story of human ingenuity Economist Full of curious facts The Times Causes of death have changed irrevocably across time In the course of a few centuries we have gone from a world where disease or violence were likely to strike anyone at any age and where famine could be just one bad harvest away to one where in many countries excess food is more of a problem than a lack of it Why have the reasons we die changed so much How is it that a century ago people died mainly from infectious disease while today the leading causes of death in industrialised nations are heart disease and stroke And what do changing causes of death reveal about how previous generations have lived University of Manchester Professor Andrew Doig provides an eye opening portrait of death throughout history looking at particular causes from infectious disease to genetic disease violence to diet who they affected and the people who made it possible to overcome them Along the way we hear about the long and torturous story of the discovery of vitamin C and its role in preventing scurvy the Irish immigrant who opened the first washhouse for the poor of Liverpool and in so doing educated the public on the importance of cleanliness in combating disease and the Church of England curate who finding his new church equipped with a telephone started the Samaritans to assist those in emotional distress This Mortal Coil is a thrilling story of growing medical knowledge and social organisation of achievement and looking to the future of promise

Mortal Minds Gerald M. Woerlee, 2010-06-03 With its easy to read and personal style this book provides some intriguing new explanations of the physiology of death and the dying experience Susan Blackmore PhD Author of *Dying to Live* Dying is the last conscious experience undergone by each person But what do the dying experience In the last few decades a good deal of publicity has surrounded people who have been close to death and then reported intense experiences that seem to suggest a supernatural existence beyond death Does the conscious mind somehow continue to exist after the body has passed away *Mortal Minds* answers these questions Dr G M Woerlee explains how the normal functioning of the human body near death can generate beliefs in the reality of the supernatural and life after death An anesthesiologist with more than twenty years of hospital experience Dr Woerlee has been struck over the years by the similarities between the body s symptoms under anesthesia and its reactions near death Among the issues he addresses are the sensations of being disembodied that those near death often describe the perception that mind and body are separate components of existence whether there is such a thing as a soul the physical effects of decreased oxygen to the brain and the visions that the dying sometimes report from rapturous experiences of eternal peace to diabolical dreams While not dismissing near death experiences as mere hallucinations Dr Woerlee is also careful to point out that even powerful psychological impressions by themselves do not constitute scientific proof of life after death Taking this balanced objective stance he succeeds in conveying a better understanding of the dying process and helping us all to realize the nature of these final experiences G M Woerlee Leiden The Netherlands is an anesthesiologist affiliated with the Rijnland Hospital in Leiderdorp The Netherlands and the author of two books on anesthesiology

Repentance: Refinement through the Mortal Journey Alan

Ruppe,2023-03-22 Repentance is one of the core tenets of the gospel but what does it truly mean Understanding the principle of repentance at a deeper level is often overshadowed by the simplistic reciting of the five step process of repentance 1 recognition 2 remorse 3 confession 4 restitution and 5 forgiveness But repenting is so much more than a checklist step in the process to get on the righteous path When confronted by a Primary child s innocent question about repentance author G Alan Ruppe realized that something was missing from his lifelong simplistic view of what it means to repent The intense research and spiritual revelation that stemmed from that awakening culminate in this insightful discussion about the nature of sincere divine repentance and forgiveness In Repentance Refining the Mortal Journey discover The historical definitions of biblical repentance and how translations over time have skewed our perception of this sacred practice The difference between sins and mortal mistakes when and why repentance is necessary and how repentance relates to our God given agency How to receive divine forgiveness and become once again clean and pure through the Atonement of Christ Real repentance the kind desired for us by our Heavenly Parents is an emotionally and spiritually painful process but it is a course that will help develop our repentance from an abstract perception to a genuine way of life A deeper understanding of its purpose will reveal avenues to stronger faith richer experiences and more profound joy as we journey through this mortal life

From Washington to Moscow Louis Sell, 2016-08-04 When the United States and the Soviet Union signed the first Strategic Arms Limitation Talks accords in 1972 it was generally seen as the point at which the USSR achieved parity with the United States Less than twenty years later the Soviet Union had

collapsed confounding experts who never expected it to happen during their lifetimes In From Washington to Moscow veteran US Foreign Service officer Louis Sell traces the history of US Soviet relations between 1972 and 1991 and explains why the Cold War came to an abrupt end Drawing heavily on archival sources and memoirs many in Russian as well as his own experiences Sell vividly describes events from the perspectives of American and Soviet participants He attributes the USSR's fall not to one specific cause but to a combination of the Soviet system's inherent weaknesses mistakes by Mikhail Gorbachev and challenges by Ronald Reagan and other US leaders He shows how the USSR's rapid and humiliating collapse and the inability of the West and Russia to find a way to cooperate respectfully and collegially helped set the foundation for Vladimir Putin's rise
