Channel 4 Maggie Brown,2021-05-20 This book covers a dramatic decade in the fortunes of Britain s quirkiest broadcaster It opens in 2009 with the realisation that Channel 4 s biggest money spinner Big Brother had become a toxic asset and would have to be discarded at the same time as advertising revenues were shrinking in the wake of the 2008 financial crash Maggie Brown s compelling narrative which draws on interviews with key players in Channel 4 s story and unique access to the broadcaster s archives takes us inside the boardroom battles changes in senior management and commissioning teams interventions by the media regulator Ofcom and the channel s response to a rapidly changing media and political landscape Brown describes how the channel under its new chief executive David Abraham successfully fought off the threat of privatisation which became a reality after the Conservatives general election victory in 2015 The price for remaining publicly funded was a substantial relocation of Channel 4 s operations with Leeds announced in 2018 as a new regional hub The Channel 4 story is also one of ambitious and innovative programming with a new director of content Jay Hunt instigating radical changes in commissioning and scheduling Brown traces programming hits and losses during this period with the departure to competitors of celebrity chefs Black Mirror and Charlie Brooker horse racing and Formula 1 and a reappraisal of the remit of institutions such as Channel 4 News and Film 4 But there were successes too with the 2012 Paralympics helping to restore a public service sheen and new programmes such as Gogglebox in 2013 connecting with younger audiences and in 2016 the coup of taking The Great British Bake Off from its home at the BBC

Grand Designs Aneta Podkalicka, Esther Milne, Jenny Kennedy,2018-11-28 This is the first academic book to examine the long running hit series Grand Designs which occupies a significant place in the popular imagination internationally The authors apply an empirically grounded critical perspective to the study of television to reveal how people use the program in

their everyday lives The emphasis on everyday uses and meanings combines creatively with understanding the program theoretically textually and in terms of its production structures This position challenges framings of the popular lifestyle and factual television genre that has been dominated by a neoliberal or governmentality perspective for many years Presented by British designer and writer Kevin McCloud Grand Designs follows the progress of home owners as they embark on design renovation and building projects at almost always dizzying scales of endeavour Understanding the program as both a text to analyse and a site of material impact the book draws on interviews with production members home renovators building practitioners and audiences as well as references to associated media formats to provide contextual depth to the analysis The authors argue that as a cultural object the program is both shaped by and enacts social discourses of home making design value and taste Navigating public commercial and promotional logics Grand Designs sparks new forms of cultural production and consumer markets

discourses of performative thrift feminized labour and aspirational domesticity which are key resources for the justification of austerity policy
