The Politics of Religious Tourism Dino Bozonelos, Polyxeni Moira, 2023-07-28 Addressing a dearth of literature in this area this book provides a comprehensive overview and framework of study of the

Patterson, 2020-05-01 Why do thousands of Mormons devote their summer vacations to following the Mormon Trail Why does the Church of Jesus Christ of Latter day Day Saints spend millions of dollars to build monuments and Visitor Centers that believers can visit to experience the history of their nineteenth century predecessors who fled westward in search of their promised land Why do so many Mormon teenagers dress up in Little House on the Prairie style garb and push handcarts over the highest local hills they can find And what exactly is a traveling Zion In Pioneers in the Attic Sara Patterson analyzes how and why Mormons are engaging their nineteenth century past in the modern era arguing that as the LDS community globalized in the late twentieth and early twenty first centuries its relationship to space was transformed Following their exodus to Utah nineteenth century Mormons believed that they must gather together in Salt Lake Zion their new center place They believed that Zion was a place you could point to on a map a place you should dwell in to live a righteous life Later Mormons had to reinterpret these central theological principles as their community spread around the globe but to say that they simply spiritualized concepts that had once been understood literally is only one piece of the puzzle Contemporary Mormons still want to touch and to feel these principles so they mark and claim the landscapes of the American West with versions of their history carved in stone They develop rituals that allow them not only to learn the history of the nineteenth century journey west but to engage it with all of their senses Pioneers in the Attic reveals how

modern day Mormons have created a sense of community and felt religion through the memorialization of early Mormon pioneers of the American West immortalizing a narrative of shared identity through an emphasis on place and collective memory

A Voice in the Wilderness Reid Neilson, Scott Marianno, 2018-06-01 In April 1888 Andrew Jenson Danish immigrant and convert to the Mormon faith received an unexpected invitation from church leaders to speak at their general conference Jenson was an outsider to this conference tradition a layman whose only standing before the main body of Latter day Saints came from a contracted position with the Church Historian's Office Forty two years later in April 1930 Jenson offered his twenty eighth and final general conference sermon He had become the voice of institutional record keeping in his over forty year career as an Assistant Church Historian His sermons demonstrated the growth and expansion of the Mormon general conference tradition in the twentieth century as they placed the Latter day Saint story front and center for church members to learn from and celebrate In addition Jenson urged conference goers to keep better personal

and institutional records and believed he was often the solitary advocate for church record keeping and historical preservation A Voice in the Wilderness presents all twenty eight of Andrew Jenson s general conference sermons with introductions and annotations that set them within their historical and religious contexts His speeches capture a unique period in Mormon history one of institutional change accommodation and growth This study of Jenson s sermons uncovers the richness and diversity that thrives just beneath the surface of official ecclesiastical discourse *Saints: The Story of the Church of Jesus Christ in the Latter Days, Volume 3* The Church of Jesus Christ of Latter-day Saints,2022-04-22 After decades of opposition the Latter day Saints have dedicated the Salt Lake Temple a mighty symbol of their industry and faith Now with a new century on the horizon the Saints are optimistic about the future and ready to spread the Savior s message of peace across the globe But the world is rapidly changing Advances in transportation and communication allow people and information to cross vast distances in record time And young people are venturing far from home as never before seeking educational and professional opportunities their parents and grandparents could hardly imagine As the Church begins to take root in Europe South America and Asia the Saints rejoice in the rise of the global Church Yet many are wary of the challenges the changing world poses to the cause of Zion While the promise of the new century is bright it comes with dire economic hardships brutal global wars and other unprecedented trials Boldly Nobly and Independent is the third book in Saints a new four volume narrative history of The Church of Jesus Christ of Latter day Saints Fast paced meticulously researched and written under the direction of the First Presidency Saints recounts true stories of Latter day Saints across the globe and answers the Lord s call to write a history for the good of the Church and for the rising generations Doctrine and Covenants 69 8 Mormonism: The Basics John Charles Duffy,David Howlett,2016-10-26 Although often regarded as marginal or obscure Mormonism is a significant American religious minority numerically and politically The successes and struggles of this U S born religion reveal much about how religion operates in U S society Mormonism The Basics introduces the teachings practices evolution and internal diversity of this movement whose cultural icons range from Mitt Romney to the Twilight saga from young male missionaries in white shirts and ties to polygamous women in pastel prairie dresses This is the first introductory text on Mormonism that tracks not only the mainstream LDS but also two other streams within the movement the liberalized RLDS and the polygamous Fundamentalists thus showing how Mormons have pursued different approaches to defining their identity and their place in society The book addresses these questions Are Mormons Christian and why does it matter How have Mormons worked out their relationship to the state How have Mormons diverged in their thinking about gender and sexuality How do rituals and regulations shape Mormon lives What types of sacred spaces have Mormons created What strategies have Mormons pursued to establish a global presence Mormonism The Basics is an ideal introduction for anyone wanting to understand this religion within its primarily American but increasingly globalized contexts Joseph Smith John G. Turner,2025-06-17 From an award winning biographer a riveting and deeply researched portrait of

Mormonism's charismatic founder Joseph Smith Jr 1805-1844 was one of the most successful and controversial religious leaders of nineteenth century America publishing the Book of Mormon and starting what would become the Church of Jesus Christ of Latter-day Saints. He built temples, founded a city-state in Illinois, ran for president, and married more than thirty women. This self-made prophet thrilled his followers with his grand vision of peace and unity, but his increasingly grandiose plans tested and sometimes shattered their faith. In this vivid biography, John G. Turner presents Smith as a consummate religious entrepreneur and innovator, a man both flawed and compelling. He sold books, land, and merchandise, and he relentlessly advanced doctrines that tapped into anxieties about the nature and meaning of salvation, the validity of miracles, the timing of Christ's second coming, and the persistence of human relationships for eternity. His teachings prompted people to gather into communities, evoking fierce opposition from those who saw those communities as theocratic threats to republicanism. With insights from newly accessible diaries, church records, and transcripts of sermons, Turner illuminates Smith's stunning trajectory from his beginnings as an uneducated, impoverished farmhand to his ultimate fall at the hands of a murderous mob, revealing how he forged a religious tradition that has resonated with millions of people in the United States and beyond.

Mormon Visual Culture and the American West Nathan Rees, 2021-03-17 This book explores the place of art in Latter-day Saint society during the first 50 years of the Utah settlement, beginning in 1847. Nathan Rees uncovers the critical role that images played in nineteenth-century Mormon religion, politics, and social practice. These artists not only represented but actively participated in debates about theology, politics, race, gender, and sexuality at a time when Latter-day Saints were grappling with evolving doctrine, conflict with Native Americans, and political turmoil resulting from their practice of polygamy. The book makes an important contribution to art history, Mormon studies, American studies, and religious studies.

Community-Led Development in Practice Elene Cloete, Gunjan Veda, 2024-12-13 In the last decade, the international development sector has been re-examining its ways of thinking, being, and doing, and we have seen a growing consensus around the need to centre communities in development. However, there is little clarity on what such centring entails and how it can be achieved. This edited volume addresses this gap by highlighting what community-led practices look like and how they compare across different sociocultural and organisational landscapes. Bringing together the work of over 30 international authors, ranging from experienced community-led development practitioners to acclaimed scholars, the book reflects on and critically analyses grassroots initiatives, national-level organisations, and larger-scale international operations. The case studies demonstrate the similarities and differences in community-led practices according to organisational size and spread while documenting the process of human change that these practices unleash. The volume's overarching structure reflects the characteristics and processes of community-led development captured via nine different dimensions: participation, inclusion, and voice; local resources; sustainability; and exit strategies; accountability; responsiveness to context; collaboration, including working with sub-national governments; community-led monitoring and evaluation practices; and facilitation. The
