

Quality Control

Quality control is a primary responsibility of every employee serving food and drinks to the customer. You are the last person to come in contact with the food before the customer does. If something does not look right or is not presentable, **DO NOT SERVE IT!** The saying "People eat with their eyes" is very true. Make sure all of your products look good on the plates.

Things to look for before leaving the kitchen:

1. **HOT food**. Few things are more basic but more important. Check to see if your food is hot. Just because something is in the window, does not mean that it is hot. If it is not hot, **DO NOT TAKE IT OUT**. Tell the manager. **NEVER** yell or argue with a cook. Go directly to the manager. This will alleviate a lot of problems.
2. **Clean plates**. Always check any plates, mugs, silverware, and napkins before you present them to the customer. Check food basket for grease spots, spilled food, etc.
3. **Correct portions**. Always check to see that the product is in the right portions. Make sure you are taking **YOUR** order. This can be very embarrassing at the table. Always ask yourself if you would eat that item if it were brought to you.
4. **Call for back-ups**. If something in the kitchen looks low and you are about to run out, **TELL SOMEONE**. If you take one of the last bowls of soup, call for back-ups. If the salad is warm or wilted, do everyone a favor, and say something before the customer is served.
5. **When bringing out drinks**, be certain the glass is clean, filled to the proper level, and that the garnish is correct, fresh and attractive.
6. **Cold food** is as equally important as hot food. Make sure cold foods are going out cold, not warm or cool, but cold.
7. **Bring necessary condiments** with order: i.e., ketchup, mustard, Parmesan cheese, etc.

Customers rely on a particular chain of hotels restaurants or pubs to provide the same level of service and environment across the board This standardised service provides the customer with the security of knowing what to expect from that particular organisation However this standardisation allows little room for creativity for individual managers to respond to the particular needs of their local market There is a growing realisation that there is greater profitability if the chain can offer both standardised services across all its retail operations while at the same time allowing local managers the freedom to interpret the needs of its local market as they see fit Hospitality Retail Management shows managers and students how competitive advantage can be gained by adopting management techniques which are both tight and loose and demonstrates how you can manage businesses with well defined objectives while also allowing local managers to interpret their local market as they see fit Conrad Lashley has done extensive consultancy with companies such as McDonalds and uses case studies from these companies to reiterate key issues throughout the text **United States Navy Occupational Handbook**
