Klerk En Beul Himmler Van Nabij:

Klerk en beul, Himmler an nabij Felix Kersten, 1948 *Himmler's Children* Guus de Vries, 2024-07-30 The Nazis dream was to populate their future Greater German Reich exclusively with racial valuable people and Himmler became the main executor of this gruesome and unimaginable plan For this purpose millions of inferior people had to be expelled or killed while as many men women and children of Germanic descent as possible had to be brought together in the territory of the Third Reich Children were the key players in Himmler s sinister plans and the Lebensborn program exploited luxurious maternity homes led by SS officers for selected women with the required Aryan features The pregnant women often not married and the fathers of their future children usually members of the SS had to comply with very strict racial requirements Himmler considered their offspring as the future nobility of the Germanic empire Obsessed with racial purity and birth rates the Lebensborn program fell directly under Himmler s personal control and arguably became his favorite project He spent hours drawing up selection criteria regulations and dietary requirements personally studying the files of mothers and children and using his private aircraft to transport them to other Lebensborn establishments The organization was active throughout Germany and the occupied Western European countries and was also involved in the abduction of Aryan children from Eastern and Central Europe On Himmler s orders tens of thousands of blond blue eyed children in Poland Slovenia the Czech Republic and other countries were abducted for Germanisation partly in Lebensborn children s homes Himmler was so absorbed by the racial delusion he was convinced this policy served a dual purpose by abducting the superior children he robbed the subjected countries of their future leaders while at the same time strengthening the Germanic race **The Collaborators** Ian Buruma, 2023-03-07 Ian Buruma s spellbinding account of three near mythic figures a Dutch fixer a Manchu princess and Himmler s masseur who may have been con artists and collaborators under Japanese and German rule or true heroes or something in between On the face of it the three characters in this book seem to have little in common aside from the fact that each committed wartime acts that led some to see them as national heroes and others as villains All three were mythmakers larger than life storytellers for whom the truth was beside the point Felix Kersten was a plump Finnish pleasure seeker who became Heinrich Himmler s indispensable personal masseur Himmler calling him his magic Buddha Kersten presented himself after the war as a resistance hero who convinced Himmler to save countless people from mass murder Kawashima Yoshiko a gender fluid Manchu princess spied for the Japanese secret police in China and was mythologized by the Japanese as a heroic combination of Mata Hari and Joan of Arc Friedrich Weinreb was a Hasidic Jew in Holland who took large amounts of money from fellow Jews in an imaginary scheme to save them from deportation while in fact betraying some of them to the German secret police Sentenced after the war as a con artist he was regarded regarded by supporters as the Dutch Dreyfus All three figures have been vilified and mythologized out of a never ending need Ian Buruma argues to see history and particularly war and above all World War II as a neat story of angels and devils The

Collaborators is a fascinating reconstruction of what in fact we can know about these incredible figures and what will always remain out of reach What emerges is all the more mesmerizing for being painted in chiaroscuro In times of life and death stakes the truth quickly gets buried under lies and self deception Now when demagogues abroad and at home are assaulting the truth once more the stories of the collaborators and their lessons are indispensable *Catalog of Copyright Entries.*

The Hunger Winter Henri A. Van Der Zee,1998-01-01 Germany invaded the Netherlands in the spring of 1940 Life in occupied Holland was hideous enough but for the Dutch the worst was yet to come After the Western Allies lost the Battle of Arnhem in September 1944 the Dutch provinces north of the Rhine and Waal Rivers were in the hands of the Germans and to the south fighting raged for months In the winter of 1944 45 just as other parts of Europe were being liberated the Dutch seemed forsaken by the Allies who bypassed Holland on their drive to Berlin That last winter of the war with its severe food and fuel shortages was a terrible one for the Dutch people who also suffered from episodes of Nazi terrorism In some provinces there was nothing to eat but tulip bulbs and sugar beets and eighteen thousand Dutch civilians actually starved to death Henri van der Zee who was ten years old that winter remembers what happened to his people **Klerk en Beul** Felix
