Popular Representations of Development David Lewis, Dennis Rodgers, Michael Woolcock, 2014-01-23

Although the academic study of development is well established as is also its policy implementation less considered are the broader more popular understandings of development that often shape agendas and priorities particularly in representative democracies Through its accessible and provocative chapters *Popular Representations of Development* introduces the idea that while the issue of development defined broadly as problems of poverty and social deprivation and the various agencies and processes seeking to address these is normally one that is discussed by social scientists and policy makers it also has a wider popular dimension Development is something that can be understood through studying literature films and other non conventional forms of representation It is also a public issue one that has historically been associated with musical movements such as Live Aid and increasingly features in newer media such as blogs and social networking The book connects the effort to build a more holistic understanding of development issues with an exploration of the diverse public sphere in which popular engagement with development takes place This book gives students of development studies media studies and geography as well as students in the humanities engaging with global development issues a variety of perspectives from different disciplines to open up this new field for discussion

African Women Writers and the Politics of Gender Sadia Zulfiqar, 2016-09-23 This work examines the work of a group of African women writers who have emerged over the last forty years While figures such as Chinua Achebe Ben Okri and Wole Soyinka are likely to be the chief focus of discussions of African writing female authors have been at the forefront of fictional interrogations of identity formation and history In the work of authors such as Mariama B Senegal Buchi Emecheta Nigeria Chimamanda Ngozi Adichie Nigeria Tsitsi Dangarembga Zimbabwe and Leila Aboulela Sudan there is a clear attempt to subvert the tradition of male writing where the female characters are often relegated to the margins of the culture and confined to the domestic private sphere This body of work has already generated a significant number of critical responses including readings that draw on gender politics and colonialism but it is still very much a minor literature and most mainstream western feminism has not sufficiently processed it The purpose of this book is three fold First it draws together some of the most important and influential African women writers of the post war period and looks at their work separately and together in terms of a series of themes and issues including marriage family polygamy religion childhood and education

Second it demonstrates how African literature produced by women writers is explicitly and polemically engaged with urgent political issues that have both local and global resonance the veil Islamophobia and a distinctively African brand of feminist critique Third it revisits Fredric Jameson s claim that all third world texts are national allegories and considers these novels by African women in relation to Jameson s claim arguing that their work has complicated Jameson s assumptions

The Rights War in Literature and Culture Jennifer Rickel,2025-07-31 Rights War tracks how the human rights framework is weaponized against the oppressed and it makes the case for the central place of literature in understanding this seizure of narrative control While literary humanitarianism depoliticizes suffering and positions the reader as a savior to traumatized Others Rights War shows how contemporary fiction by women of color and queer writers across the African diaspora engage innovative narrative paradigms to address structural inequities It analyzes strategies set out in this literature for disarming savior victimism which it identifies as a pernicious cultural phenomenon in which the powerful proclaim themselves saviors to and victims of those they marginalize As the disassociation of national rights from international human rights and the disconnection of civil and political rights from social and economic rights provoke a contest of victimhood this book offers a renewed argument for the indivisibility of rights and the social justice function of literature

Re-Reading Tragic Africa Amy Rushton, 2024-05-31 Grounded in world systemic analysis this book revisits the literary and social implications of tragedy in relation to global narratives about Africa and within fiction by writers from the continent It argues that working through the full complexity of tragedy helps to identify and challenge plots that depict Africa as reaching a tragic impasse Instead reconsidering tragedy allows for further related interventions including the implications of narratives of development the argument for formally engaging with literary texts that present challenging material reformulations of African political and cultural agency and the possibilities to be found in utopian thinking It claims that contemporary fiction helps to scrutinise the familiar big picture of Africa and create space for discussions about wider political and historical commonalities between the continent and the rest of the world As such the novels discussed in this study are not simply about Africa these fictional narratives position Africa as a central actor within the global history of late capitalism

Geopolitics and the Anglophone Novel, 1890-2011 John Marx, 2012-04-05 Literary fiction is a powerful cultural tool for criticizing governments and for imagining how better governance and better states would work Combining political theory with strong readings of a vast range of novels John Marx shows that fiction over the long twentieth century has often envisioned good government not in Utopian but in pragmatic terms Early twentieth century novels by Joseph Conrad E M Forster and Rabindrananth Tagore helped forecast world government after European imperialism Twenty first century novelists such as Monica Ali Chimamanda Ngozi Adichie Michael Ondaatje and Amitav Ghosh have inherited that legacy and continue to criticize existing policies in order to
