

The cover art features a Master Chief in his iconic green Mjolnir armor, holding a BR55 battle rifle. He is positioned in the center, looking slightly to the right. The background is a dynamic scene of a sky battle over a hazy, mountainous landscape. Several F-302 Starfighters are visible in the sky, some firing energy weapons. The overall color palette is dominated by the greens of the armor, the blues and greys of the sky, and the earthy tones of the ground.

Halo Encyclopedia captures two decades of storytelling with stunning never before seen art and the most detailed exploration of the universe's many characters, worlds, and technologies to have ever been created. *Crash Course in Gaming* Suellen S. Adams, 2013-11-25 Video games aren't just for kids anymore. This book will describe the why and how to start or expand a video gaming program in the library including some specific examples of how to target adult and female gamer patrons. Gaming supplies more than just visual stimulation and empty entertainment; it can also promote socialization as well as the learning of both traditional and new literacies required to succeed in the modern world. Problem solving, multi-tasking, complex decision making on the fly, and reading the combination of words and graphics are vital skills for the 21st century, all of which are required to play video games. *Crash Course in Gaming* discusses the pros and cons of gaming, the types of games and game systems, circulating collections, and game programs. It explains how a library's video game program can and should do much more than simply draw younger users to the library, providing examples of how everyone from parents to senior citizens can benefit from a patron-oriented computer gaming program. The appendices also include specific games, programs, review sources, and sources for further information. *Magic, Monsters, and Make-Believe Heroes* Douglas E. Cowan, 2019-02-26 *Magic Monsters and Make Believe Heroes* looks at fantasy film, television, and participative culture as evidence of our ongoing need for a mythic vision for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story. Why do we tell and retell the same stories over and over when we know they can't possibly be true? Contrary to popular belief, it's not because pop culture has run out of good ideas. Rather, it is precisely because these stories are so fantastic, some resonating so deeply that we elevate them to the status of religion. Illuminating everything from *Buffy the Vampire Slayer* to *Dungeons and Dragons* and from *Drunken Master* to *Mad Max*, Douglas E. Cowan offers a modern manifesto for why and how mythology remains a vital force today. *Halo Encyclopedia* DK Publishing, 2011-09-19 A must-have guide to the Halo universe.
