Handbook of Implicit Cognition and Addiction Reinout W. Wiers, Alan W. Stacy, 2006 This book is a valuable source for both researchers and practitioners who are either familiar or unfamiliar with implicit cognition and addiction Emmanuel Kuntsche ALCALA Most research on cognitive processes and drug abuse has focused on theories and methods of explicit cognition asking people directly to introspect about the causes of their behavior However it may be questioned to what extent such methods reflect fundamental aspects of human cognition and motivation In response to this issue basic cognition researchers have started to assess implicit cognitions defined as introspectively unidentified or inaccurately identified traces of past experience that mediate feeling thought or action Such approaches are less sensitive to self justification and social desirability and offer other advantages over traditional approaches underscored by explicit cognition Wiers Handbook of Implicit Cognition and Addiction lays the groundwork for new approaches to the study and addictive behaviors as the first handbook to apply principles of implicit cognition to the field of addiction This Handbook features the work of an interdisciplinary group of internationally renowned contributing North American and European authors who have brought together developments in basic research on implicit cognition with recent developments in addiction research Key Features Moves the field forward by integrating cutting edge research from formerly independent disciplines that help provide a

better understanding of the etiology prevention and treatment of addictive behaviors Lays the groundwork for new approaches to the study and treatment of addictive behaviors as the first handbook to apply principles of implicit cognition to the field of addiction Presents existing applications to the prevention and treatment of addictive behaviors as well as possibilities for future interventions based on new approaches based on implicit cognition Opens with a chapter written by the volume editors that outlines general theoretical issues and provides a roadmap to the book Provides integrative summaries written by both insiders and outsiders to the field in a final section highlighting theoretical issues currently being debated within this newly emerging area of scholarship This Handbook is a unique invaluable addition to libraries as well as to the collections of academics students and professionals interested in how cognitive research can contribute to the understanding prevention and treatment of addictions

The Handbook of Alcohol Use Daniel Frings, Ian P. Albery, 2021-01-17 Alcohol use is complex and multifaceted Our understanding must be also Alcohol use both problematic and not can be understood at many levels from basic biological systems through to global public health interventions To provide the multi level perspective needed to address this complexity the Handbook of Alcohol Use draws together an eclectic set of authors including both researchers and practitioners to examine the causes processes and effects of alcohol consumption Specifically this book approaches the topic from biological individual cognition small group systems and domestic global population perspectives Each examines alcohol use differently and each offers its own ways to combat problematic behavior While these alternative viewpoints are sometimes construed as incompatible or antagonistic the current volume also explores how they can be complimentary In summary the Handbook of Alcohol Use brings together an international group of experts to explore how alcohol use can be understood from various perspectives and how these conceptualizations relate In doing so it allows us to understand alcohol consumption and our responses to it more from an account which spans from synapse to society Explores alcohol use from individual through to societal levels Synthesizes these varied levels of analysis on alcohol use Draws on an international team of experts including researchers and alcohol treatment practitioners Makes clear the implications of research for practice

and vice versa Learning from Resilient People Morley D. Glicken, 2006-05-03 This comprehensive core textbook analyzes how resilient people navigate the troubled waters of life's traumas and identifies how learning about resilience may help cultivate this quality in other less resilient people Author Morley D Glicken explains the inner self healing processes of resilient people and helps individuals training in the helping professions to learn to use these processes in working with their clients Key Features Presents Current Research on Resilience The most current data is provided on a variety of common physical social and emotional problems experienced by people and the way in which resilient people cope with those problems In addition an entire chapter summarizes what we know about resilience and how it can be applied to clinical practice Provides Engaging Case Examples Wonderful and honestly written stories from resilient people about how they cope so well with their traumas illustrate how therapy using resilience can work From this perspective therapy draws from strength rather than deficit or psychopathology There is also a chapter on resilient communities not often discussed in literature which supports the idea that communities can help people increase their resilience Examines Resilience Across the Life Cycle The meaning and definitions of resilience is discussed as well as how it functions throughout the life cycle and through multiple life events This book also clarifies the erroneous notion that resilient people are endlessly resilient and helps recognize resilience as an actual and real attribute and not one that makes people seem super human Intended Audience This is an ideal textbook for undergraduate and graduate courses in Psychology Counseling Social Work Psychiatric Nursing Marriage and Family Counseling and Criminal Justice that teach direct practice techniques approaches and theories It is also a valuable resource for practitioners administrators teachers mental health workers and family service agencies
