Kiss Of God The Wisdom Of A Silent Child:

Kiss of God (20th Anniversary Edition) Marshall Stewart Ball, 2017-01-31 Kiss of God Marshall Stewart Ball, 1999
Kiss of God is an astonishing collection of inspiring writings by a young boy who is developmentally challenged. Born with a host of difficulties including the inability to speak, Marshall has persevered despite seemingly insurmountable obstacles. Marshall communicates by pointing to specific letters on an alphabet board and family members or friends transcribe each letter as Marshall indicates. When finished, he then titles and edits the selection, spelling each word correctly. From these letters and words come the inspiring selections collected in this book. His graceful, remarkable words are filled with the purity of his spirit and the love in his heart. In addition to Marshall's beautiful and loving words of inspiration, Kiss of God also contains anecdotes that either detail the circumstances under which he created each selection or the powerful effects his words have had on readers. In our fast-paced world with all its turmoil and tragedy, the simple and gentle wisdom of Kiss of God is sure to make it a treasured favorite with all readers for many years to come. *The Light Gap: God's Amazing Presence* Terry Larkin, Marjorie Steiner, 2016-10-07
The Light GAP is the story of Terry and Marj becoming aware of the amazing LIGHT within us. God is waiting for us to wake up. Tragedy struck the lives of sisters Terry and Marj. Journey with these sisters as their Light GAPs are revealed. Terry and Marj's intertwined stories include both tragedy and the miraculous. Understanding death allowed them both to LIVE life and took away the FEAR of God. A Light Gap is potential life. Seeds sprout as sun reaches them. Tragedy is full of possibility just like a Light Gap. New beginnings are waiting to emerge. Find through their discoveries the power held within to experience heaven now. Developing Self Without Sight William F. Cavitt, 2006-06-23 A child sighted or blind is born into this world with all the building blocks for what they can become This physical material is impacted by the child's environment over a life time while the self evolves The self is the same in blind children as it is in the sighted only the developmental process is different Both children have the same starting materials mind body and spirit With these parts the child develops a process of thinking feeling and behaving toward other people objects and situations and they recognize that others also think feel and behave in their environment It is with their thoughts emotions and actions that children relate to their world using physical emotional cognitive social and moralistic attributes and through this interrelationship the self evolves The self is everything that exists in a person's unique world and it exists because of their self concept and self esteem Aspects of self concept are the elements of well being that assist our survival in our environment They consist of all the physical things our personality feelings toward life our knowledge and problem solving techniques how we successfully interface with others and our social and spiritual values in life If our self concept contains the important things and issues in life and there is a high regard for them then our self will evolve in a manner conducive to peace and harmony If not the opposite will occur The blind child must build a self with a missing part Granted

self will evolve for a blind child but it must be augmented by all other senses of the body in order to enhance the mind and spirit. A blind child's thoughts, feelings, and behaviors serve the same purpose as they do for a sighted child but will evolve differently. The physical, emotional, cognitive, social, and moral concepts are necessary but are obtained without the benefit of the automatic process of seeing. The self evolves but the conduit for inputting their environment is different for a blind child. This is the story of a four-year blind boy named Cavitt and how his self is evolving.
