Enemies in the Empire Stefan Manz, Panikos Panayi, 2020-02-27 During the First World War Britain was the epicentre of global mass internment and deportation operations Germans Austro Hungarians Turks and Bulgarians who had settled in Britain and its overseas territories were deemed to be a potential danger to the realm through their ties with the Central Powers and were classified as enemy aliens A complex set of wartime legislation imposed limitations on their freedom of movement expression and property possession Approximately 50 000 men and some women experienced the most drastic step of enemy alien control namely internment behind barbed wire in many cases for the whole duration of the war and thousands of miles away from the place of arrest Enemies in the Empire is the first study to analyse British internment operations against civilian enemies during the First World War from an imperial perspective The narrative takes a three pronged approach In addition to a global examination the volume demonstrates how internment operated on a proto national scale within the three selected case studies of the metropole Britain a white dominion South Africa and a colony under direct rule India Stefan Manz and Panikos Panayi then bring their study to the local level by concentrating on the three camps Knockaloe Britain Fort Napier South Africa and Ahmednagar India allowing for detailed analyses of personal experiences Although conditions were generally humane the operations caused widespread suffering The study argues that the British Empire played a key role in developing civilian internment as a central element of warfare and national security on a global

Internment during the First World War Stefan Manz,Panikos Panayi,Matthew Stibbe,2018-10-10 Although civilian internment has become associated with the Second World War in popular memory it has a longer history The turning point in this history occurred during the First World War when in the interests of security in a situation of total war the internment of enemy aliens became part of state policy for the belligerent states resulting in the incarceration displacement and in more extreme cases the death by neglect or deliberate killing of hundreds of thousands of people throughout the world This pioneering book on internment during the First World War brings together international experts to investigate the importance of the conflict for the history of civilian incarceration The Phantom Train: Deporting Prisoners from Occupied France Martin Sorrell,Ludivine Broch,2025-11-30 On 3 July 1944 a train of cattle wagons set out from Toulouse heading for Germany Crammed inside eventually were 724 souls of various nationalities and backgrounds all of whom the German occupiers had held captive in concentration camps and prisons across south western France Among them was Francesco Fausto Nitti an Italian antifascist activist who had survived Mussolini's gaols and the Spanish Civil War The journey to Dachau was expected to take three days Instead bombed re routed and often immobilised it lasted for two months making it the longest of all deportation journeys out of France during the Second World War Nitti kept a daily log of the odyssey of the Phantom Train as it has become known and the document was in his pocket when on 25 August he and some fellow captives made a perilous last minute escape by removing some of their wagon's floorboards and lowering themselves onto the track as

the train sped through the night Once back with his family and the Resistance Nitti turned his log into a book which was published at the end of 1944 by a small press run by a Resistance member Now with this first English translation of *The Phantom Train* and an extended introduction a whole new readership can learn about that never ending journey to Dachau and everything that led up to it and marvel at the determination and endurance of some courageous people notably the remarkable Francesco Fausto Nitti

Nazi Germany: A Very Short Introduction Jane Caplan, 2019-07-25 Any consideration of the 20th century would be incomplete without a discussion of Nazi Germany an extraordinary regime which dominated European history for 12 years and left a legacy that still echoes with us today The incredible force of the destructive vision at the heart of Nazi Germany led to a second world war when the world was still aching from the first one and an incomprehensible death count both at home and abroad In this *Very Short Introduction* Jane Caplan s insightful analysis of Nazi Germany provides a highly relevant reminder of the fragility of democratic institutions and the ways in which the exploitation of national fears mass political movements and frail political opposition can lead to the imposition of dictatorship Considering the emergence and popular appeal of the Nazi party she discusses the relationships between belief consent and terror in securing the regime alongside the crucial role played by Hitler himself Covering the full history of the regime she includes an unflinching look at the dark stains of war persecution and genocide At the same time Caplan offers unexpected angles of vision and insights asking readers to look behind the handful of over used images of Nazi Germany we are familiar with and to engage critically with a history that that is so abhorrent it risks seeming beyond interpretation

Saving Lives in Auschwitz: The Prisoners Hospital in Buna-Monowitz Ewa K. Bacon, 2017 In a 1941 Nazi roundup of educated Poles Stefan Budziaszek newly graduated from medical school in Krakow was incarcerated in the Krakow Montelupich Prison and

transferred to the Auschwitz concentration camp in February 1942 German big businesses brutally exploited the cheap labor of prisoners in the camp and workers were dying In 1943 Stefan now a functionary prisoner was put in charge of the on site prisoner hospital which at the time was more like an infirmary staffed by well connected but untrained prisoners Stefan transformed this facility from just two barracks into a working hospital and outpatient facility that employed more than 40 prisoner doctors and served a population of 10 000 slave laborers KKJ1 Stefan and his staff developed the hospital by commandeering medication surgical equipment and even building materials often from the so called Canada warehouse filled with the effects of Holocaust victims But where does seeking the cooperation of the Nazi concentration camp staff become collusion with Nazi genocide How did physicians deal with debilitated patients who faced selection for transfer to the gas chambers Auschwitz was a cauldron of competing agendas Unexpectedly ideological rivalry among prisoners themselves manifested itself as well Prominent Holocaust witnesses Elie Wiesel and Primo Levi both sought treatment at this prisoner hospital They other patients and hospital staff bear witness to the agency of prisoner doctors in an environment better known for death than survival
