Library of Congress Catalogs Library of Congress,1980 *Monographic Series* Library of Congress,1980 *The Melancholy Science* Gillian Rose,2014-01-07 The Melancholy Science is Gillian Rose s investigation into Theodor Adorno s work and legacy Rose uncovers the unity discernable among the many fragments of Adorno s oeuvre and argues that his influence has been to turn Marxism into a search for style The attempts of Adorno Lukcs and Benjamin to develop a Marxist theory of culture centred on the concept of reification are contrasted and the ways in which the concept of reification has come to be misused are exposed Adorno s continuation for his own time of the Marxist critique of philosophy is traced through his writings on Hegel Kierkegaard Husserl and Heidegger His opposition to the separation of philosophy and sociology is shown by examination of his critique of Durkheim and Weber and of his contributions to the dispute over positivism his critique of empirical social research and his own empirical sociology Gillian Rose shows Adorno s most important contribution to be his founding of a Marxist aesthetic that offers a sociology of culture as demonstrated in his essays on Kafka Mann Beckett Brecht and Schnberg Finally Adorno s Melancholy Science is revealed to offer a sociology of illusion that rivals both structural Marxism and phenomenological sociology as well as the subsequent work of the Frankfurt School **Deutsches Bücherverzeichnis** ,1924 Bde 16 18 21 and 28 each contain section Verlagsver nder ngen im deutschen Buchandel **The Ethics of Today's Science and Technology** Wenchao Li,Hans Poser,2008 Beneath the discussion and clarification of problems of which both sides agreed to have them in common and which are documented in this volume one of the important insights on both sides had been disagreements depending on a different way in seeing articulating and reflecting on these problems So the English term science in differing from the German Wissenschaft which includes not only sciences of nature but also humanities is meant in the Western tradition as the uninterested research for truth especially for most general laws but the Chinese understanding seems to be characterized by an immediate connection of science and its practical use **Deutsches Bücherverzeichnis** ,1985 *Democrats into Nazis* Alex Burkhardt,2019-09-20 How did millions of middle class Germans come to support extreme nationalist and anti democratic groups during the Weimar Republic This troubling and pointedly argued book addresses this question through a targeted case study of Hof a small Bavarian town in the five years after the First World War During this tumultuous period a series of devastating crises and violent confrontations discredited the representatives of democratic liberalism and handed the initiative to a reinvigorated radical Right Crucially these crises were understood by Hof s inhabitants as part of a broader European Civil War unleashed by the Russian Revolution and Treaty of Versailles This detailed and disturbing study will be read with profit by students and scholars of modern history who seek new insights into the rise of the Nazis and into the processes of popular radicalisation that did so much to bring about the destruction of the Weimar Republic Hegel and the State Franz Rosenzweig,2023-11-30 Franz Rosenzweig 1886 1929 is one of the most significant German Jewish philosophers

of the twentieth century Published in German in 1920 and now finally available in English for the first time Hegel and the State is a major contribution to the understanding of Hegel's political and social thought and a profound analysis of the intellectual currents that shaped the German state in the late nineteenth and early twentieth centuries Through careful readings of Hegel's early handwritten manuscripts Rosenzweig shows that Hegel was wrestling with the problem of how to reconcile the subjectivity and freedom of the individual within a community and ultimately the political state According to Rosenzweig the route out of this conundrum chosen by Hegel shaped his mature political philosophy where he saw the relationship between the individual and the state as reciprocal At a deeper level the significance of Hegel and the State lies in the way that Rosenzweig explains the failure of Hegel's quasi communitarian view of the state to emerge due to the authoritarian direction of the newly unified German state under Bismarck Anticipating the political and moral disaster that was to follow Rosenzweig concludes by questioning the very viability of any theory of the state that relies on the pillars of bureaucratic militarism and a government supported capitalist business culture With the inclusion of a Foreword by Myriam Bienenstock and a substantial Afterword by Axel Honneth Hegel and the State is a ground breaking work of early twentieth century philosophical and political thought It is essential reading for students of Hegel German Idealism Jewish philosophy and the origins of critical theory It will also be of interest to those in related subjects such as the history of sociology and German and intellectual history
