Hermann Bahr and the Quest for Culture Egon W. Breckner, 1978 Fin-de-Siècle Vienna Carl E. Schorske, 1981 A landmark book from one of the truly original scholars of our time a magnificent revelation of turn of the century Vienna where out of a crisis of political and

social disintegration so much of modern art and thought was born Not only is it a splendid exploration of several aspects of early modernism in their political context it is an indicator of how the discipline of intellectual history is currently practiced by its most able and ambitious craftsmen It is also a moving vindication of historical study itself in the face of modernism s defiant suggestion that history is obsolete David A Hollinger History Book Club Review Each of the seven separate studies can be read separately Yet they are so artfully designed and integrated that one who reads them in order is impressed by the book s wholeness and the momentum of its argument Gordon A Craig The New Republic A profound work on one of the most important chapters of modern intellectual history H R Trevor Roper front page The New York Times Book Review Invaluable to the social and political historian as well as to those more concerned with the arts John Willett The New York Review of Books A work of original synthesis and scholarship Engrossing Newsweek

Modernism in Fin-de-Siècle Europe Robert Jensen, 2022-02-08 In this fundamental rethinking of the rise of modernism from its beginnings in the Impressionist movement Robert Jensen reveals that market discourses were pervasive in the ideological defense of modernism from its very inception and that the avant garde actually thrived on the commercial appeal of anti commercialism at the turn of the century The commercial success of modernism he argues depended greatly on possession of historical legitimacy The very development of modern art was inseparable from the commercialism many of its proponents sought to transcend Here Jensen explores the economic, aesthetic, institutional and ideological factors that led to its dominance in the international art world by the early 1900s He emphasizes the role of the emerging dealer gallery market and of modernist art historiographies in evaluating modern art and legitimizing it through the formation of a canon of modernist masters In describing the canon building of modern dealerships Jensen considers the new ideological dealer and explores the commercial construction of artistic identity through such rhetorical concepts as temperament and independent art and through such institutional structures as the retrospective His inquiries into the fate of the *juste milieu* a group of dissidents who saw themselves as true heirs of Impressionism and his look at a new form of art history emerging in Germany further expose a linear dealer oriented history of modernist art constructed by or through the modernists themselves

Gustav Klimt Gustav Klimt, Tate Gallery Liverpool, 2008-09 Gustav Klimt 1862-1918 remains one of the most popular artists of the early 20th century Published to accompany a major exhibition at Tate Liverpool a highlight of that city's 2008 Capital of Culture celebrations and the first such show in the UK Gustav Klimt explores the life and work of an intriguing figure at the heart of the cultural transformation of Vienna around 1900 Central to the book is the first thorough examination of the relationship between Klimt's paintings and the work of his close friend the architect and designer Josef Hoffmann Reaching beyond the two dimensional arts it hails the advent of an all inclusive design culture that embraced interiors, furniture, clothing and jewellery Essays by leading scholars and curators consider key works, events and developments the founding of the Viennese Secession the inaugural display of the Beethoven Frieze and a series of collaborative ventures in the creation of total domestic environments for the pursuit of modern life among them the Villa Maerndorfer in Vienna and the Villa Primavesi in rural northern Moravia In addition Klimt is assessed as both an accomplished erotic draughtsman and a seductive landscape painter **BOOK JACKET** *The Red Jester* Judith Wermuth, 2012 What was Andrei Bely's aim in his ambiguous novel *Petersburg* For the first time this study firmly places Bely's work at the heart of the European Modernist

Moderne The book argues that the novel with its concern for the spiritual and its desire to create new aesthetics helped reshape fundamental views of reality of the Self and of consciousness Theories of Freud and Jung as well as the aesthetics of the Viennese Secession are used to elucidate Bely's approach to the narrative The book also presents Rudolf Steiner's anthroposophy as the prism through which Bely reflects modernist ideas Series Slavistik Vol 1 [A Kingdom Not of This World](#) Kevin C. Karnes, 2013-07-30 Typically regarded as reflecting on a culture in social political or psychological crisis the arts in fin de siècle Vienna had another side they were means by which creative individuals imagined better futures and perfected worlds dawning with the turn of the twentieth century As author Kevin C. Karnes reveals much of this utopian discourse drew inspiration from the work of Richard Wagner whose writings and music stood for both a deluded past and an ideal future yet to come Illuminating this neglected dimension of Vienna's creative culture this book ranges widely across music philosophy and the visual arts Uncovering artworks long forgotten and providing new perspectives on some of the most celebrated achievements in the Western canon Karnes considers music by Mahler Schoenberg and Alexander Zemlinsky paintings sculptures and graphic art by Klimt Max Klinger and members of the Vienna Secession and philosophical writings by Nietzsche Schopenhauer and Maurice Maeterlinck Through analyses of artworks and the cultural dynamics that surrounded their creation and reception this study reveals a powerful current of millennial optimism running counter and parallel to the cultural pessimism widely associated with the period It discloses a utopian discourse that is at once beautiful moving and deeply disturbing as visions of perfection gave rise to ecstatic artworks and dystopian social and political realities **"Women, Femininity and Public Space in European Visual Culture, 1789-1914"** Temma

Balducci, 2017-07-05 Focusing on images of or produced by well to do nineteenth century European women this volume explores genteel femininity as resistant to easy codification vis is the public Attending to various iterations of the public as space sphere and discourse sixteen essays challenge the false binary construct that has held the public as the sole preserve of prosperous men By contrast the essays collected in Women Femininity and Public Space in European Visual Culture 1789-1914 demonstrate that definitions of both femininity and the public were mutually defining and constantly shifting In examining the relationship between affluent women femininity and the public the essays gathered here consider works by an array of artists that includes canonical ones such as Mary Cassatt and Franz Goethe as well as understudied women artists including Louise Abbéma and Bronzia Koller The essays also consider works in a range of media from fashion prints and paintings to private journals and architectural designs facilitating an analysis of femininity in public across the cultural production of the period Various European centers including Madrid Florence Paris Brittany Berlin and London emerge as crucial sites of production for genteel femininity providing a long overdue rethinking of modern femininity in the public sphere
