the complex of ideas that lies at the core of his thought and relating them to his art and the broader concerns that were most important to him Claudius has long had a firm place in the canon of German literature as a naive and soulful poet of folklife nature and religious faith Over the past two decades however a growing body of scholarship has uncovered aspects of his life and work that demand reconsideration of his traditional image This volume represents an attempt to contribute to the revision This volume elucidates the ideas central to Claudius s thought and views them in connection with both his work and important issues of the time Over and against the traditional image of Claudius the study projects a more accurate and balanced indeed a substantially new vision of the poet and man

Blurred Boundaries and Deceptive Dichotomies in Pre-Modern Texts and Images Dafna Nissim, Vered Tohar, 2023-12-18 This collection of essays focuses on the way blurred boundaries are represented in pre modern texts and visual art and how they were received and perceived by their audiences readers listeners and viewers According to the current understanding that opposing cognitive categories that are so common in modern thinking do not apply to pre modern mentalities we argue that individuals in medieval and pre modern societies did not necessarily consider sacred and secular male and female real and fictional and opposing emotions as absolute dichotomies The contributors to the present collection examine a wide range of cultural artifacts literary texts wall paintings sculptures jewelry manuscript illustrations and various objects as to what they reflect regarding the dominant perceptual system the network of beliefs worldviews presumptions values and norms of viewing reading hearing different from modern epistemology strongly predicated on the binary nature of things and people The essays suggest that analyzing pre modern cultural works of art or literature in light of reception theory can lead to a better understanding of how those cultural products influenced individuals and impacted their thoughts and actions

The Shadow of Dante in French Renaissance Lyric Alison Baird Lovell, 2020-11-09 This book presents an interpretation of Maurice Scève s lyric sequence *Dieu objet de plus haulte vertu* Lyon 1544 in literary relation to the *Vita nuova* *Commedia* and other works of Dante Alighieri Dante s subtle influence on Scève is elucidated in depth for the first time augmenting the allusions in *Dieu* to the *Canzoniere* of Petrarch Francesco Petrarca Scève s sequence of dense epigrammatic dizains is considered to be an early example prior to the *Pléiade* poets of French Renaissance imitation of Petrarch s vernacular poetry in a time when imitatio was an established literary practice signifying the poet s participation in a tradition While the *Canzoniere* is an important source for Scève s *Dieu* both works are part of a poetic lineage that includes Occitan troubadours Guinizzelli Cavalcanti and Dante The book situates Dante as a relevant predecessor and source for Scève and examines anew the Petrarchan label for *Dieu* Compelling poetic affinities emerge between Dante and Scève that do not correlate with Petrarch

Schubert's Reputation from His Time to Ours Geoffrey Block, 2024-12-30 The composer Franz Schubert 1797 1828 was not bereft of early advocates from Schumann Liszt and Mahler to Sir George Grove Brahms famously heralded Schubert as the true successor to Beethoven Nevertheless it was not until the end of the twentieth century that Schubert's major instrumental works finally and fully emerged from Beethoven's shadow Critics and scholars began to reinterpret Schubert's departures from Beethoven's formal and stylistic characteristics and to see these departures not as flaws but as strengths and hallmarks of a new paradigm Schubert's alternate constructions of masculine subjectivities first described by Schumann in 1838 parallel a developing appreciation for lyricism melody and song traits historically regarded as feminine Consequently Schubert's approach is increasingly viewed as innovative and divergent rather than defective and deviant Schubert's Reputation from His Time to Ours tells the story of how and why this has happened
