The Homestead ,1915 **The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces** ,1905 *Army-Navy-Air Force Register and Defense Times* ,1903 *Illustrated Outdoor World and Recreation* ,1917 *Pisces Moon* Douglas Valentine,2023-05-15 *Pisces Moon* The Dark Arts of Empire is a non fiction book about what writer William Burroughs called the backlash and bad karma of empire Set against the author s month long trip to London Vietnam and Thailand in early 1991 it tells how the American empire was created by rapacious businessmen backed by a murderous military establishment media moguls who designed a relentless psychological warfare campaign that glorifies warriors who are programmed to kill on command and clerics who contrived a religious justification for imperialism the subordination of women and the establishment of chattel slavery *Pisces Moon* shows how these mythmakers led by CIA drug traffickers after World War Two destroyed much of Southeast Asia It also tells how the myth of American greatest has come home to roost and is now manifest as the vainglorious militant Christian nationalist movement that wishes to establish a right wing dictatorship *Pisces Moon* argues that the survival of American democracy and the world depends upon people being able to distinguish between material evidence and substantiated facts on the one hand and conspiracy theories religious beliefs and supremacist myths on the other **The U.S. Army in the West, 1870-1880** Douglas C.

McChristian,2006-03-01 Description of the development and evolution of Army uniforms equipment and small arms during a pivotal decade of experimentation and against the backdrop of a highly influential military operation the Indian campaigns in the West **The International Military Digest Annual** ,1918 **Soldier** Phil Rutherford,2017-08-05 *Soldier* presents a magnificent collection of highly detailed illustrations depicting uniforms worn by the military forces of this nation from colonial times to the modern era Accompanying each illustration is the history of the uniform and equipment portrayed and the men and women who wore the uniform and the circumstances of their service This is a book rich in colour and historical narrative *Soldier* is much more than simply a description of military uniforms and equipment Phil Rutherford has spent over

20 years searching for the roots of Australia's modern army analysing trends both in dress and in the military art itself In doing so he has discovered that there is very little about the uniforms worn and the equipment carried by today's soldiers that can truly be called its own Even the most iconic symbol of the Australian army the slouch hat was not invented by a Victorian volunteer as popular rumour suggests but was worn by troops in seventeenth century Europe In fact there are significant elements of the army's dress and equipment such as the badges of rank worn by both soldiers and officers which can be traced to the days of knights in shining armour Soldier seeks to map the links between the army's modern dress and its earliest antecedents describing the formation and history of Australia's army from the perspective of both the regular and reserve soldiers This book also reveals the story behind the soldiers themselves the men and women who wore these uniforms and the times in which they served since the first volunteers and militias were raised to protect the lives and property of the earliest settlers from adversaries both real and imagined

Everyday Political Objects Christopher Fletcher, 2021-06-10 *Everyday Political Objects* examines a series of historical case studies across a very broad timescale using objects as a means to develop different approaches to understanding politics where both internal and external definitions of the political prove inadequate Materiality and objects have gradually made their way into the historian's toolbox in recent years but the distinctive contribution that a set of methods developed for the study of objects can make to our understanding of politics has yet to be explored This book shows how everyday objects play a certain role in politics which is specific to material things It provides case studies which re-orientate the view of the political in a way that is distinct from but complementary to the study of political institutions the social history of politics and the analysis of discourse Each chapter shows in a distinctive and innovative way how historians might change their approach to politics by incorporating objects into their methodology Analysing case studies from France the Congo Burkina Faso Romania and Britain between the early Middle Ages and the present day makes this study the perfect tool for students and scholars in the disciplines of history art history political science anthropology and archaeology Chapter 7 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781003147428>
