Facing a potential employer and knowing that your dream job is just around the corner can be a nerve-racking experience for most of us. Being at a job interview can quickly feel like navigating through a minefield without proper preparedness. Have you ever suspected that any unconscious habits of yours might be working against you when talking with a hiring manager? More often than not, job seekers have negative habits that never fail to crop up at the worst moments during an interview. These bad behaviors and habits can be tricky to spot and discard without someone pinpointing them. Here's some of what you can expect to learn inside the pages of this book: Learn exactly which steps to follow in order to be well-prepared before you arrive to the interview. The key things that employers look for in candidates when conducting an interview. The best way to eliminate stress and anxiety and be in complete control during the process. Using social media to your advantage instead of having it work against you before meeting the hiring manager. Learn how to answer many of the most commonly asked regular and trick questions. Learning what not to say or do is just as crucial as giving the right answers. Job seekers will usually diminish their chances of getting an offer by saying the wrong things during the interview process without them even being aware of it.
