Knowledge Spirit Law Radical Scholarship:

Knowledge, Spirit, Law Gavin Keeney, 2015 As the author pay model spreads across academic publishing what are the possible consequences Will the current rage for open source scholarship actually accomplish anything other than shifting the furniture around on the Titanic Will not Open Source in combination with Digital Humanities further destroy the very idea of slow and thoughtful work in humanistic studies It would seem that the author pay model formerly attributed to predatory publishers is just another way of extracting tribute for the privilege of being published enforceable only because academia has ratcheted up the stakes by enforcing research metrics and citations in the public universities a practice that is primarily enforced by external industrial connections Almost all public and private universities are heading toward measuring output with metrics many academics now tailoring their CVs to show why they are important mirroring the social media campaigns of celebrities and politicians and many universities now citing their own corporate rankings when promoting their product the University the Institute the Department the Professor Where this is all going is toward increased precarity for anyone who does not play the game Individual solitary scholars will have few options Gavin Keeney Symptom A The End Knowledge Spirit Law Knowledge Spirit Law as project is a de facto phenomenology of scholarship in the age of Cognitive Capitalism The six essays plus Appendices presented here cover topics and circle themes related to the problems and crises specific to neo liberal academia while proposing creative paths around the various obstructions The obstructions include metrics obsessed academia circular and incestuous peer review digitalization of research as stalking horse for text and data mining and violation by global corporate fiat of Intellectual Property Rights and the Moral Rights of Authors These issues while addressed obliquely in the main text definitively inform the various implied proscriptive aspects of the essays and via the Introduction and Appendices underscore the necessity of developing new old means to no obvious end in the production of knowledge that is to say a return to forms of non instrumentalized intellectual inquiry To be developed in two concurrent volumes Knowledge Spirit Law will serve as a moving and or shifting anthology of new forms of expression in humanistic studies TABLE OF CONTENTS Preface Acknowledgments Introduction Radical Scholarship Essay 1 Re universalizing Knowledge Essay 2 Estranged Dawns Essay 3 The Film essay Essay 4 Film Mysticism and The Haunted Wood Essay 5 Circular Discourses Essay 6 Verb Tenses and Time senses Appendix A Agence X Publishing Advisory Appendix B Perpetual Petition for the Right of the Author to Have No Digital Rights Appendix C Symptom A The End References

Works for Works, Book 1 Gavin Keeney, 2022 Works for Works Book 1 Useless Beauty tackles legacy issues of intellectual property rights IPR in artistic production and academic scholarship and proposes a category or class of works that has no relation to IPR nor to proprietary regimes of copyright and academic privilege Keeney s book is a structuralist argument for establishing new forms of artistic scholarship that operate in direct opposition to established norms in both the art world and neoliberal academia and is also rigorously contextualized within past and present day arguments for and against patrimonial and

paternalistic avant garde and normative forms of censure and conformity across cultural production Works for Works Book 1 Useless Beauty privileges an iterative generative and aleatory methodology for artistic scholarship with transmedia proposed as a tutelary form of editioning works against the dictates of the art academic complex This focus on generativity also invokes the dialectical operations historically associated with past avant gardes as they have negotiated an elective nihilism as an avenue for exiting established and authorized forms of conceptual and intellectual inquiry in the Arts and Humanities Gavin Keeney is Director of Agence X founded in New York New York in 2007 He completed a research doctorate in Architecture at Deakin University Australia in 2014 on the subject of Visual Agency in Art and Architecture His publications include Dossier Chris Marker The Suffering Image Cambridge Scholars Publishing 2012 Knowledge Spirit Law Book 1 Radical Scholarship punctum 2015 and Knowledge Spirit Law Book 2 The Anti capitalist Sublime punctum 2017 He has taught and lectured in architecture schools in the US England Slovenia Australia and India *Performance Making and the Archive* Ashutosh Potdar, Sharmistha Saha, 2022-11-30 This book investigates theories and practices shaped by a performance s relationship to the archive The contributions in the volume examine how the changing nature of performance practices has made it imperative to understand how the archive and archival practices could add to the performance work They explore a variety of themes including artistic engagement with the archive in both conceptual and material terms physical virtual and digital forms publicly and privately collected oral written and digital ways or organized and unorganized collections Finally the volume examines how archives are modelled on existing structure and the ways in which they can be brought into discourses and practices of performance making through engagement and contestation A novel approach to performance theory this volume will be of great interest to scholars and researchers of performance studies media and culture studies studies of technology and art as also literature and literary criticism **Geelong's Changing Landscape** David Jones, Phillip Roös, 2019-11-01 Geelong s Changing Landscape offers an insightful investigation of the ecological history of the Geelong and Bellarine Peninsula region Commencing with the penetrating perspectives of Wadawurrung Elders chapters explore colonisation and post World War II industrial development through to the present challenges surrounding the ongoing urbanisation of this region Expert contributors provide thoughtful analysis of the ecological and cultural characteristics of the landscape the impact of past actions and options for ethical future management of the region This book will be of value to scientists engineers land use planners environmentalists and historians *The Routledge Companion to Applied Musicology* Chris Dromey, 2023-09-19 The Routledge Companion to Applied Musicology brings together academics artist researchers and practitioners to provide readers with an extensive and authoritative overview of applied musicology Once a field that addressed music s socio political or performative contexts applied musicology today encompasses study and practice in areas as diverse as psychology ecomusicology organology forensic musicology music therapy health and well being and other public oriented musicologies These rapid advances have created a fast changing field whose scholarship and

activities tend to take place in isolation from each other This volume addresses that shortcoming bringing together a wide ranging survey of current approaches Featuring 39 authors The Routledge Companion to Applied Musicology falls into five parts Defining and Theorising Applied Musicology Public Engagement New Approaches and Research Methods Representation and Inclusion and Musicology in for Performance that chronicle the subject s rich history and consider the connections that will characterise its future The book offers an essential resource for anyone exploring applied musicology

Deviant Knowledge Reece Walters,2013-01-11 In this important and original book Reece Walters examines the politics of criminology and the ways in which criminological knowledge is generated It includes an overview of the politics and practice of conducting criminological research drawing upon material from Britain Europe Australia New Zealand and the USA and the ways that regulatory and governing authorities set research agendas manipulate the processes and production of knowledge and silence or suppress critical voices through various techniques of neutralisation The book argues for knowledges of resistance a position that promotes critique challenges concepts of power and social order wrestles with notions of truth and adheres to intellectual autonomy and independence It provides invaluable insights into the relationship between the criminological researcher public officials and corporate representatives Drawing upon a wide range of interviews with academics and administrators from government and business the book provides rare insights into the ways that knowledge about crime and criminal justice is produced and consumed revealing why certain topics of criminological enquiry are rarely funded and why others receive ongoing political and governmental support The book will be essential reading for anybody interested in the development of criminological theory and research and the context and influences that shape it

Paul, the Passionate Scholar John D. Rouse MA,2014-11-03 This book is Gods Word prayerfully unfolding glimpses into the clarifying elements of the Greek text augmented by historical images of his times Designed to arouse believers and further deepen their Christian commitment it can change lives and augment Christian growth of lay readers The language of the NT Greek holds many keys for unlocking the riches of Gods palace In a special tour of each chapter one can marvel over stories of valor and tender moments of love lavishly displayed in rich flavors and stirring narratives that invigorate the soul

Knowledge, Spirit, Law Gavin Keeney,2017 Knowledge Spirit Law Book 2 The Anti capitalist Sublime takes up where Knowledge Spirit Law Book 1 Radical Scholarship 2015 left off foremost in terms of a critique of neo liberal academia and its demotion of the book in favor of various mediatic practices that substitute arguably for the one form of critical inquiry that might safeguard speculative intellectual inquiry as long form and long term project especially in relationship to the archive or library otherwise known as the public domain This ongoing critique of neo liberal academia is a necessary corrective to processes underway today toward the further marginalization of radical critique with many of the traditional forms of sustained analysis being replaced by pseudo empirical studies that abandon themes only presentable in the Arts and Humanities through the arcanian closure that the book as long form inquisition represents whether as novel non

fictional critique or something in between As a tomb for thought this privileging of the shadowy recesses of the book preserves through the very apparatuses of long and slow form scholarship the premises presented here as indicative of an anti capitalist project embedded in works that might otherwise shun such a characterization **Sharing Breath** Sheila Batacharya, Yuk-Lin Renita Wong, 2018-10-31 Treating bodies as more than discursive in social research can feel out of place in academia As a result embodiment studies remain on the outside of academic knowledge construction and critical scholarship However embodiment scholars suggest that investigations into the profound division created by privileging the mind intellect over the body spirit are integral to the project of decolonization The field of embodiment theorizes bodies as knowledgeable in ways that include but are not solely cognitive The contributors to this collection suggest developing embodied ways of teaching learning and knowing through embodied experiences such as yoga mindfulness illness and trauma Although the contributors challenge Western educational frameworks from within and beyond academic settings they also acknowledge and draw attention to the incommensurability between decolonization and aspects of social justice projects in education By addressing this tension ethically and deliberately the contributors engage thoughtfully with decolonization and make a substantial and sometimes unsettling contribution to critical studies in education **Sufi Rituals and Practices** Kashshaf Ghani, 2023-11-29 The book is an in depth study of the lesser explored history of Sufi practices in South Asia Covering the formative period of Sufism in this region the work studies practices like sama listening to poetry and music and zikr remembrance of God through the careers of the earliest Sufi orders in the region Chishti and Suhrawardi The book allows the reader critical insight into Sufi exercises the meaning structure and performance of sama the long debate on the legality of music dance and poetry as religious practices tensions between Sufis and the State around the permissibility of sama zikr as a core Sufi exercise the practice of sama and zikr across orders and the importance of etiquette in Sufi communities The work essentially understands spiritual practices as a critical element in the development of Sufism in South Asia Moving beyond the limits of the north south binary the author also focuses on the Deccan weaving a seamless narrative that reflects the contributions of generations of important Sufi masters Shedding light on the private world of Sufi practices the work for the first time introduces English language readers to a full length translation of a treatise written in defence of listening to music and poetry as an integral spiritual exercise **Decolonizing images** Ronnie Close, 2024-02-06 The 2011 revolution put Egypt at the centre of discussions around radical transformations in global photographic cultures But Egypt and photography share a longer richer history rarely included in western accounts of the medium Decolonizing images focuses on the country s local visual heritage continuing the urgent process of decolonizing the canon of photography It presents a new account of the visual cultures produced and exhibited in Egypt by interpreting the camera s ability to conceal as much as it reveals The book moves from the initial encounters between local knowledge and western led modernity to explore how the image intersects with the politics of representation censorship activism and aesthetics It overturns

Eurocentric understandings of the photograph through a compelling narrative of contemporary Egypt's indigenous visual culture

[This Is Not a Peace Pipe](#) Dale Turner, 2006-02-06 How can indigenous people best assert their legal and political distinctiveness In *This is Not a Peace Pipe* Dale Turner explores indigenous intellectual culture and its relationship to and within the dominant Euro American culture He contends that indigenous intellectuals need to engage the legal and political discourses of the state respecting both indigenous philosophies and Western European intellectual traditions According to Turner the intellectual conversation about the meaning of indigenous rights sovereignty and nationhood must begin by recognizing firstly that the discourses of the state have evolved with very little if any participation from indigenous peoples and secondly that there are unique ways of understanding the world embedded in indigenous communities Further amongst indigenous peoples a division of intellectual labour must be invoked between philosophers who possess and practice indigenous forms of knowledge and those who have been educated in the universities and colleges of the Euro American world This latter group Turner argues must assert protect and defend the integrity of indigenous rights sovereignty and nationhood as they are the ones able to speak the language of the dominant culture while being guided by their indigenous philosophies *This is Not a Peace Pipe* is a work that will be controversial amongst indigenous scholars by upsetting the assumptions many have about how best to fight for recognition of their legal and political distinctiveness It will be debated for years to come
