Conquering the Past F. Parkinson, 1989 The history of National Socialism in Austria has not been widely examined It was not until 1981 that an English language history was available on the forgotten Nazis in Austria yet the country was well known to have been a breeding ground of Nazism Editor F Parkinson assembled a group of historians and political scientists to undertake a scholarly inquiry into all ramifications of Nazism in Austria before and after the Anschluss They investigated the activities and attitudes of those in

power as well as those in all other segments of the population whether in Vienna or in the provinces whether organized in political parties or professing certain creeds Contributors outline Austria's political decline during the last half of the nineteenth century Austrian inability to restore the monarchist system during the first republic the slide of conservatives and socialists to National Socialism reactions to National Socialism between 1938 and 1945 and the reconstruction of republicanism since 1945 with its emphasis on political conservatism Solicited to mark the anniversary of the Anschluss the essays in this volume will be of interest to specialists in Austrian history students of the Holocaust and Nazi period and historians of modern Central and Eastern Europe Amazon **Arming the Nation for War** Robert P. Patterson, 2014-05-15

A decorated World War I veteran Federal Judge Robert P. Patterson knew all too well the needs of soldiers on the battlefield. He was thus dismayed by America's lack of military preparedness when a second great war engulfed Europe in 1939-40. With the international crisis worsening, Patterson even resumed military training as a forty-nine year-old private before being named assistant secretary of war in July 1940. That appointment set the stage for Patterson's central role in the country's massive mobilization and supply effort which helped the Allies win World War II. In *Arming the Nation for War*, a previously unpublished account long buried among the late author's papers and originally marked confidential, Patterson describes the vast challenges the United States faced as it had to equip in a desperately short time a fighting force capable of confronting a formidable enemy. Brimming with data and detail, the book also abounds with deep insights into the myriad problems encountered on the domestic mobilization front including the sometimes divergent interests of wartime planners and industrial leaders along with the logistical difficulties of supplying far-flung theaters of war with everything from ships, planes and tanks to food and medicine. Determined to remind his contemporaries of how narrow the Allied margin of victory was and that the war's lessons not be forgotten, Patterson clearly intended the manuscript which he wrote between 1945 and 47 when he was President Truman's secretary of war to contribute to the postwar debates on the future of the military establishment. That passage of the National Security Act of 1947 to which Patterson was a key contributor answered many of his concerns may explain why he never published the book during his lifetime. A unique document offering an insider's view of a watershed historical moment, Patterson's text is complemented by editor Brian Waddell's extensive introduction and notes. In addition, Robert M. Morgenthau, former Manhattan district attorney and a protégé of Patterson's for four years prior to the latter's death in a 1952 plane crash, offers a heartfelt remembrance of a man the *New York Herald Tribune* called an example of the public spirited citizen. **Expatriate Leaders of International Development Projects** Patricia J. McLaughlin, 2021-04-13

Expatriate leadership of USAID projects is complex; this title seeks to unravel those complexities. Expatriate leaders frequently find project success elusive due to a multiplicity of factors from adapting to a developing country's socio-political economic conditions to USAID's policies. This book aims to explain why success is elusive. *Congressional Record* United States Congress, 1999. EU-NATO Relations Simon J. Smith, Carmen Gebhard, Nina Graeger, 2020-04-28 For almost fifteen years both the EU and North Atlantic Treaty Organization NATO have claimed to partake in a relationship that is purported to be a Strategic Partnership albeit one that is troubled by lasting political blockages The constraints that affect the formal relationship between the two organizations are well covered terrain in the academic literature including by most of the contributors to this volume however the popular argument that the EU and NATO simply do not cooperate in any substantive way warrants deeper investigation both theoretically and thematically Thus EU NATO relations might not at first seem like an under researched area but much of the existing literature on the issue re engages oversimplified and formulaic statements about the nature quality and practice of interactions between the EU and NATO This volume aims to develop the EU NATO research agenda by pursuing three key objectives 1 reduce the lacuna of theoretically informed analyses of the relationship 2 add empirically and analytically rigorous case studies to the relevant body of literature and 3 point to possible developments and solutions in the Strategic Partnership The chapters in this book were originally published as a special issue in European Security

Holocaust Memory and National Museums in Britain Emily-Jayne Stiles, 2021-11-16 This book explores the Holocaust exhibition opened within the Imperial War Museum IWM in 2000 setting out the long and often contentious debates surrounding the conception design and finally the opening of an important exhibition within a national museum in Britain It considers a process of memory making through an assessment of Holocaust photographs material culture and survivor testimonies exploring theories of cultural memory as they apply to the national museum context Anchored in time and place the Holocaust exhibition within Britain's national museum of war is influenced by and reflects an international rise in Holocaust consciousness in the 1990s This book considers the construction of Holocaust memory in 1990s Britain providing a foundation for understanding current and future national memory projects Through all aspects of the display the Holocaust is presented as meaningful in terms of what it says about Nazism and what this in turn says about Britishness From the original debates surrounding the inclusion of a Holocaust gallery at the IWM to the acquisition of Holocaust artefacts that could act as concrete evidence of Nazi barbarity and criminality the Holocaust reaffirms an image of Britain that avoids critical self reflection despite raising uncomfortably close questions The various display elements are brought together to consider multiple strands of the Holocaust story as it is told by national museums in Britain
