Mahler's Symphonic World Karol Berger, 2025-01-14 A new analysis of Mahler's symphonies placing each within the context of his musical way of being in and experiencing the world Between 1888 and 1909 Gustav Mahler completed nine symphonies and the orchestral song cycle *Das Lied von der Erde* his tenth symphony was left incomplete at his death in 1911 Mahler's *Symphonic World* provocatively suggests that over his lifetime the composer pursued a single vision and a single ideal symphony that strived to capture his personal outlook on human existence Writing at the turn of the twentieth century when all trust in firm philosophical and spiritual foundations had evaporated Mahler's music reflected a deep preoccupation with human suffering and transience and a search for sources of possible consolation In Karol Berger's reading each of the symphonies follows a similar trajectory with an opening quest leading to the final unveiling of a transcendent consolatory vision By juxtaposing single movements the opening Allegros the middle movements the Finales across different works Berger traces recurring plotlines and imagery and discloses the works multiple interrelationships as well as their cohesiveness around a central idea Ultimately Mahler's *Symphonic World* locates Mahler's music within the matrix of intellectual currents that defined his epoch and offers a revelatory picture of his musical way of being in the world

**The Symphonic Repertoire, Volume IV A.** Peter Brown, 2024-03-29

Central to the repertoire of Western art music since the 18th century the symphony has come to be regarded as one of the ultimate compositional challenges Surprisingly heretofore there has been no truly extensive broad based treatment of the genre and the best of the existing studies are now several decades old In this five volume series A Peter Brown explores the symphony from its 18th century beginnings to the end of the 20th century Synthesizing the enormous scholarly literature Brown presents up to date overviews of the status of research discusses any important former or remaining problems of attribution illuminates the style of specific works and their contexts and samples early writings on their reception The Symphonic Repertoire provides an unmatched compendium of knowledge for the student teacher performer and sophisticated amateur The series is being launched with two volumes on the Viennese symphony Volume IV The Second Golden Age of the Viennese Symphony Brahms Bruckner Dvor k Mahler and Selected Contemporaries Although during the mid 19th century the geographic center of the symphony in the Germanic territories moved west and north from Vienna to Leipzig during the last third of the century it returned to the old Austrian lands with the works of Brahms Bruckner Dvor k and Mahler After nearly a half century in hibernation the sleeping Viennese giant awoke to what some viewed as a reincarnation of Beethoven with the first hearing of Brahms s Symphony No 1 which was premiered at Vienna in December 1876 Even though Bruckner had composed some gigantic symphonies prior to Brahms s first contribution their full impact was not felt until the composer s complete texts became available after World War II Although Dvor k was often viewed as a nationalist composer in his symphonic writing his primary influences were Beethoven Schubert and Brahms For both Bruckner and Mahler the symphony constituted the heart of their output for Brahms and Dvor k it occupied a less central place Yet for all of them the key figure of the past remained Beethoven The symphonies of these four composers together with the works of Goldmark Zemlinsky Schoenberg Berg Smetana Fibich Jan cek and others are treated in Volume IV The Second Golden Age of the Viennese Symphony covering the period from roughly 1860 to 1930

**Soviet Credo: Shostakovich's Fourth Symphony** Pauline Fairclough,2017-07-05 Composed in 1935 36 and intended to be his artistic credo Shostakovich's Fourth Symphony was not performed publicly until 1961 Here Dr Pauline Fairclough tackles head on one of the most significant and least understood of Shostakovich's major works She argues that the Fourth Symphony was radically different from its Soviet contemporaries in terms of its structure dramaturgy tone and even language and therefore challenged the norms of Soviet symphonism at a crucial stage of its development With the backing of prominent musicologists such as Ivan Sollertinsky the composer could realistically have expected the premiere to have taken place and may even have intended the symphony to be a model for a new kind of democratic Soviet symphonism Fairclough meticulously examines the score to inform a discussion of tonal and thematic processes allusion paraphrase and reference to musical types or intonations Such analysis is set deeply in the context of Soviet musical culture during the period 1932 36 involving Shostakovich's contemporaries Shebalin Myaskovsky Kabalevsky and Popov A new method of analysis is also advanced here where a range of Soviet and Western analytical methods are informed by the theoretical work of Shostakovich's contemporaries Viktor Shklovsky Boris Tomashevsky Mikhail Bakhtin and Ivan Sollertinsky together with Theodor Adorno's late study of Mahler In this way the book will significantly increase an understanding of the symphony and its context

**Gustav Mahler** Gustav Mahler,2004 Gustav Mahler and Alma Maria Schindler were married in 1902 The bride was twenty one and a half years old her groom a few months short of forty two Apart from their substantial age difference it seems to have been the very disparity of their intellectual and social backgrounds that drew them together Mahler was attracted to Alma by her beauty her alert mind and emotional intensity Though aware that he possessed by far the broader outlook he trusted in Alma's ability and willingness to learn from him from the Introduction Once the stiffness of unfamiliarity has been softened by a few months of marriage Mahler's style of correspondence with Alma is generally simple direct and astonishingly down to earth In a manner akin to that of his musical style he spikes his language with witticisms and double entendres colloquialisms and quotations from librettos and classical works of literature from the Preface This profusely illustrated collection of Gustav Mahler's letters to his wife Alma is more comprehensive than any previous edition it contains 350 letters 188 of them until now unpublished Since 1995 when the German edition of this book was first published two events have served to expand its horizons the publication in 1997 of the complete text of Alma's early diaries dating from January 1898 to March 1902 and the publication in 2003 of a catalogue of all Mahler letters acquired from the Moldenhauer Archives With the aid of this new material the editors were also able to revise the dates assigned to many of the letters
