of HIV services more than 25 years after the first reported case of AIDS in Guyana HIV AIDS remains the leading cause of death among 25 44 year olds as of 2009 While HIV services have expanded across the country many gaps still exist The 2009 DHS reported almost universal knowledge of AIDS in Guyana and that almost nine in ten women and men knew where to get an HIV test however only 53% of women and 38% of men age 15 49 had ever been tested for HIV Guyana has made significant strides in addressing and monitoring its HIV epidemic Sustaining this momentum as external donor resources contract will be critical in ensuring an adequate response to the public health and socio economic challenges that HIV presents The Government of Guyana GOG is currently finalizing its new national HIV strategy HIVision2020 shaped by a series of consultative reviews with government civil society private sector and target populations such as MSM FCSWs and people living with HIV AIDS PLHIVs HIVision2020 delineates five priority areas for guiding the HIV AIDS program in Guyana in the coming years Coordination Prevention Care Treatment and Support Integration of HIV into Other Services and Strategic Information The aims of HIVision2020 are to fully fund Guyana s HIV response through country ownership and shared responsibility to put knowledge experience lessons learned and innovation forward to make effective program decisions and life saving choices and to invest resources wisely to obtain optimal results for all Guyanese Yearbook of International Organizations 2013-2014 (Volumes 1a-1b) Union Of International Associations, Union of International Associations, 2013-06-21 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events **The Federal Index**, 1979 *National Journal*, 1978-10 Asia Regional Program Operational Plan Report Fy 2013 United States United States Department of State, 2014-11-12 The U S President s Emergency Plan for AIDS Relief PEPFAR Asia Regional Program ARP is a platform for technical assistance TA to national HIV AIDS programs and their partners including other PEPFAR programs throughout Asia with a special focus on the HIV responses in China Laos and Thailand Activities in China are being included in the ARP for the first time in FY 2013 as PEPFAR s work in that country continues to evolve The unrivalled pace of development in parts of Asia is being accompanied by accelerated transmission of HIV AIDS across borders in urbanized areas and among key populations While HIV AIDS programs in the region have made impressive progress these gains have been uneven geographically and epidemiologically and most countries are still far from achieving universal access targets Despite substantial evidence that smart investments in HIV prevention testing care and treatment can prevent the spread of HIV among key populations critical gaps persist These gaps underscore the need to identify and implement innovative life saving approaches and practices while at the same time strengthening and increasing the coverage of effective programs that already exist and building the country capacity needed for sustainable local ownership of the HIV AIDS response The U S Government USG is leading the way toward an AIDS free generation Our work on health in the region has strongly contributed to this positive impact on people around the world In FY 2013 the PEPFAR ARP will continue our efforts to help conquer this disease among vulnerable populations in the region and beyond
