A Cultural History of Western Fashion guides you through the relationships between haute couture and ready-to-wear designer fashions, popular culture, big business, high-tech production as well as traditional and social media. Exploring fashion's interdisciplinary nature, English and Munroe also highlight the parallel evolution of clothing design and the other visual arts over the last 150 years. This new edition includes expanded coverage of the build-up to the First World War and brings this classic text up to date. There is also a new chapter on smart textiles and technology exploring the work of Hussein Chalayan and Iris Van Herpen among others and expanded coverage of the role of sustainability in the contemporary fashion industry including biosynthetic textile production and Stella McCartney's use of vegan leather.
