The Marines,

Counterinsurgency, and Strategic Culture Jeannie L. Johnson, 2018-05-01 The United States Marine Corps has a unique culture that ensures comradery exacting standards and readiness to be the first to every fight Yet even in a group that is known for innovation culture can push leaders to fall back on ingrained preferences Jeannie L Johnson takes a sympathetic but critical look at the Marine Corps s long experience with counterinsurgency warfare Which counterinsurgency lessons have been learned and retained for next time and which have been abandoned to history is a story of battlefield trial and error but also a story of cultural collisions The book begins with a fascinating and penetrating look inside the culture of the Marine Corps through research in primary sources including Marine oral histories and interviews with Marines Johnson explores what makes this branch of the military distinct their identity norms values and perceptual lens She then traces the history of the Marines counterinsurgency experience from the expeditionary missions of the early twentieth century through the Vietnam War and finally to the Iraq War Her findings break new ground in strategic culture by introducing a methodology that was pioneered in the intelligence community to forecast behavior Johnson shows that even a service as self aware and dedicated to innovation as the Marine Corps is constrained in the lessons learned process by its own internal predispositions by the wider US military culture and by national preferences Her findings challenge the conclusions of previous counterinsurgency scholarship that ignores culture This highly readable book reminds us of Sun Tzu s wisdom that to be successful in war it is important to know thyself as well as the enemy This is a must read for anyone interested in the Marines Corps counterinsurgency warfare military innovation or strategic culture

Osiel, 2017-07-05 A soldier obeys illegal orders thinking them lawful When should we excuse his misconduct as based in reasonable error How can courts convincingly convict the soldier s superior officer when after Nuremberg criminal orders are expressed through winks and nods hints and insinuations Can our notions of the soldier s due obedience designed for the Roman legionnaire be brought into closer harmony with current understandings of military conflict in the contemporary world Mark J Osiel answers these questions in light of new learning about atrocity and combat cohesion as well as changes in warfare and the nature of military conflict Sources of atrocity are far more varied than current law assumes and such variations display consistent patterns The law now generally requires that soldiers resolve all doubts about the legality of a superior s order in favor of obedience It excuses compliance with an illegal order unless the illegality as with flagrant atrocities would be immediately obvious to anyone But these criteria are often in conflict and at odds with the law s underlying principles and policies Combat and peace operations now depend more on tactical imagination self discipline and loyalty to immediate comrades than on immediate unreflective adherence to the letter of superiors orders backed by threat of formal punishment The objective of military law is to encourage deliberative judgment This can be done Osiel suggests in ways that enhance the accountability of our military forces in both peace operations and more traditional conflicts while maintaining their effectiveness Osiel seeks to civilianize military law while building on soldiers own internal ideals of professional virtuousness He returns to the ancient ideal of martial honor reinterpreting it in light of new conditions arguing that it should be implemented through realistic training in which legal counsel plays an enlarged role rather than by threat of

legal prosecution Obeying Orders thus offers a compelling answer to the question that has most haunted the moral imagination of the late twentieth century the roots and restraint of mass atrocity in war *Investigation of Attempts to Subvert the United States Armed Services* United States. **SERVICE TECHNICIAN STUDENT HANDBOOK VERSION 4.1 With Block 1 & 2 Student Outlines And Visual Presentations** , Over 2 300 total pages OVERVIEW Tactical Combat Casualty Care TCCC was developed to emphasize the need for continued improvement in combat pre hospital care The Committee on Tactical Combat Casualty Care CoTCCC was established in 2001 and is part of the Defense Health Board CoTCCC is a standing multi service committee charged with monitoring medical developments in regards to practice technology pharmacology and doctrine New concepts in hemorrhage

control airway management fluid resuscitation analgesia antibiotics and other lifesaving techniques are important steps in providing the best possible care for our Marines and Sailors in combat The TCCC guidelines are published every 4 years in the Prehospital Trauma Life Support manual It has been recognized that TCCC guidelines and curriculum will need to change more often than the 4 year cycle of the PHTLS textbook publication The National Association of Emergency Medical Technicians NAEMT will include the updated TCCC guidelines and curriculum on its website as they are approved as a way to help get this new information out to the combat medical personnel in the military that need it

### PRINCIPLES OF TACTICAL COMBAT CASUALTY CARE

TCCC The principles of Tactical Combat Casualty Care are fundamentally different from those of traditional civilian trauma care where most medical providers and medics train These differences are based on both the unique patterns and types of wounds that are suffered in combat and the tactical conditions medical personnel face in combat Unique combat wounds and tactical conditions make it difficult to determine which intervention to perform at what time Besides addressing a casualty's medical condition responding medical personnel must also address the tactical problems faced while providing care in combat A medically correct intervention at the wrong time may lead to further casualties Put another way good medicine may be a bad tactical decision which can get the rescuer and the casualty killed To successfully navigate these issues medical providers must have skills and training oriented to combat trauma care as opposed to civilian trauma care The specifics of casualty care in the tactical setting will depend on the tactical situation the injuries sustained by the casualty the knowledge and skills of the first responder and the medical equipment at hand In contrast to a hospital Emergency Department setting where the patient IS the mission on the battlefield care of casualties sustained is only PART of the mission TCCC recognizes this fact and structures its guidelines to accomplish three primary goals

- 1 Treat the casualty
- 2 Prevent additional casualties
- 3 Complete the mission

In thinking about the management of combat casualties it is helpful to divide care into three distinct phases each with its own characteristics and limitations
