As our awareness of the incidence of forensic patients who also have disabilities increases, this work is a timely placing of the forensic disability patient onto the clinical agenda and has a wide application being of use to clinicians in the private consulting room, the community, the secure setting, and the prison.

Psychiatric Treatment of Victims and Survivors of Sexual Trauma Jamshid A. Marvasti, 2004. Psychological trauma is a multifaceted phenomenon with extensive involvement of biochemical and neurological changes. This book originated on the basis of clinical observations and the authors believe that trauma is the region in which psych and soma meet each other and integrate, becoming a single entity. In this text, the authors attempt to integrate the psychosocial and bio-neuro-endocrine aspects of human experience including trauma. Chapter 1 provides a psychobiological perspective of incest and sexual abuse and considers the stages of and reactions to incest that trauma clients have experienced. Chapter 2 focuses on trauma-related syndromes associated with survivors of sexual abuse. Chapter 3 continues the theme of the second chapter, providing further discussion of the link between sexual trauma and somatic sensations of discomfort and pain. Chapter 4 describes the frustration in treating drug/alcohol addicts and the discovery that these individuals have a history of hidden trauma which haunts them and prevents recovery. Chapter 5 explores the victims' response to trauma and examines the nontraditional treatment models for psychological trauma. Chapter 6 presents psychotherapy practices used with incest survivors and details treatment principles and goals and explains new treatment options. Chapter 7 explores the practice of pharmacotherapy in treating trauma-related disorders and focuses on the use of a variety of psychiatric medications for the treatment of PTSD. Chapter 8 presents creative and rehabilitative practices for treating victimized children and adolescents, pointing to the importance of art therapy in the recovery process of traumatized individuals. Chapter 9 provides an overview of play therapy, cognitive-behavioral therapy for sexually abused children and adolescents. Readers will find in this text a diversity of research topics and a variety of clinical observations that are not only useful but timely.

Helping Abused and Traumatized Children Eliana Gil, 2011-03-11. Presenting an integrative model for treating traumatized children, this book combines play, art, and other expressive therapies with ideas and strategies drawn from cognitive-behavioral and family therapy. Eliana Gil demonstrates how to tailor treatment to the needs of each child by using both directive and nondirective approaches. Throughout, practical clinical examples illustrate ways to target trauma-related symptomatology while also helping children process painful feelings and memories that are difficult to verbalize. The book concludes with four in-depth cases that bring to life the unique situation of each child and family, the decision-making process of the therapist, and the applications of developmentally informed, creative, and flexible interventions.

Play Therapy Treatment Planning and Interventions: The Ecosystemic Model and Workbook 2e provides key information on one of the most rapidly developing and growing areas of therapy. Ecosystemic play therapy is a dynamic integrated therapeutic model for addressing the mental health needs of children and their families. The book is designed to help play therapists develop specific treatment goals and focused treatment plans as now required by many regulating agencies and third party payers. Treatment planning is based on a comprehensive case conceptualization that is developmentally organized, strength based, and grounded in an ecosystemic context of multiple interacting systems. The text presents guidelines for interviewing clients and families, as well as pretreatment assessments and data gathering for ecosystemic case conceptualization. The therapist's theoretical model, expertise, and context are considered. The book includes descriptions of actual play therapy activities organized by social, emotional, developmental levels of the children. Any preparation the therapist may need to complete before the session is identified, as is the outcome the therapist may expect. Each activity description ends with a suggestion about how the therapist might follow up on the content and experience in future sessions. The activity descriptions are practical and geared to the child. Case examples and completed sections of the workbook are provided. It provides the therapist with an easy to use format for recording critical case information, specific treatment goals, and the overall treatment plan. Workbook templates can be downloaded and adapted for the therapist's professional practice. Presents a comprehensive theory of play therapy. Clearly relates the theoretical model to interventions. Provides examples of the application of both the theory and the intervention model to specific cases. Describes actual play therapy activities. Workbook format provides a means of obtaining comprehensive intake and assessment data. Case examples provided throughout.

The Use of the Creative Therapies with Sexual Abuse Survivors Stephanie L. Brooke, 2007. This book is a useful reference for anyone seeking to provide therapy to survivors of sexual abuse. The approach represented here is a holistic one that utilizes various approaches to heal the various manifestations of sexual abuse trauma. Since the acts associated with such abuse are often so difficult to discuss, this book presents several methods of communicating these unspeakable horrors nonverbally, allowing the survivor to express their trauma with less difficulty. This approach seeks to use the actions of the body to heal the mind. This text contains information relevant to treatment for children, adolescents, and adults, as well as male or female, and in group or individual settings. Many useful activities are outlined, and illustrations are provided as examples.
