communities examining how authoritarian traditions can exacerbate the divide between expert and public knowledge Moreover it analyses how localized acts of archaeology relate to changing conceptions of risk heritage culture identity and conflict Bringing insights from Alain Schnapp Michael Shanks Isabelle Stengers Bruno Latour Ulrich Beck John Urry and others to cross disciplinary discussions of these themes *Unquiet Past* shows how archaeological discourse can contribute towards engaging and understanding current dilemmas It also shows how archaeology as a localized and responsibly exercised practice can play a part in building our commonly shared and experienced world

Writing about Archaeology
 Graham Connah, 2010-03-08 In this book Graham Connah offers an overview of archaeological authorship its diversity its challenges and its methodology Based on his own experiences he presents his personal views about the task of writing about archaeology The book is not intended to be a technical manual Instead Connah aims to encourage archaeologists who write about their subject to think about the process of writing He writes with the beginning author in mind but the book will be of interest to all archaeologists who plan to publish their work Connah's overall premise is that those who write about archaeology need to be less concerned with content and more concerned with how they present it It is not enough to be a good archaeologist One must also become a good writer and be able to communicate effectively Archaeology he argues is above all a literary discipline

Mathematics and Archaeology Juan A. Barcelo, Igor Bogdanovic, 2015-06-08 Although many archaeologists have a good understanding of the basics in computer science statistics geostatistics modeling and data mining more literature is needed about the advanced analysis in these areas This book aids archaeologists in learning more advanced tools and methods while also helping mathematicians statisticians and computer

Archaeology in the Making
 William L Rathje, Michael Shanks, Christopher Witmore, 2013-01-03 *Archaeology in the Making* is a collection of bold statements about archaeology its history how it works and why it is more important than ever This book comprises conversations about archaeology among some of its notable contemporary figures They delve deeply into the questions that have come to fascinate archaeologists over the last forty years or so those that concern major events in human history such as the origins of agriculture and the state and questions about the way archaeologists go about their work Many of the conversations highlight quite intensely held personal insight into what motivates us to pursue archaeology some may even be termed outrageous in the light they shed on the way archaeological institutions operate excavation teams professional associations university departments *Archaeology in the Making* is a unique document detailing the history of archaeology in second half of the 20th century to the present day through the words of some of its key proponents It will be invaluable for anybody who wants to understand the theory and practice of this ever developing discipline

The Oxford Companion to Archaeology Neil Asher Silberman, 2012-11 The second edition of *The Oxford Companion to Archaeology* is a thoroughly up to date resource with new entries exploring the many advances in the field since the first edition published in 1996 In 700 entries the second edition provides thorough coverage to historical archaeology the development of archaeology as a field of

study and the way the discipline works to explain the past In addition to these theoretical entries other entries describe the major excavations discoveries and innovations from the discovery of the cave paintings at Lascaux to the deciphering of Egyptian hieroglyphics and the use of luminescence dating Recent developments in methods and analytical techniques which have revolutionized the ways excavations are performed are also covered as well as new areas within archeology such as cultural tourism and major new sites which have expanded our understanding of prehistory and human developments through time In addition to significant expansion first edition entries have been thoroughly revised and updated to reflect the progress that has been made in the last decade and a half

Social Complexity and Complex Systems in Archaeology Dries Daems, 2021-02-22 Social Complexity and Complex Systems in Archaeology turns to complex systems thinking in search of a suitable framework to explore social complexity in Archaeology Social complexity in archaeology is commonly related to properties of complex societies such as states as opposed to so called simple societies such as tribes or chiefdoms These conceptualisations of complexity are ultimately rooted in Eurocentric perspectives with problematic implications for the field of archaeology This book provides an in depth conceptualisation of social complexity as the core concept in archaeological and interdisciplinary studies of the past integrating approaches from complex systems thinking archaeological theory social practice theory and sustainability and resilience science The book covers a long term perspective of social change and stability tracing the full cycle of complexity trajectories from emergence and development to collapse regeneration and transformation of communities and societies It offers a broad vision on social complexity as a core concept for the present and future development of archaeology This book is intended to be a valuable resource for students and scholars in the field of archaeology and related disciplines such as history anthropology sociology as well as the natural sciences studying human environment interactions in the past

Dam Projects and the Growth of American Archaeology Kimball M Banks, Jon S Czaplicki, 2014-04-30 This book examines the profound impacts of the Smithsonian Institution's River Basin Surveys and the Interagency Archeological Salvage Program 1945-1969 on the development of American archaeology

Archaeology and Economic Development Paul Burtenshaw, 2017-12-02 Nowhere in archaeology is the gap between theory and practice more evident than in its ambivalent engagement with economic development This groundbreaking volume assembles practicing archaeologists economists and NGO officials in an extensive exploration of the theoretical practical and ethical issues raised by archaeologists use of cultural heritage to support economic development The first chapters consider the problem of articulating the value of tangible and intangible heritage when economic measures alone are inadequate Subsequent chapters present regional perspectives on archaeology and development and present a host of case studies from around the globe that describe archaeologists development projects including some that are successful and others that are less so These studies both suggest best practices in the implementation of development projects and illuminate the obstacles to success created by political conflict and competing human needs Ethical issues and practical considerations converge in chapters

that explore the role that members of local communities should play in the design management and governance of archaeological and heritage resources In this volume archaeologists and heritage professionals will encounter a thought provoking international discourse concerning the path forward for archaeology as the field engages with economic development

Technology as Human Social Tradition Peter David Jordan, 2014-11-24 *Technology as Human Social Tradition* outlines a novel approach to studying variability and cumulative change in human technology prominent research themes in both archaeology and anthropology Peter Jordan argues that human material culture is best understood as an expression of social tradition In this approach each artifact stands as an output of a distinctive operational sequence with specific choices made at each stage in its production Jordan also explores different material culture traditions that are propagated through social learning factors that promote coherent lineages of tradition to form and the extent to which these cultural lineages exhibit congruence with one another and with language history Drawing on the application of cultural transmission theory to empirical research Jordan develops a descent with modification perspective on the technology of Northern Hemisphere hunter gatherers Case studies from indigenous societies in Northwest Siberia the Pacific Northwest Coast and Northern California provide cross cultural insights related to the evolution of material culture traditions at different social and spatial scales This book promises new ways of exploring some of the primary factors that generate human cultural diversity in the deep past and through to the present

Making Senses of the Past Jo Day, 2013-03-19 Since the nineteenth century museums have kept their artifacts in glass cases to better preserve them and drawings and photographs have become standard ways of presenting the past These practices have led to an archaeology dominated by visual description even though human interaction with the surrounding world involves the whole body and all of its senses In the past few years sensory archaeology has become more prominent and *Making Senses of the Past* is one of the first collected volumes on this subject This book presents cutting edge research on new theoretical issues The essays presented here take readers on a multisensory journey around the world and across time In ancient Peru a site provides sensory surprises as voices resound beneath the ground and hidden carvings slowly reveal their secrets In Canada and New Zealand the flicker of reflected light from a lake dances on the faces of painted rocks and may have influenced when and why the pigment was applied In Mesopotamia vessels for foodstuffs build a picture of a past cuisine that encompasses taste and social activity in the building of communities While perfume and flowers are examined in various cultures in the chamber tombs of ancient Roman Palestine we are reminded that not all smells are pleasant *Making Senses of the Past* explores alternative ways to perceive past societies and offers a new way of wiring archaeology that incorporates the senses
