From Lightnings to MiGs Russ Peart, 2021-10-13 A Royal Air Force pilot chronicles his career flying during the Cold War in this memoir featuring previously unseen photographs It was supposed to be just a training flight The two Soviet manufactured MiG 21s each with two practice bombs and four air to ground rockets were lined up on the runway in Bangladesh at the height of the Cold War when air traffic control suddenly reported an incursion by Indian Air Force Jaguars Though ill equipped for combat the two MiGs were scrambled One of the MiGs pilots was an RAF officer Squadron Leader Russell Peart On a seven month loan to the Bangladeshi Air Force Peart suddenly found himself at the centre of the simmering hostility between two neighbouring nations By the time they reached the area that had been threatened by the Indian pilots the Jaguars had gone Later when Squadron Leader Russell Peart spoke of the incident to the British High Commissioner he was told not to shoot down any Jaguars as the Indians had still not paid for them Russell Peart flew many other aircraft in his varied career including the MiG 19 and while a test pilot at Boscombe Down trialled such designs as the Tornado GR1 But it was whilst he was seconded to the Sultan of Oman s Air Force particularly during the so called Secret

War in Dhofar that he saw the most action In that theatre the author flew some 200 operational sorties 180 of which involved live fire during which he was hit many times He was also hit and wounded by a 75mm shell Russ Peart has written in detail of his exciting RAF career from flying Lightnings in the Far East to winning the top prize in the International Tactical Bombing Competition against a handpicked team of United States Air Force fighter pilots and being awarded the Sultan of Oman s Distinguished Service Medal Supplemented by a selection of previously unseen photographs this uniquely original memoir throws new light on the operational flying undertaken by some RAF pilots during the tense years of the Cold War Praise for From Lightnings to MiGs Absorbing and highly entertaining I have no hesitation in recommending From Lightnings to MiGs as an engrossing and enjoyable read for anyone with an interest in military aviation RAF Historical Society There s some pretty jaw dropping stuff in here Rowland White author of Vulcan 607

On The American Family, Volume III, Book II, 1960 To 1980 Lionel D. Lyles, 2024-04-08 For 10 000 years before any European immigrants arrived on the North American Continent Native American Indians engaged in a communal lifestyle From 1600 to 1791 American Colonists established a thriving home production economy and having ownership of their tools or means of production they produced everything they needed to survive They were self reliant and the American Colonists sold their excess goods to merchants who resold them for a profit By 1791 the merchants were able to start the first textile factories as a result which brought an abrupt end to the home production economy and the beginning of American Capitalism Former independent colonists were now forced into the textile factory and the first wage contract appeared in America The wage contract also set in motion a contradiction between the capitalist owners of the means of production and the new American Working Class The wage contract allowed the owners of working class labor and the instruments of production to evolve into an American Ruling Class and the producers of all commodities and wealth became the American Working Class People wage workers class Because of their divergent interests the two classes formed a class contradiction and the latter became known as the capitalist American Ruling Class Opposite and the American Working Class Opposite People wage workers This development occurred mainly in the northern factory economy while in the South uncompensated African Slave Labor was dominant which was owned by an American Slaveholding Class By 1860 the contradiction between the capitalist American Ruling Class Opposite owner of the wage labor system came into a head on contradiction with uncompensated African Slave Labor and a bloody Civil War was fought to determine which type of means of production would prevail and dominate during the 20th Century The South was defeated and the wage contract system became nationalized Therefore throughout the twentieth Century including the beginning of the new Millennium the capitalist American Ruling Class Opposite expropriated the labor s product of the American Working Class Opposite People wage workers which resulted in this class accumulation of multiple billions of dollars of Surplus Value and simultaneously this loss translated into the
