Habitats

Mountains

Mountains are a part of the Appalachian Mountain range in north Georgia. The tallest mountain in Georgia is Mount Brainerd. The Blue Ridge Mountains are named for the blue haze that appears over the mountains. The mountains are covered in a soft blue haze. This is because the air at the higher elevations is cooler. The mountains have less rocks and richer soil. People, and pine. Living in these forests are deer, foxes, raccoons, opossums, bears, and woodpeckers. The mountains have a lot of water. They get more than 80 inches of rain each year. Rivers, gorges, and waterfalls. Fresh water. Alligators, frogs, beavers, muskrats. The weather is colder and higher.

Piedmont

The Piedmont region has low rolling hills. Piedmont means "foot of the mountain." Forests, lakes, and rivers spread out on sloping hills from the mountains to the coastal area. It is located between the coastal plains and the mountains in the northern half of Georgia. The Piedmont has many of the same features as the mountain region. The biggest difference between the Piedmont region and the mountain region is that the Piedmont has warmer temperatures. The soil in the Piedmont contains red clay. The soil is not as high as the mountains. The soil in the Piedmont contains red clay. This area has many lakes and slow-moving rivers and waterfalls. The Piedmont is home to white-tailed deer, squirrels, raccoons, opossums, beavers, river otters, and birds. The Piedmont is the most populated region in Georgia. The most people live in the Piedmont. Many wild animals are found where people live because their habitats and homes are being cut down.

White-Tailed Deer

Squirrel

Gray Squirrel

Introduction: What is a habitat?

A habitat is the living environment of a plant or animal. A habitat provides food, water, shelter, and place to raise their young. Plants and animals living in an environment are able to adapt and change in their habitat over time. Georgia has five areas where certain plants and animals have adapted to live. These habitat regions are mountains, piedmont, coastal plains, marsh/swamp, and ocean. Many plants and animals can be found in these regions.
