Hallmark A Century Of Caring:

Hallmark Patrick Regan,2009-12-15 100 years that crafted an iconic American company A century ago the Halls were a poverty stricken family trying to make their way in a small Nebraska town Today they are a golden example of a family that has created a groundbreaking company Hallmark A Century of Caring is the inspirational story of an American dream brought to life through hard work strong values and a genuine care for both employees and customers Beginning with a heartfelt introduction from famed poet Maya Angelou the reader is taken on a journey that follows the Hall family from Norfolk Nebraska to Kansas City Missouri the eventual home of Hallmark Through boom times war times and the Great Depression the company grew and flourished always with the belief that its products and services must enrich people s lives One hundred years after Joyce Hall first stepped off of the train in Kansas City Hallmark is poised and ready for the future This book is an enduring salute to the company and a historic journal of a truly iconic American company **Collaboration**

and Co-creation Gaurav Bhalla,2010-11-02 Today s consumers are more knowledgeable networked and vocal For them consumption is not merely an act of buying products and services but an expression of their creative potential Consequently they are demanding a say and a voice in how companies conceive develop and deliver value to them It is not surprising therefore to hear that a large number of companies are transforming how they innovate not only in terms of developing new products and services but in how they are created delivered and supported to customers Open Innovation thinking where companies collaborate with suppliers distributors and customers to co create unique value is fast replacing traditional thinking that viewed innovation as a proprietary activity and marketing as a static one way broadcast However while there is significant advocacy and buy in for collaborating with customers there is little guidance for companies on how to undertake the journey from applause and appreciation to execution Only reading about others success stories Nike Hallmark P G Mozilla etc is not sufficient for helping a company develop a blueprint for themselves In Customer Driven Innovation strategy and branding consultant Gaurav Bhalla presents a concrete framework to help companies systematically and effectively design and implement collaborative innovation programs with their customers that can be applied in both business to business and business to consumer contexts The authors describe how today s technologies allow companies to create dynamic dialogues with their customers through shared networks virtual marketing techniques and blogs to develop deeper relationships that reinforce brand loyalty and ultimately drive growth They challenge traditional approaches to market research that measure customer satisfaction from a rear window perspective and help companies and their customers look forward instead P Skywalks R.
