The Classroom Teacher's Guide to Special Education Dena

D. Slanda, Lindsey Pike, Mary E. Little, 2025-04-01 The Classroom Teacher's Guide to Special Education explores the transformative role the classroom teacher plays in the lives of their students including the lives of students with disabilities. This book leads pre-service and in-service teachers on a journey of discovery introducing foundational practices that are not just beneficial but essential for every student. This book serves as a core resource for learning about and understanding key components of special education from the classroom teacher's role and perspective. More than a guide to special education in the general education setting, this book empowers teachers to embrace inclusive perspectives by building the knowledge, skills, and confidence to meet the diverse learning needs of all the students. **Establishing Pathways to Inclusion**

Richard Rose, Michael Shevlin, 2021-02-15 Providing a robust understanding of what really works for educators and pupils alike, this book shows how inclusive practices function effectively in schools. Rose and Shevlin identify key factors which can influence successful inclusive practice and examine how schools can establish and implement an agenda for change. Using a framework for analysing and understanding how students become effective social learners, this book guides readers through sections on context, observed experiences, and the factors for success they highlight, covering topics such as the respective attitudes of students, caregivers, and teachers; insights from support staff and school leaders; the social and academic outcomes for pupils with special educational needs; lessons learned from inclusive practices; ideal for researchers, lecturers, and advanced students in the field of inclusive education. **Establishing Pathways to Inclusion** is an important contribution from leading researchers in this vital field of study. Peers As Change Agents Tai A. Collins, Renee Oliver Hawkins, 2021

Peers as Change Agents demonstrates the effectiveness of Peer-Mediated Interventions (PMIs) and provides practical guidelines for the implementation of PMIs in schools. **Experiments in Agency** Supriya Baily, Farnoosh Shahrokhi, Tami Carsillo, 2017-04-13 This book is about teacher agency and leadership, but it is also an experiment in shifting the balance of power in research and writing. It is about making accessible the process of academic publishing in a way that capitalizes on the knowledge of people in diverse contexts and with novice eyes and is an experiment in sharing academic writing between master teachers and doctoral students. It is also a book on the power of action research and the belief we have as teacher-educators about the transformative power of teachers in their own classrooms. Pairing master teachers from ten countries who were part of the Teaching Excellence and Achievement Program with graduate students, this book provides a framework to decolonize research practices in an effort to re-envision research methodologies on a global scale. The book also provides a tangible way to see how research processes support local transformation and direct engagement of those at the margins to play a greater role in the production of scholarly knowledge. The cross-national scope of this book, with authors working in classrooms in countries as diverse as Turkey, Chile, and Bangladesh, coupled with the work of novice US-based scholars to engage in the conceptualizing, researching, data analysis, and writing of chapters, speaks to the importance of new voices in the field of research. Additionally, the combination of teacher research projects in the classroom juxtaposed with chapters that speak to

the process of teacher research in a global context provides both theoretical and empirical foundations for teacher research
