the context of her own times The Living Philosophy of Edith Stein unearths Stein s valuable contributions to numerous subjects that are still of great importance today including not only the philosophies of mind and religion but also social and political thought and the role of women in society By examining the richness of her thinking informed by three disciplines and the tumultuous first half of the twentieth century Tyler shows us how Edith Stein is the guide we all need as we seek to develop our own philosophy for life in the contemporary world **The Lollard Bible and Other Medieval Biblical**
