Losing It Urban S:

Losing Istanbul Mostafa Minawi, 2022-12-06 *Losing Istanbul* offers an intimate history of empire following the rise and fall of a generation of Arab Ottoman imperialists living in Istanbul. Mostafa Minawi shows how these men and women negotiated their loyalties and guarded their privileges through a microhistorical study of the changing social, political, and cultural currents between 1878 and the First World War. He narrates lives lived in these turbulent times, the joys and fears, triumphs and losses, pride and prejudices, while focusing on the complex dynamics of ethnicity and race in an increasingly Turco-centric imperial capital. Drawing on archival records, newspaper articles, travelogues, personal letters, diaries, photos, and interviews, Minawi shows how the loyalties of these imperialists were questioned and their ethnic identification weaponized. As the once diverse empire comes to an end, they are forced to give up their home in the imperial capital. An alternative history of the last four decades of the Ottoman Empire, *Losing Istanbul* frames global pivotal events through the experiences of Arab Ottoman imperial loyalists who called Istanbul home on the eve of a vanishing imperial world order. **Regional**

Repair is an act, metaphor, and foundation for opening up a dialogue about design's role in proposing radically different social, environmental, and economic futures. Thematically expansive and richly illustrated with over 125 visuals, this volume features an international interdisciplinary group of contributors from across the design spectrum whose voices and artwork speak to how we might address our broken social and physical worlds. Organized around reparative thinking and practices, the book includes 30 long and short chapters, photo essays, and interviews that focus on multiple responses to fractured systems, relationships, cities, architecture, objects, and more. *Repair* will encourage students, academics, researchers, and practitioners in art, design, and architecture practice and theory, cultural studies, environment, and sustainability to discuss, engage, and rethink the act of repair and its impact on our society and environment. **Advances in Architecture, Engineering and**
