Love Bondage Or Liberation United Kingdom Council For Psychotherapy Series:

Love: Bondage or Liberation? Deirdre Johnson, 2018-03-26 Much has been written about the function of falling in love in the course of therapy itself This book has a much broader aim The author a Jungian analyst and psychotherapy trainer uses her teaching and clinical experience to illuminate the whole range of this near universal human experience How and why does falling in love affect us so profoundly How can it enhance who we are or must it ultimately fade without lasting value The author argues that the many valuable studies by psychoanalysts relational psychologists anthropologists neuroscientists and philosophers have all made valuable contributions and uses these to highlight and explore the many values and dangers inherent in passionate love However she claims that a more holistic approach is required to show how these various accounts can be seen as complementary rather than competing and can be accommodated within an overarching view of the integration of the human being in its heights and depths

Psychotherapy 2.0 Philippa Weitz, 2018-05-11 The digital age is both exciting and challenging for psychotherapy opening the door to clients groups previously not able to access psychological help whilst also providing the challenges caused by social media and internet abuse and how these impact on the consulting room Psychotherapy 2 0 blows open the consulting room doors and shows successful pathways for attracting new clients to gain access to psychological help as well as demonstrating that despite initial scepticism working online as a psychotherapist or counsellor can be as effective as face2face work the therapeutic relationship may be different but it remains the centrally important feature for successful psychotherapy It follows therefore that all psychotherapists and counsellors need to be fully informed about the impact of the digital age on their clinical practice Psychotherapy 2 0 covers the key issues for psychotherapists and counsellors who are or are thinking of working online include thinking about psychotherapy in the digital age the requirements to modify training both for working online and also the digital issues as they arise within the face2face consulting room

The Psyche in the Modern World Tom Warnecke, 2018-05-11 The Psyche in the Modern World sets out to open consulting room doors and bring the concept of the Psyche and its main advocate the psychotherapy discipline into public space and into the realm of interdisciplinary discourse A culture of carefully guarded clinical confidentiality inadvertently turned the consulting room into a proverbial ivory tower which has done much to obscure the psychotherapeutic body of knowledge and contributed to the myths and misinformation that surround and veil psychotherapy in the public space This book redresses the balance and confronts some challenging and sometimes uncomfortable questions about the dichotomies that both characterize our relationships with the Psyche and contextualize the provision of psychotherapy services today The contributors present contemporary discussion on a broad range of current subjects encompassing socio political as well as philosophical theoretical and clinical dimensions in an accessible manner

Managing Difficult Endings in Psychotherapy Lesley Murdin, 2018-05-11 This book is about the difficulty of endings but it is also about learning from the endings that we know have gone wrong as well as those that have

worked well It sets out how the psychological therapist can help a person to live well while life is available and to face the endings that confront all of us with honesty and the acceptance of our human fragility Therapists suffer through the fears and failures of the people they see as well as through their own endings These difficulties can either help each one to be more understanding and helpful or can lead to disaster This book is about making sure that we use experience as well as theory constructively Love: Bondage Or Liberation? Deirdre Johnson,2010 Family psychology **LOVE BONDAGE OR LIBERATION** DEIRDRE JOHNSON,2019-06-14 *Cradling the Chrysalis* Mary MacCallum Sullivan,Harriett Goldenberg,2018-05-16 This book addresses the ethical and philosophical basis for the teaching learning involved in becoming a psychotherapist How can training prepare prospective psychotherapists counsellors and counselling psychologists for a task whose practitioners cannot even agree as to whether it is an art or a science an impersonal clinical interaction or a profoundly humane even spiritual encounter The authors believe they share with their students a passion about the possibilities inherent in this particular kind of conversation Such a meeting demands a fully personal engagement and a profoundly ethical attitude towards the relationship with the Other it is also potentially an important beginning in repairing the world The book explores the relative importance and emphasis of the structure content and process of psychotherapy training Its thesis is that the teaching learning takes place in the quality of the reciprocal meeting between the teacher and the learner The New York Times Index ,1972 **Love** ,2010 Much has been written about the function of falling in love in the course of therapy itself This book has a much broader aim Deirdre Johnson a Jungian analyst and psychotherapy trainer uses her teaching and clinical experience to illuminate the whole range of this near universal human experience How and why does falling in love affect us so profoundly How can it enhance who we are or must it ultimately fade without lasting value Johnson argues that the many valuable studies by psychoanalysts relational psychologists anthropologists neuroscientists and philosophers have all made valuable contributions and uses these to highlight and explore the many values and dangers inherent in passionate love However she claims that a more holistic approach is required to show how these various accounts can be seen as complementary rather than competing and can be accommodated within an overarching view of the integration of the human being in its heights and depths Deirdre Johnson s interdisciplinary approach cuts across the different modalities and will appeal to a good cross section of psychotherapists and counsellors while being accessible to anyone interested in the meaning of falling in love
