Blush of the Rainbow: A Selection of 100 Love Poems Mojibur Rahman,2005-05-31 Life is full of tears and smiles Our delights are shortlived whereas our tears leave a mark on our cheeks These poems paint colourful pictures of our innermost emotions such as love and hate Love that sparks with a smile and hate that howls into tears Simple words have been used to

paint a picture of the story behind poems where metaphors and similes play crucial roles to sharpen the image The colours in the story are embedded in the form of conflicts and contrasts in the poems Endings are at times sad and leave a mark on our memory whereas some poems end with the happiest colours of the emotions In Blush of the Rainbow I present a kaleidoscopic view of life and love Love is all we think about all we do and all we know Love is much more than we can show

Distortion and Love Nigel Rapport, 2016-07-07 In this ground breaking book a theory of distortion of the way in which the processes of human life are subject to interference diversion and transformation is developed by way of the art of one of Britain's greatest twentieth century painters and that art's public reception. Devoted to his native village of Cookham on Thames Stanley Spencer painted not only landscapes and portraits with loving detail but also the memory feelings which he felt were a sacred part of his consciousness. Yet Spencer was also a controversial public figure with some taking the view that his visionary paintings were ugly distortions of human life even marks of an immoral nature. Examining how Spencer lived his vision how he painted it and wrote it and also how his attempts to communicate that vision were received by his contemporaries and have continued to be interpreted since his death the author posits distortion as key an intrinsic aspect both of human creation and of human interaction. What we intend to make to say to do and have done often mutates in the process of being expressed or put into effect we live amid distortion. Love the affective appreciation of one another is then a means by which we accommodate distortion and its consequences in our lives. An illustration through Stanley Spencer's story of significant aspects of a human condition this book will appeal across disciplines including to art historians and students of
