Robert L. Bowen, 2017-03-20 Journalists possess critical responsibilities one is simply to inform another is to explain As a military photojournalist during the Vietnam Era Bob Bowen has captured visually with his camera and explained eloquently with his written words the horrors and the honorable service of that period In his new book *My Life and Lens* Bowen articulates not only high action combat but the artful subtleties and tactics of warfare He writes so well that the reader is pulled into the stories as if there in person It is one thing to provide

facts to America's cumulative history it's another to display the facts through personal experiences. One will learn through reading this memoir that the life of a journalist in a war zone could be short-lived. It is dangerous work but when successful the work informs. This is what makes Bowen's book such a compelling read. This memoir is an excellent pictorial and literary contribution not only to our nation's history but in the recognition of those who honorably participated in that unpopular conflict. Respect is demonstrated to the families of the brave American heroes of this long ago era by Bob Bowen's memorializing them in his book. I predict this is a great book by Bob Bowen who is writing about his own life during the Vietnam War. Bob is an expert photographer and was a war correspondent and a fine writer. This job was dangerous. This book could really take off and be a great success. I recommend it to anyone interested in the Vietnam War. The war was a harrowing experience for the men involved and they have never been given proper credit for their bravery. Don Gilmore author Eyewitness Vietnam. The images you captured of our Marines in Vietnam are unequalled. Your book will be a smash hit. Franklin Cox author Lullabies for Lieutenants. My friend Bob Bowen has been a member of The American Legion for more than four decades during which time he has been totally devoted to our country, our veterans and their families. This memoir details his insights not only into war and coming home but also into the people who are Americans. His life is proof that when most veterans take off their uniforms they don't quit their service to the nation. My Life and Lens is the inspiring story of how one Marine is still serving America. Daniel S. Wheeler National Adjutant The American Legion. Bracketing the Enemy John R. Walker, 2013-08-08. After the end of World War II General George Patton declared that artillery had won the war. Yet howitzers did not achieve victory on their own. Crucial to the success of these big guns were forward observers, artillerymen on the front lines who directed the artillery fire. Until now the vital role of forward observers in ground combat has received little scholarly attention. In Bracketing the Enemy John R. Walker remedies this oversight by offering the first full-length history of forward observer teams during World War II. As early as the U.S. Civil War artillery fire could reach as far as two miles but without an FO forward observer to report where the first shot had landed in relation to the target and to direct subsequent fire by outlining or bracketing the targeted range many of the advantages of longer range fire were wasted. During World War II FOs accompanied infantrymen on the front lines. Now for the first time gun crews could bring deadly accurate fire on enemy positions immediately as advancing riflemen encountered these enemy strongpoints. According to Walker this transition from direct to indirect fire was one of the most important innovations to have occurred in ground combat in centuries. Using the 37th Division in the Pacific Theater and the 87th in Europe as case studies Walker presents a vivid picture of the dangers involved in FO duty and shows how vitally important forward

observers were to the success of ground operations in a variety of scenarios FO personnel not only performed a vital support function as artillerymen but often transcended their combat role by fighting as infantrymen sometimes even leading soldiers into battle And yet although forward observers lived fought and bled with the infantry they were ineligible to wear the Combat Infantryman's Badge awarded to the riflemen they supported Forward observers are thus among the unsung heroes of World War II Bracketing the Enemy signals a long overdue recognition of their distinguished service Whatever Cause We Have Dan Moore,2024-01-09 Dan Moore joined the Marines to serve in Vietnam and contribute to the anticipated American victory over communism After completing officer training and artillery school he deployed as a forward observer with an infantry company His letters home described day to day events and revealed a growing skepticism about the war During the Battle of Hue City Moore lost his assistant forward observer soon followed by another close friend Fighting to maintain equilibrium he suppressed his critical views of the war even after returning home to oversee Marine recruit training His memoir unpacks his letters his recollections of the war and 50 years of introspection **Duck Your Head and Keep On Going: A Marine Lieutenant's Passage Through Vietnam** John R.
