Jean-Paul Barbier

L'univers Des Formes/leurope Des Invasions:

Univers des formes (I'); l'Europe des invasions A. Malraux, 1963 **A Heritage of Holy Wood: The Legend of the True Cross in Text and Image** Barbara Baert, 2004-07-01 In the fourth century the idea arose that the Cross on which Christ was crucified had been found by Helena mother of Emperor Constantine Thus began a legend that would grow and flourish throughout the Middle Ages and cause the diffusion of countless splinters of holy wood And where there is wood there was once a tree Could it be that the Cross was made from that most noble species the Tree of Life So gathering characters along the way the legend evolved into a tale that stretches from the Creation to the End of Time A Heritage of Holy Wood is the first reconstruction of the iconographic and literary tradition of the Legend of the True Cross Its broad scope encompasses relic cults pilgrimages travellers tales and the Tree of Life and involves Church Fathers crusader kings Teutonic Knights and mendicant orders all of which influenced the legend's depiction from its earliest representation in manuscripts reliquaries and altarpieces to the great monumental cycles of the high Middle Ages If the holy wood was the medium of medieval memory A Heritage of Holy Wood reveals the growth rings of fifteen centuries of imagery *Women in Frankish Society* Suzanne Fonay Wemple, 2015-12-16 Women in Frankish Society is a careful and thorough study of women and their roles in the Merovingian and Carolingian periods of the Middle Ages During the 5th through 9th centuries Frankish society transformed from a relatively primitive tribal structure to a more complex hierarchical organization Suzanne Fonay Wemple sets out to understand the forces at work in expanding and limiting women's sphere of activity and influence during this time Her goal is to explain the gap between the ideals and laws on one hand and the social reality on the other What effect did the administrative structures and social stratification in Merovingian society have on equality between the sexes Did the emergence of the nuclear family and enforcement of monogamy in the Carolingian era enhance or erode the power and status of women Wemple examines a wealth of primary sources such as deeds testaments formulae genealogy ecclesiastical and secular court records letters treatises and poems in order to reveal the enduring German Roman and Christian cultural legacies in the Carolingian Empire She attends to women in secular life and matters of law economy marriage and inheritance as well as chronicling the changes to women's experiences in religious life from the waning influence of women in the Frankish church to the rise of female asceticism and monasticism **God and Gold in Late Antiquity** Dominic Janes, 1998-02-19 From the conversion of the emperor Constantine in the early fourth century vast sums of money were spent on the building and sumptuous decoration of churches The resulting works of art contain many of the greatest monuments of late antique and early medieval society But how did such expenditure fit with Christ's message of poverty and simplicity In attempting to answer that question this 1998 study employs theories on the use of metaphor to show how physical beauty could stand for spiritual excellence As well as explaining the evolving attitudes to sanctity decorum and display in Roman and medieval society detailed analysis is made of case studies of Latin biblical exegesis and gold ground mosaics so as to

counterpoint the contemporary use of gold as a Christian image in art and text

Civilisations disparues Jean-Paul Barbier, 2000-01-01 T00:00:00+01:00 L'humanité tous les carrefours de son cheminement se est vue confrontée des défis incessants qu'elle a relevés sous toutes les latitudes et sur tous les continents L'édification de Babylone les pyramides égyptiennes Rome ou les statues de l'Inde de Péques sont de ces défis synthétisés ici par le fondateur du musée Barbier Mueller de Genève Copyright Electre

Les sociétés en Europe Dominique Alibert, Catherine de Firmas, 2002-11-01 Le premier Moyen âge n'a pas toujours bonne réputation Si siècles violents siècles barbares ou siècles de fer ces temps cartels entre la puissance de l'Empire romain et le rayonnement du Moyen âge central apparaissent traditionnellement comme des moments de rupture avec une Antiquité plus sereine dont ils sont néanmoins bien des gardes l'aboutissement S'appuyant sur une documentation large archéologique et textuelle les auteurs ont tenté de mesurer l'évolution de l'Occident durant ces quatre siècles qui hantent la fois de Rome et des mondes germaniques Esquissent alors les fondements de la société médiévale et les prémices d'une identité chrétienne l'Europe qui prend conscience d'elle-même se pense désormais comme créatrice de sa propre culture et de sa propre histoire

Actas del VIII Congreso Internacional de Arqueología Cristiana, Barcelona, 5-11 octubre 1969: Texto, 1972

Les sociétés en Europe du milieu du VIe à la fin du IXe siècle Michèle Gaillard, Anne Wagner, 2002

Le péché dit originel Gérard-Henry Baudry, 2000 De nos jours les pasteurs comme les théologiens ne savent plus très bien comment présenter la doctrine correspondant l'appellation classique de péché originel et dérivant des perspectives augustinienne Les tentatives de formulations nouvelles suscitées par l'ouverture prônée par Vatican II n'ont pas encore apporté la solution espérée Quant aux autorités romaines elles se cantonnent prudemment sur les positions classiques Cet ouvrage vise reposer le problème sans donner de solution toute faite mais en ayant recours l'histoire

des idées. Il était nécessaire de reprendre le dossier de la liturgie non seulement à partir du message de Jésus et de sa compréhension par les disciples mais aussi à la lumière de l'Ancien Testament et dans l'environnement culturel des anciennes civilisations. Il fallait aussi prendre en compte les positions diverses des chrétiens des premiers siècles. On s'aperçoit alors qu'il n'y a pas de consensus sur une doctrine commune. Même constatation proposée par Vatican II. Le volume présente et laisse entrevoir plusieurs pistes d'interprétation. Il met en lumière les tentatives anciennes d'inculturation et permet de prendre le recul nécessaire et préalable à la élaboration de nouvelles synthèses mieux adaptées à notre temps. Mais il ne faut pas perdre de vue tout au long de cet ouvrage que le mystère du mal qui est au cœur de l'idée de péché originel reste et restera toujours un mystère. *Regalia : les*
