Love In The Classroom A New York Story:

Love In The Classroom Randolph James, 2013-09 The five protagonists Hugh a veteran administrator dealing with the complacency of a long marriage Michael an Irish American English teacher trapped in a loveless marriage to daddy's girl Marissa a young Puerto Rican teacher struggling to find love in the Bronx Andrew a high school dean basketball coach having forsaken love for a bevy of partners and Reggie stalling his lovely fiancée in order to have that last fling But the primary story of *Love in the Classroom A New York Story* is that of the New York educational system and the stories that unfold away from the public's eyes The incidents are realistic and portrayed in an honest and perceptive way If you've ever wondered what goes on in the minds of people who make the decisions that affect the lives of children here is your opportunity to find out *Love in the Classroom* is a must read for educators and parents alike **Love in America** Lawrence R. Samuel, 2019-11-22 Widely considered the most complex of human emotions romantic love both shapes and reflects core societal values its expression offering a window into the cultural zeitgeist In popular culture romantic love has long been a mainstay of film television and music The gap between fictitious narratives of love and real life ones is however usually wide American's expectations of romance and affection often transcend reality Tracing the history of love in American culture this book offers insight into both the national character and emotional nature *New York School Journal*, 1895 **The Church School Journal**, 1876 *Love and Money* Lisa Henderson, 2013-01-01 *Love and Money* argues that we can't understand contemporary queer cultures without looking through the lens of social class Resisting old divisions between culture and economy identity and privilege left and queer recognition and redistribution *Love and Money* offers supple approaches to capturing class experience and class form in and around queerness Contrary to familiar dismissals not every queer television or movie character is like Will Truman on *Will and Grace* rich white healthy professional detached from politics community and sex Through ethnographic encounters with readers and cultural producers and such texts as *Boys Don't Cry* *Brokeback Mountain* *By Hook or By Crook* and wedding announcements in the *New York Times* *Love and Money* sees both queerness and class across a range of idioms and practices in everyday life How it asks do readers of Dorothy Allison's novels use her work to find a queer class voice How do gender and race broker queer class fantasy How do independent filmmakers cross back and forth between industry and queer sectors changing both places as they go and challenging queer ideas about bad commerce and bad taste With an eye to the nuances and harms of class difference in queerness and a wish to use culture to forge queer and class affinities *Love and Money* returns class and its politics to the study of queer life **Multi-ethnic Literature in the High School** Jean H. Lightfoot, 1973 *Not Alone* Jason Mayernick, 2023-12-15 Between 1970 and 1985 lesbian gay and bisexual LGB educators publicly left their classroom closets formed communities and began advocating for a place of openness and safety for LGB people in America's schools They fought for protection and representation in the National Education Association and American Federation of Teachers as well

as building community and advocacy in major gay and lesbian teacher organizations in New York Los Angeles and Northern California In so doing LGB teachers went from being a profoundly demonized and silenced population that suffered as symbolically emblematic of the harmful bad teacher to being an organized community of professionals deserving of rights capable of speaking for themselves and often able to reframe themselves as good teachers This prescient book shows how LGB teachers and their allies broadened the boundaries of professionalism negotiated for employment protection and fought against political opponents who wanted them pushed out of America s schools altogether **Labor's Love Lost** Andrew J. Cherlin,2014-12-04 Two generations ago young men and women with only a high school degree would have entered the plentiful industrial occupations which then sustained the middle class ideal of a male breadwinner family Such jobs have all but vanished over the past forty years and in their absence ever growing numbers of young adults now hold precarious low paid jobs with few fringe benefits Facing such insecure economic prospects less educated young adults are increasingly forgoing marriage and are having children within unstable cohabiting relationships This has created a large marriage gap between them and their more affluent college educated peers In Labor s Love Lost noted sociologist Andrew Cherlin offers a new historical assessment of the rise and fall of working class families in America demonstrating how momentous social and economic transformations have contributed to the collapse of this once stable social class and what this seismic cultural shift means for the nation s future Drawing from more than a hundred years of census data Cherlin documents how today s marriage gap mirrors that of the Gilded Age of the late nineteenth century a time of high inequality much like our own Cherlin demonstrates that the widespread prosperity of working class families in the mid twentieth century when both income inequality and the marriage gap were low is the true outlier in the history of the American family In fact changes in the economy culture and family formation in recent decades have been so great that Cherlin suggests that the working class family pattern has largely disappeared Labor s Love Lost shows that the primary problem of the fall of the working class family from its mid twentieth century peak is not that the male breadwinner family has declined but that nothing stable has replaced it The breakdown of a stable family structure has serious consequences for low income families particularly for children many of whom underperform in school thereby reducing their future employment prospects and perpetuating an intergenerational cycle of economic disadvantage To address this disparity Cherlin recommends policies to foster educational opportunities for children and adolescents from disadvantaged families He also stresses the need for labor market interventions such as subsidizing low wages through tax credits and raising the minimum wage Labor s Love Lost provides a compelling analysis of the historical dynamics and ramifications of the growing number of young adults disconnected from steady decent paying jobs and from marriage Cherlin s investigation of today s would be working class shines a much needed spotlight on the struggling middle of our society in today s new Gilded Age **Two Love Stories: One Short...One Long** Joanne Hands,2019-05-05 Two love stories one short one long that depict young love that progresses from innocence to

murder and mayhem Both stories involve conflict confusion and mistakes Short Story Cheryl witness to a murder and under police protection during the trial becomes a roommate with David one of the assigned officers after the trial The situation becomes conflicted when David s girlfriend who does not live with him becomes upset about the living arrangement Long Story Carol a young aspiring journalist becomes involved with and married to Sam a popular journalist in New York City within a very short period of time They engage in a fast track relationship that results in a very quick marriage Shortly after the marriage Sam is assigned to cover a conflict in the Dominican Republic and is listed as missing and later found dead I Love History But I Hated It in School , **Modern Love** Marcus Collins,2006-06 Private life has altered beyond all recognition during the past one hundred years Britain in 1900 was emerging from a Victorian era in which prudery patriarchal authority and pettifogging rules of etiquette were widely perceived to have circumscribed relations between men and women The twentieth century witnessed a reaction against this system of separate spheres spearheaded by reformers eager that the sexes become each other s equals and intimates Modern Love traces the trajectory of this new model of personal relationships over the course of the twentieth century from its emergence out of the crucible of the suffrage campaign through its reshaping by the women s liberation movement It explores its impact on smut merchants warring couples and teenagers as well as its reception by such diverse figures as Bertrand Russell and Germaine Greer It draws on sources as varied as suffragette propaganda banned sex manuals marriage counseling literature and pin up magazines Marcus Collins teaches modern British history at Emory University **Love and the Working Class** Karen Lystra,2024 Love and the Working Class is a unique look at the emotions of hard living racially diverse nineteenth century Americans who were often on the cusp of literacy Wrongly assumed to be inarticulate on paper these laboring folk highly valued letters and however difficult it was wrote to stay connected to those they loved Locating Medical History Frank Huisman,John Harley Warner,2006-10-31 The issues constituting the history of medicine are consequential how societies organize health care how individuals or states relate to sickness how we understand our own identity and agency as sufferers or healers In Locating Medical History The Stories and Their Meanings Frank Huisman John Harley Warner and other eminent historians explore and reflect on a field that accommodates a remarkable diversity of practitioners and approaches At a time when medical history is facing profound choices about its future these scholars explore the discipline in the distant and recent past in order to rethink its missions and methods today They discuss such issues as the periodic estrangement of medical history from medicine the influence of Foucault on the writing of medical history and the shifts from social to cultural history and back again Chapters explore the early history of the field its transformations since the 1970s and its prospects for the future With diverse constituencies a multiplicity of approaches styles and aims is both expected and desired This volume locates medical history within itself and within larger historiographic trends to provide a springboard for discussions about what the history of medicine should be and what aims it should serve Contributors Olga Amsterdamska University of Amsterdam Warwick

Evolution versus Revolution Melvyn L. Fein, 2015-11-02 Revolutionary and evolutionary theorists have very different views about change Fein writes in favor of evolution He proposes an integrated model of social evolution one that accounts for the complexity inconclusiveness and impediments that characterize social transformations This multi dimensional approach recognizes that change is always saturated in conflict Major changes are rarely initiated by conscious decisions that are automatically implemented power and morality generally control the direction that significant alterations take Fein explains how the social generalist dilemma places our need for both flexibility and stability in opposition to each other such that non rational mechanisms are needed to produce a solution He also describes how an inverse force ruledictates that small societies are bound together by strong social forces whereas large ones are secured by weak forces This suggests that social roles are likely to become professionalized over time If social change is in fact analogous to natural rather than artificial selection we may be in the midst of an only partially predictable middle class revolution Indeed the current impasse between liberals and conservatives may be evidence that we are in the consolidation phase of this process Should this be the case a paradigm shift not a classical revolution is in our future

Federica Gregoratto, 2025-01-21 What does it mean to love Does love complete us giving us purpose and meaning Or does it tie us down and even harm us Is erotic desire complicit in oppression or could it deliver liberation Are our desires extricable from the wrongs of our societies And in today s world is love still worth the trouble This book develops a critical theory of sexual love and friendship offering profound new ways to understand the troublesome nature of eros Federica Gregoratto explores the ambivalence of erotic love which is at once intimately interwoven with heterosexism racism and neoliberal capitalism yet entices us with the tantalizing possibility of transformation Drawing on a rich array of sources from Frankfurt School critical theory to feminist thought and contemporary philosophies of emotions and affects as well as poetry novels films and music she argues that love provides unexpected resources for political agency resistance and emancipation Gregoratto makes a passionate defense of erotic freedom as an adventurous process through which we understand together with others who we are and who we want to become both in our individual existences and in our social lives Wide ranging and daring Love Troubles invites us to reflect on our fraught amorous experiences showing why we should cherish and learn from them
